The client can visit the page of our product on the website. So the client can understand our CCSK Quiz torrent well and decide whether to buy our CCSK exam questions or not at their wishes.

Cloud Security Alliance Certificate of Cloud Security Knowledge v5

(CCSKv5.0) Sample Questions (Q113-Q118):

NEW QUESTION # 113

Which of the following is not an abuse or misuse of cloud services?

- A. Launching DDoS Attacks
- **B. Data Deletion**
- C. Email Spam
- D. Phishing campaigns

Answer: B

Explanation:

Please note here and understand the meaning of phrase "abuse or misuse of cloud Services". This phrase means to launch attacks or campaign by using cloud as a platform, mostly, public cloud.

NEW QUESTION # 114

What is a key component of governance in the context of cybersecurity?

- A. Defining tools and technologies
- B. Enforcement of the Penetration Testing procedure
- **C. Defining roles and responsibilities**
- D. Standardizing technical specifications for security control

Answer: C

Explanation:

A key component of governance in cybersecurity is defining roles and responsibilities. Governance ensures that the right people within an organization are assigned specific duties related to security and that they are held accountable for those responsibilities. This helps establish clear lines of authority and accountability, ensuring that everyone knows what they are responsible for in terms of security practices, policies, and procedures.

While standardizing technical specifications, defining tools and technologies, and enforcing penetration testing are important elements of a cybersecurity strategy, defining roles and responsibilities is essential for overall governance to ensure that security practices are consistently followed.

NEW QUESTION # 115

In a cloud environment, what does the Shared Security Responsibility Model primarily aim to define?

- A. The guidance for the cloud compliance framework
- B. The compliance with geographical data residency and sovereignty
- **C. The division of security responsibilities between cloud providers and customers**
- D. The relationships between IaaS, PaaS, and SaaS providers

Answer: C

Explanation:

The Shared Security Responsibility Model clarifies which security responsibilities are managed by the CSP and which by the CSC, based on the service model. Reference: [CCSK Study Guide, Domain 1 - Cloud Security Models][16†source].

NEW QUESTION # 116

Which provides guidelines for organizational information security standards including the selection, implementation, and management of controls taking into consideration the organization's information security risk environments?

- **A. ISO 27002**
- B. FIPS 140-2
- C. ISO 27001
- D. NIST 800-9

Answer: A

Explanation:

ISO 27002 is a standard which provides detailed description of security controls and how they need to be implemented to provide effective ISMS.

NEW QUESTION # 117

Which standard offers guidelines for information security controls applicable to the provision and use of cloud services?

- A. ISO 27017
- B. ISO 27034
- **C. ISO 27018**
- D. ISO 15048

Answer: C

Explanation:

ISO 270017 provides guidance on the information security aspects of cloud computing, recommending and assisting with the implementation of cloud-specific information security controls supplementing the guidance in ISO/IEC 27002 and other ISO 27k standards.

NEW QUESTION # 118

.....
