2026 Latest ValidDumps 156-587 PDF Dumps and 156-587 Exam Engine Free Share: [https://drive.google.com/open?id=1RVtWJVJbKN0NxKPtHJHnLIV\\_mO\\_t\\_uQ-](https://drive.google.com/open?id=1RVtWJVJbKN0NxKPtHJHnLIV_mO_t_uQ-)

Our 156-587 exam braindumps are unlike other exam materials that are available on the market. Our 156-587 study torrent specially proposed different versions to allow you to learn not only on paper, but also to use mobile phones to learn. This greatly improves the students' availability of fragmented time to study our 156-587 learning guide. You can choose the version of 156-587 training quiz according to your interests and habits.

Do you want to find a fast way to step towards your dreams? We can help you by providing the latest and best useful 156-587 pdf torrent to guarantee your success in CheckPoint 156-587 test certification. We keep our 156-587 vce torrent the latest by checking the newest information about the updated version every day. Add the latest topics into the 156-587 Dumps, and remove the useless questions, so that your time will be saved and study efficiency will be improved.

## **Efficient Reliable 156-587 Exam Question Offers Candidates High-quality Actual CheckPoint Check Point Certified Troubleshooting Expert - R81.20 Exam Products**

ValidDumps constantly attract students to transfer their passion into progresses for the worldwide feedbacks from our loyal clients prove that we are number one in this field to help them achieve their dream in the 156-587 exams. For we have the guarantee of high quality on our 156-587 exam questions, so our 156-587 practice materials bring more outstanding teaching effect. And instead of the backward information accumulation of learning together can make students feel great burden, our latest 156-587 exam guide can

meet the needs of all kinds of students on validity or accuracy.

## CheckPoint Check Point Certified Troubleshooting Expert - R81.20 Sample Questions (Q40-Q45):

### NEW QUESTION # 40

What command is used to find out which port Multi-Portal has assigned to the Mobile Access Portal?

- A. `mpclient getdata sslvpn`
- B. `mpclient getdata mobi`
- C. `netstat -nap | grep mobile`
- D. `netstat getdata sslvpn`

**Answer: A**

### NEW QUESTION # 41

Which kernel process is used by Content Awareness to collect the data from contexts?

- A. `cpemd`
- B. CMI
- C. `dlpda`
- D. PDP

**Answer: C**

Explanation:

The kernel component associated with Content Awareness and data collection from contexts (often provided by the Context Management Infrastructure - CMI) is `dlpda`.

According to the Check Point R81.20 Quantum Security Gateway Administration Guide, within the listing of kernel modules, `dlpda` is described as follows:

Exact Extract:

Module "`dlpda`" (Data Loss Prevention - Download Agent for Content Awareness) Options analysis:

A . PDP (Policy Decision Point): This process is primarily associated with Identity Awareness for making access decisions based on user identity, not directly for Content Awareness data collection from CMI contexts.

B . `cpemd` (Check Point Endpoint Management Daemon): This daemon is related to endpoint security management and does not fit the role of a kernel process for gateway-level Content Awareness data collection.

D . CMI (Context Management Infrastructure): CMI is an infrastructure that provides contexts to various blades, including Content Awareness. It is the source of the contexts, not the kernel process that collects data based on those contexts.

Therefore, `dlpda` is the kernel component specifically tasked with collecting data for Content Awareness.

Reference:

Check Point R81.20 Quantum Security Gateway Administration Guide (The specific page number for the module listing, e.g., page 360, as found in typical versions of this guide for R81.x releases).

### NEW QUESTION # 42

The Unified Access Control policy eliminates the need to maintain policies for different access control features. However, you need to start a general debug of the Unified Policy with all flags turned on. Which of the following is the correct syntax?

- A. `fw ctl debug -m UP all`
- B. `fw ctl kdebug -m UP all`
- C. `fw ctl debug -m UP + all flags`
- D. `fwm ctl debug -m UP all`

**Answer: A**

### NEW QUESTION # 43

When a User process or program suddenly crashes, a core dump is often used to examine the problem. Which command is used to enable the core-dumping via GAIA cli?

- A. set core-dump per\_process
- B. set core-dump total
- C. set user-dump enable
- D. set core-dump enable

**Answer: D**

Explanation:

In Check Point Gaia, you can enable core dumping through the command line interface (clish) using the following command:

set core-dump enable

This command activates the core dump mechanism, allowing the system to generate core dump files when user processes crash.

Remember to save the configuration after enabling core dumps with the command:

save config

Why other options are incorrect:

\* B. set core-dump total: This command is used to set the total disk space limit for core dump files, not to enable core dumping itself.

\* C. set user-dump enable: There is no such command in Gaia clish for enabling core dumps.

\* D. set core-dump per\_process: This command sets the maximum number of core dump files allowed per process, but it doesn't enable core dumping.

Check Point Troubleshooting References:

\* Check Point R81.20 Security Administration Guide: This guide provides comprehensive information about Gaia clish commands, including those related to system configuration and troubleshooting.

\* Check Point sk92764: This knowledge base article specifically addresses core dump management in Gaia, explaining how to enable and configure core dumps.

Enabling core dumps is a crucial step in troubleshooting process crashes as it provides valuable information for analysis and debugging.

#### NEW QUESTION # 44

That is the proper command for allowing the system to create core files?

- A. > set core-dump enable  
> save config
- B. \$FWDIR/scripts/core-dump-enable.sh
- C. # set core-dump enable  
# save config
- D. service core-dump start

**Answer: A**

#### NEW QUESTION # 45

.....

Our 156-587 study materials boost three versions and they include the PDF version, PC version and the APP online version. The clients can use any electronic equipment on it. If only the users' equipment can link with the internet they can use their equipment to learn our 156-587 study materials. They can use their cellphones, laptops and tablet computers to learn our 156-587 study materials. The great advantage of the APP online version is if only the clients use our 156-587 Study Materials in the environment with the internet for the first time on any electronic equipment they can use our 156-587 study materials offline later. So the clients can carry about their electronic equipment available on their hands and when they want to use them to learn our 156-587 study materials they can take them out at any time and learn offline.
