- A. Managed availability and capacity
- B. Managed I&T management framework
- C. Managed service agreements

Answer: A

Explanation:
Explanation
The management objective related to optimization of system performance is managed availability and capacity. A management objective is a desired outcome of the management processes for information and technology. Managed availability and capacity is one of the 40 management objectives defined by COBIT that describes how to ensure that I&T services are delivered at agreed levels, as well as optimized for current and future needs.14 References: COBIT 2019 Framework: Introduction and Methodology, COBIT 2019 Framework: Governance and Management Objectives

NEW QUESTION # 34
Which of the following is the PRIMARY purpose of implementing an enterprise governance of information and technology (EGIT) system?

- A. To document I&T business objectives and processes
- B. To deliver stakeholder value from I&T-enabled investments
- C. To comply with I&T regulatory requirements

Answer: B

Explanation:
Explanation
The primary purpose of implementing an enterprise governance of information and technology (EGIT) system is to deliver stakeholder value from I&T-enabled investments. An EGIT system is a set of components that provide direction, oversight, evaluation, monitoring, assurance, etc., for an enterprise's information and technology. An I&T-enabled investment is any initiative or project that involves the use of information and technology to create value for the enterprise. A stakeholder is a person or group that has an interest or concern in an enterprise's activities or outcomes. The primary purpose of implementing an EGIT system is to deliver stakeholder value from I&T-enabled investments by ensuring that they align with the enterprise strategy and objectives, optimize risks and resources, achieve expected benefits and outcomes, etc.12 References: COBIT 2019 Framework: Introduction and Methodology, COBIT 2019 Framework: Governance System

NEW QUESTION # 35
Ensuring the program team knows and understands the enterprise goals is a part of which of the following implementation phases?

- A. What are the drivers?
- B. Where are we now?
- C. How do we get there?
- D. Where do we want to be?

Answer: D

Explanation:

Ensuring the program team knows and understands the enterprise goals is a part of the "Where do we want to be?" phase of the implementation. The implementation of a governance system is divided into seven phases, each with a set of activities and outputs. The "Where do we want to be?" phase involves defining the desired outcomes and target state of the governance system, based on the enterprise's vision, mission, values, and goals. One of the activities in this phase is to ensure that the program team is aware of and aligned with the enterprise goals, as well as their roles and responsibilities in achieving them. The answer is based on the COBIT 2019 Implementation Guide2, page 34. References: 2: COBIT 2019 Implementation Guide | Digital | English
