**Latest Test LEED-Green-Associate Experience & LEED-Green-Associate Latest Exam Materials**

Our company is a professional certification exam materials provider. We have occupied in this field more than ten years, therefore we have rich experiences in providing valid exam dumps. LEED-Green-Associate training materials cover most of knowledge points for the exam, and you can improve your professional ability in the process of learning. LEED-Green-Associate Exam Materials are high-quality, and you can improve your efficiency while preparing for the exam. We offer you free demo for LEED-Green-Associate exam dumps, you can have a try before buying, so that you can have a deeper understanding of what you are going to buy.

## USGBC LEED Green Associate Exam Sample Questions (Q241-Q246):

### NEW QUESTION # 241

Which LEED adaptation includes the ability to reduce point thresholds for LEED certification levels based on building size?

- A. LEED Neighborhood Development: Built Project
- B. LEED Building Design and Construction: Schools
- C. LEED Interior Design and Construction: Retail
- D. LEED Building Design and Construction: Homes

**Answer: D**

Explanation:

Explanation

LEED Building Design and Construction: Homes is the rating system that applies to single-family homes, low-rise multi-family homes, and mid-rise multi-family homes<sup>1</sup>. It includes the ability to reduce point thresholds for LEED certification levels based on building size, as smaller homes tend to have lower environmental impacts than larger homes<sup>2</sup>. The point thresholds are determined by the size of the house compared to the number of bedrooms<sup>1</sup>.

References: 2 LEED v4: Building Design + Construction Guide, Homes, p. 171 The LEED rating system - Ecohome.

### NEW QUESTION # 242

What does the U.S. Green Building Council (USGBC) administer?

- A. LEED Credentialing programs related to Green Building practice
- B. LEED rating systems development
- C. LEED Green Associate exams
- D. LEED Project Certification through third-party certification bodies accredited by the American National Standards Institute (ANSI)

**Answer: A**

Explanation:

The USGBC administers the LEED credentialing programs, which include the LEED Green Associate and the LEED AP with specialty credentials. The USGBC does not administer the LEED exams, the LEED rating systems development, or the LEED project certification.

Reference:

The LEED Green Associate Candidate Handbook states that "The U.S. Green Building Council (USGBC) administers the LEED credentialing programs related to green building practice" 1, page 3.

The same handbook also states that "The Green Business Certification Inc. (GBCI) administers the LEED professional credential exams" 1, page 3.

The LEED AP with Specialty Candidate Handbook states that "The U.S. Green Building Council (USGBC) is responsible for the development of the LEED rating systems" 2, page 3.

The same handbook also states that "The Green Business Certification Inc. (GBCI) administers project certification for all commercial and institutional projects pursuing LEED certification under any of the current rating systems" 2, page 3.

### NEW QUESTION # 243

At what phase should the charrette take place?

- A. During the construction process
- B. During the design process
- C. Post commissioning
- D. At the Beginning of the project

**Answer: D**

Explanation:

A charrette is a collaborative workshop that brings together various stakeholders and experts to address a particular design issue, such as sustainability, security, or accessibility. A charrette should take place at the beginning of the project, when the project goals, scope, and budget are being defined, and when the most impact can be made with the least cost. A charrette can help establish a shared vision, identify potential challenges and opportunities, and generate innovative and integrated solutions.

A Handbook for Planning and Conducting Charrettes for High-Performance Projects, page 1-2; LEED v4 Green Associate Candidate Handbook, page 12.

**NEW QUESTION # 244**

When should the Commissioning Authority (CxA) be brought onto the project team?

- A. Early in the Post-Occupancy Evaluation (POE)
- B. Once Construction Administration (CA) begins
- **C. Early in the Schematic Design (SD) phase**
- D. At the end of Design Development (DD)

**Answer: C**

Explanation:

Explanation

According to LEED v4, the commissioning authority (CxA) should be contracted before the end of the Design Development (DD) phase and should be involved in the project team from early in the Schematic Design (SD) phase1.

**NEW QUESTION # 245**

In addition to the temperature and air movement, what is another factor to consider when implementing Thermal Comfort strategies?

- A. Carbon dioxide concentrations
- B. Combustion processes from vehicles
- **C. Humidity**
- D. Methane off-gassing

**Answer: C**

Explanation:

In addition to temperature and air movement, humidity is another factor to consider when implementing thermal comfort strategies. Humidity is the amount of water vapor in the air, which affects how warm or cool people feel. High humidity can make people feel hotter and more uncomfortable, while low humidity can cause dryness and irritation of the skin, eyes, nose, and throat. Thermal comfort strategies should aim to maintain an optimal level of humidity that balances human comfort and health with energy efficiency and moisture control. The other options are not factors to consider when implementing thermal comfort strategies.

Methane off-gassing is the release of methane gas from organic matter decomposition or anaerobic digestion, which contributes to greenhouse gas emissions and climate change. Carbon dioxide concentrations are a measure of indoor air quality that indicates the level of ventilation and fresh air supply in a space. Combustion processes from vehicles are sources of outdoor air pollution that emit carbon monoxide, nitrogen oxides, particulate matter, and other harmful substances. References: LEED Green Associate Candidate Handbook, page 29; USGBC, [Indoor Environmental Quality], page 2.

**NEW QUESTION # 246**

.....

Are you still worried about your coming LEED-Green-Associate exam and have no idea what to do? Are you too busy to study with all the books and other broad exam materials which will take you a long time to prepare for your exam? You can just choose to buy our LEED-Green-Associate Exam Questions which have settle all these problems for you. And our pass rate of the LEED-Green-Associate study materials is high as 98% to 100%. Hence they are your real ally for establishing your career pathway and get your potential attested.
