

Fortinet FCP_GCS_AD-7.6 Updated Dumps - FCP_GCS_AD-7.6 Passing Score Feedback

What's more, part of that RealVCE FCP_GCS_AD-7.6 dumps now are free: <https://drive.google.com/open?id=1mrJ22ivpzJ9Mw26ur1mfnp7pPnIVgDS>

The RealVCE is a leading platform that is committed to offering make the Fortinet Exam Questions preparation simple, smart, and successful. To achieve this objective RealVCE has got the services of experienced and qualified FCP - Google Cloud Security 7.6 Administrator (FCP_GCS_AD-7.6) exam trainers. They work together and put all their efforts and ensure the top standard of RealVCE FCP - Google Cloud Security 7.6 Administrator (FCP_GCS_AD-7.6) exam dumps all the time.

Everyone is not willing to fall behind, but very few people take the initiative to change their situation. Take time to make a change and you will surely do it. Our FCP_GCS_AD-7.6 actual test guide can give you some help. Our company aims to help ease the pressure on you to prepare for the FCP_GCS_AD-7.6 exam and eventually get a certificate. Obtaining a certificate is equivalent to having a promising future and good professional development. Our FCP_GCS_AD-7.6 Study Materials have a good reputation in the international community and the quality of our FCP_GCS_AD-7.6 study guide is guaranteed.

Free PDF FCP_GCS_AD-7.6 Updated Dumps - Pass FCP_GCS_AD-7.6 in One Time - High-quality FCP_GCS_AD-7.6 Passing Score Feedback

Customizable practice tests comprehensively and accurately represent the actual Professional Fortinet FCP_GCS_AD-7.6 Certification Exam pattern. Many students have studied from product and passed the FCP - Google Cloud Security 7.6 Administrator (FCP_GCS_AD-7.6) test with ease. Our customers can receive questions updates for up to 1 year after purchasing the product. These free updates of questions will help them to prepare according to the latest syllabus.

Fortinet FCP - Google Cloud Security 7.6 Administrator Sample Questions (Q15-Q20):

NEW QUESTION # 15

An organization decided to decommission a deployed FortiWeb instance on Google Cloud.
What is the most efficient way to delete the FortiWeb instance and all of its dependent resources?

- A. Use Google Cloud Solutions to delete the FortiWeb deployment.
- **B. Use Google Cloud Deployment Manager to delete the FortiWeb deployment.**
- C. Delete the FortiWeb instance manually in the Compute Engine portal.
- D. Visit Google Cloud Marketplace and unsubscribe from FortiWeb pay-as-you-go.

