NEW QUESTION # 205

You set up a new instance of Dynamics 365 for Customer Service.

Users report a variety of issues working with cases on mobile devices.

You need to configure the mobile app to be able to view cases.

NOTE: Each correct selection is worth one point.

Scenario	Action needed
Users cannot see case records on mobile devices.	<input type="checkbox"/> Configure mobile settings set on the case entity level. <input type="checkbox"/> Configure mobile settings at the field level within the case form. <input type="checkbox"/> Configure a security role in the mobile permission set for appropriate users.
Users can open cases but cannot see the subject of the case.	<input type="checkbox"/> Configure mobile settings set at the case entity level. <input type="checkbox"/> Configure mobile settings at the field level within the case form. <input type="checkbox"/> Configure a security role in the mobile permission set for appropriate users.
Users report that they cannot access the system from the Dynamics 365 mobile app.	<input type="checkbox"/> Configure mobile settings set at the case entity level. <input type="checkbox"/> Configure mobile settings at the field level within the case form. <input type="checkbox"/> Configure a security role in the mobile permission set for appropriate users.

Answer:

Explanation:

Scenario	Action needed
Users cannot see case records on mobile devices.	<input checked="" type="checkbox"/> Configure mobile settings set on the case entity level. <input type="checkbox"/> Configure mobile settings at the field level within the case form. <input type="checkbox"/> Configure a security role in the mobile permission set for appropriate users.
Users can open cases but cannot see the subject of the case.	<input type="checkbox"/> Configure mobile settings set at the case entity level. <input checked="" type="checkbox"/> Configure mobile settings at the field level within the case form. <input type="checkbox"/> Configure a security role in the mobile permission set for appropriate users.
Users report that they cannot access the system from the Dynamics 365 mobile app.	<input type="checkbox"/> Configure mobile settings set at the case entity level. <input checked="" type="checkbox"/> Configure mobile settings at the field level within the case form. <input checked="" type="checkbox"/> Configure a security role in the mobile permission set for appropriate users.

Explanation

1. User is able to login but can't see Case Records --> "Configure Mobile Settings on Case Entity Level"

2. Users can open cases but cannot see the subject of the case - "configure mobile settings at the field level within the case form
 3. User reports that they cannot access the system from Dynamics 365 mobile app --> Configure a security role in the mobile permission set of the appropriate user

NEW QUESTION # 207

You use Power Virtual Agents to create a bot that will answer and transfer help desk calls.
 You create topics that contain nodes and functions. The company has the following requirements for the bot:
 * When a caller states the word issue, help, or problem, the bot must respond with the question, "How can we help you today?"
 * When the bot responds with the question, "How can we help you today?", the bot must provide the caller with the choices of

hardware, software or other

* When the caller asks a question, the bot must save the response so that it can perform an action on the response.

You need to configure the bot.

Which nodes or functions should you use? To answer, select the appropriate options in the answer area.

Requirement
Caller states **issue, help, or problem.**

Bot provides choices.

Responses are temporarily saved.

NEW QUESTION # 208

You are designing a Power Virtual Agents chatbot.

You observe that the environment you plan to use does not appear as an option in the Power Virtual Agents user interface.

You need to ensure that you can create the chatbot in the environment that you want to use.

What should you do?

- A. Change the region for the environment.
- B. Convert the environment to a sandbox environment.
- C. Create an environment in a supported region.

Answer: C

Explanation:
