Salesforce Certified Field Service Consultant Sample Questions (Q136-Q141):

NEW QUESTION # 136

Which two reports should a Consultant build to track the number of parts used by a Technician during a given time period? Choose 2 answers

- A. Service Appointment inventory
- B. Products Consumed on Work Orders
- C. Products Consumed on Work Order Line Items
- D. Work Order inventory

Answer: B,C

Explanation:

Products consumed on work order line items and products consumed on work orders are two reports that can track the number of parts used by a technician during a given time period. Products consumed on work order line items are used to track individual products or services that are part of a work order line item. Products consumed on work orders are used to track products or services that are consumed as part of a work order.