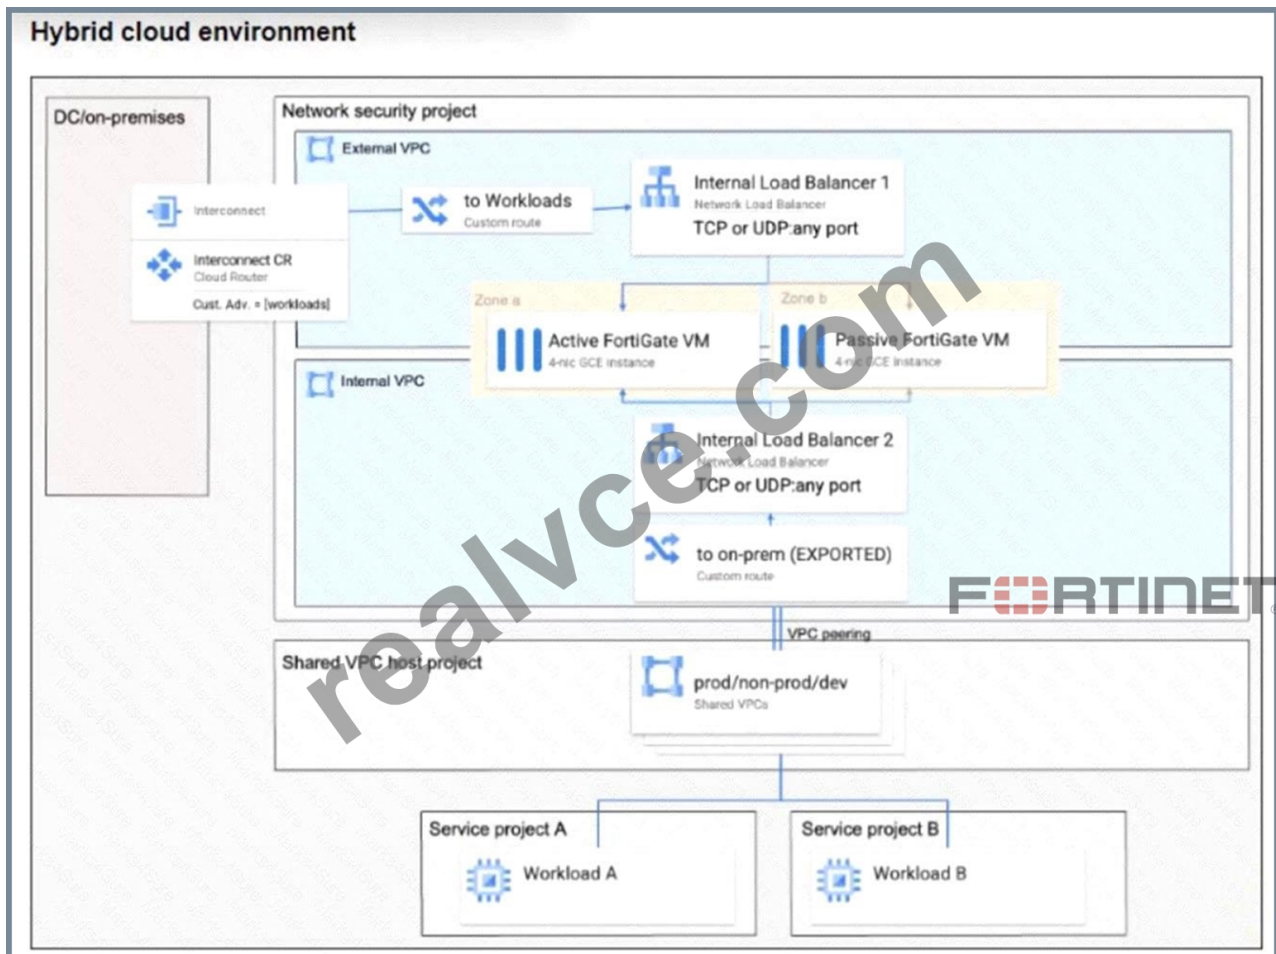

Answer: B

Explanation:

Google Cloud Deployment Manager manages the lifecycle of deployments and their dependent resources, enabling efficient and clean deletion of FortiWeb instances and all associated resources in one operation.

NEW QUESTION # 16

Refer to the exhibit.

In this hybrid environment, in which two ways does the traffic flow from a network node in the on-premises network to Workload B in Google Cloud? (Choose two.)

- A. Once the traffic has been inspected, the active FortiGate uses VPC peering to forward the traffic to the Server project A VPC.
- **B. When the packet reaches the external VPC, it is forwarded to the active FortiGate cluster member using a custom static route.**
- **C. Traffic will be routed using VPC peering from the Internal VPC to the destination subnet.**
- D. Traffic will not reach the FortiGate devices because both load balancers are internal.

Answer: B,C

Explanation:

Traffic from on-premises enters the external VPC and is routed to the active FortiGate VM via custom routes for inspection.

After inspection, traffic is routed through VPC peering from the internal VPC to the service project subnet where Workload B resides.

NEW QUESTION # 17

An organization is planning to deploy two FortiGate VMs in two different regions.

Which two Google Cloud core components can span both FortiGate VMs in both regions? (Choose two.)

- A. Google Cloud project
- B. Google Cloud virtual private cloud
- C. Google Cloud subnet
- D. Google Cloud zone

Answer: A,B

Explanation:

A Google Cloud VPC can span multiple regions, allowing FortiGate VMs in different regions to be part of the same network.

A Google Cloud project provides the administrative boundary that can include resources across multiple regions and VPCs, enabling centralized management of both FortiGate VMs.

NEW QUESTION # 18

Your organization has decided to deploy a Fortinet web application firewall (WAF) in Google Cloud.

Why would the organization choose FortiWeb Cloud over FortiWeb VM?

- A. Because the organization requires a WAF with highly customizable WAF rules and settings
- B. Because the organization requires a WAF with SSL offloading and load balancing
- C. Because the organization requires advanced bot detection and mitigation
- D. Because the organization requires a fully managed WAF solution

Answer: D

Explanation:

FortiWeb Cloud is a fully managed web application firewall service, ideal for organizations seeking a cloud- native, hands-off WAF deployment without the need to manage virtual appliances.

NEW QUESTION # 19

For what three reasons must you deploy a set of Google Cloud passthrough network load balancers for an active-passive high-availability (HA) FortiGate cluster instead of a set of Google Cloud proxy network load balancers? (Choose three.)

- A. Passthrough network load balancers rely on API calls from FortiGate devices during HA failovers.
- B. Passthrough network load balancers can forward all protocols.
- C. Passthrough network load balancers support health checks.
- D. Passthrough network load balancers offer the highest throughput.
- E. Passthrough network load balancers terminate SSL connections.

Answer: B,C,D

Explanation:

Passthrough load balancers support health checks to monitor backend health for failover.

They can forward all protocols, not limited to HTTP/HTTPS like proxy load balancers.

Passthrough load balancers provide higher throughput because they don't terminate sessions.

NEW QUESTION # 20

.....

By focusing on how to help you more effectively, we encourage exam candidates to buy our FCP_GCS_AD-7.6 study braindumps with high passing rate up to 98 to 100 percent all these years. Our experts designed three versions for you rather than simply
