DEP-2025 Latest Test Prep | DEP-2025 Valid Test Registration

When we update the DEP-2025 preparation questions, we will take into account changes in society, and we will also draw user feedback. If you have any thoughts and opinions in using our DEP-2025 study materials, you can tell us. We hope to grow with you and the continuous improvement of DEP-2025 training engine is to give you the best quality experience. And you can get the according DEP-2025 certification as well.

Apple Deployment and Management Exam Sample Questions (Q10-Q15):

NEW QUESTION # 10
You bought new app licenses in Apple Business Manager, but they're not available in your MDM solution.
What might cause this?

- A. Creation of a new Content Manager
- B. APNs token annual expiration

- C. A password change to the MDM administrator account
- D. Content token annual expiration

Answer: D

Explanation:
Content token expiration disrupts app sync. TheApple Business Manager User Guidestates, "If the content token expires, app licenses won't sync to the MDM solution until it's renewed." Option B affects notifications, not apps.
References:
Apple Business Manager User Guide, "Apps and Books" section.
Mobile Device Management Protocol Reference, "Content Token" section.

NEW QUESTION # 11
Where are bypass codes for Apple devices stored when you use organization-linked Activation Lock?

- A. In the user's personal Apple Account
- B. In the user's Managed Apple Account
- C. In the MDM solution
- D. In Apple Business Manager or Apple School Manager

Answer: C

Explanation:
Bypass codes are stored in MDM for organization-linked Activation Lock. The Apple Platform Deployment Guide states, "Bypass codes for organization-linked Activation Lock are stored in the MDM solution, allowing administrators to unlock devices without user credentials." Reference:
Apple Platform Deployment Guide, "Activation Lock" section.
Mobile Device Management Protocol Reference, "Activation Lock Management" section.

NEW QUESTION # 12
What's the benefit of using Managed Distribution?

- A. Allows personalization
- B. Enables app license management
- C. Simplifies enrollment
- D. Separates personal and managed data

Answer: B

Explanation:
Managed Distribution, available through Apple Business Manager or Apple School Manager, enables app license management by allowing organizations to purchase, assign, and revoke app licenses centrally. This ensures efficient use of licenses, reassignment as needed, and compliance with licensing terms.
Personalization (option A) is unrelated to distribution. Data separation (option C) is a feature of User Enrollment, not Managed Distribution. Simplified enrollment (option D) pertains to ADE, not app management. TheApple Business Manager User Guidehighlights license management as the primary benefit.
Reference:Apple Business Manager User Guide(Section: Managed Distribution).

NEW QUESTION # 13
Which declarative device management declarations can an MDM server use to store values on a device?

- A. Enrollments
- B. Devices
- C. Activations
- D. Security

Answer: C

Explanation:
Activations store values. The Mobile Device Management Protocol Reference states, "Declarative Device Management uses Activations declarations to store values on a device, enabling proactive state management." Reference:
Mobile Device Management Protocol Reference, "Declarative Management" section.
Apple Platform Deployment Guide, "DDM" section.

NEW QUESTION # 14
Which aspect of your organization's infrastructure should you evaluate to ensure that your organization meets the network roaming needs of users throughout a building?

- A. Number of devices per user
- B. Sources of interference caused by construction materials
- C. Wi-Fi coverage and capacity
- D. Adequate number of access points per device

Answer: C

Explanation:
To support network roaming-where devices maintain connectivity while moving throughout a building-evaluating Wi-Fi coverage and capacity is essential. This involves assessing signal strength, bandwidth availability, and the ability of the wireless network to handle multiple devices seamlessly. Proper placement and power of access points ensure uninterrupted service. Number of devices per user (option A) is unrelated to roaming. Adequate access points per device (option C) is a specific detail within coverage and capacity, not the overarching aspect. Sources of interference (option D) is a factor to consider but secondary to overall coverage and capacity. The Apple Platform Deployment Guide stresses Wi-Fi infrastructure evaluation for mobility needs.

NEW QUESTION # 15
.....

Apple DEP-2025 Exam Questions just focus on what is important and help you achieve your goal. With high-quality DEP-2025 guide materials and flexible choices of learning mode, they would bring about the convenience and easiness for you. Every page is carefully arranged by our experts with clear layout and helpful knowledge to remember.

DEP-2025 Latest Test Prep: https://www.testsimulate.com/DEP-2025-study-materials.html

The content of our DEP-2025 pass guide covers the most of questions in the actual test and all you need to do is review our DEP-2025 vce dumps carefully before taking the exam, If you purchase our DEP-2025: Apple Deployment and Management Exam test questions materials, we guarantee our products are valid for one year, Only for windows systems), one strong point is that PC version of DEP-2025 latest dumps can be downloaded again in another computer which seldom providers can meet, Apple DEP-2025 Dumps Collection All the dumps are finished by our IT master team with very high quality.

Implement assessment tools and techniques to discover security threats and DEP-2025 vulnerabilities, If you decided in favor of a tabulated format, you may be limited to alternatives such as FitNesse, Robot Framework, or Concordion.
