You can also know how to contact us and what other client's evaluations about our Slack-Con-201 test braindumps. You will pass the Slack-Con-201 exam as our Slack-Con-201 study guide has a pass rate of 99% to 100%.

Salesforce Certified Slack Consultant Sample Questions (Q59-Q64):

NEW QUESTION # 59

A remote team wants to maintain visibility on project progress and address blockers quickly using Slack. What type of workflow should they implement for their daily stand-ups?

- A. Setting up a weekly, rather than daily, automated workflow for updates to avoid daily interruptions
- **B. An automated workflow where team members are prompted to share what they worked on, plan to work on, and any blockers, in a common channel**
- C. A workflow that encourages team members to only report major accomplishments or blockers
- D. A workflow where team members send their updates directly to the project manager through direct messages

Answer: B

Explanation:

Implementing an automated daily stand-up workflow in a common channel allows for transparent sharing of daily tasks, future plans,

and any blockers, facilitating quick responses and maintaining project momentum in a remote setting.

NEW QUESTION # 60

A startup is implementing Slack for improved internal communication and project management.

They require a role that can manage day-to-day operations within their workspace, such as channel creation and user permissions, but doesn't need access to billing and high-level organizational settings. Which role would be most appropriate?

- A. Guest Admin, responsible for managing guest accounts and permissions
- B. Org Owner, who has access to all administrative settings, including billing
- C. Org Admin, overseeing administrative settings across multiple workspaces
- D. **Workspace Admin, tasked with managing day-to-day operations within their workspace**

Answer: D

Explanation:

For a startup, the Workspace Admin role is suitable for managing the day-to-day operations like channel creation and user permissions. This role provides the necessary administrative capabilities without access to high-level settings like billing, aligning with the startup's requirements.

NEW QUESTION # 61

During a consultation with a client new to Slack, what question should you ask to align Slack's capabilities with their long-term goals?

- A. **"What are your organization's strategic objectives and how do you envision Slack supporting these objectives?"**
- B. "How many channels do you think your organization will need in Slack?"
- C. "Would you prefer using Slack on desktop or mobile?"
- D. "What are your color preferences for the Slack interface to match your company branding?"

Answer: A

Explanation:

Understanding the client's strategic objectives and how they envision Slack supporting these goals is crucial. This question helps align Slack's capabilities with their long-term plans, ensuring that the implementation supports broader organizational aims.

NEW QUESTION # 62

When presenting the final Slack grid design to a client for sign-off, what should be the primary focus of your presentation to ensure client understanding and agreement?

- A. Emphasizing the aesthetic appeal of the Slack interface in the new design
- B. Showcasing the most advanced technical features of Slack, regardless of their relevance to the client's needs
- C. **Detailing the rationale behind the grid structure, how it aligns with the client's workflow, and how it addresses their specific communication needs**
- D. The total cost of implementing the proposed grid design

Answer: C

Explanation:

The primary focus when presenting the final grid design should be on explaining the rationale behind the chosen structure. This includes how the design aligns with the client's workflow and addresses their specific communication and collaboration needs. This approach ensures that the client understands the benefits and functionality of the design, leading to informed agreement.

NEW QUESTION # 63

A startup is implementing Slack for its dynamic and rapidly evolving team. What key element should be included in the learning plan for Slack to cater to this specific environment?

- A. A static, one-time training session covering basic Slack functionalities without follow-up or updates

- B. Informal, ad-hoc learning sessions led randomly by different team members without a structured curriculum
- C. An advanced, technical-focused training plan, regardless of the varying proficiency levels within the team
- D. A flexible and ongoing learning program that includes initial basic training, followed by regular updates and sessions as new features are released

Answer: D

Explanation:

For a startup with a dynamic team, a flexible and ongoing learning program is vital. Starting with basic training to build a foundation and continuing with regular updates ensures that the team keeps pace with new features and changes in Slack. This approach is crucial in a startup environment where adaptability and continuous learning are key.

NEW QUESTION # 64

.....
