These ServiceNow CAD exam questions have a high chance of coming in the actual CAD test. You have to memorize these CAD questions and you will pass the Certified Application Developer-ServiceNow (CAD) test with brilliant results.

ServiceNow Certified Application Developer-ServiceNow Sample Questions (Q56-Q61):

NEW QUESTION # 56

What is the name of the string that displays filter criteria?

- A. Menu
- B. Topic
- C. Choice
- D. Breadcrumb

Answer: D

NEW QUESTION # 57

Which one of the following is true for a table with the "Allow configuration" Application Access option selected?

- A. Out of scope applications can create Business Rules for the table
- B. Out of scope applications can add new tables to the scoped application
- C. Only the in scope application's scripts can create Business Rules for the table
- D. Any user with the application's user role can modify the application's scripts

Answer: A

NEW QUESTION # 58

Identify the incorrect statement about Delegated Development in ServiceNow.

- A. Administrators can grant the developer access to script fields.
- B. Administrators can grant the developer access to security records.
- C. Administrators can grant non-admin users the ability to develop global applications.
- D. Administrators can specify which application file types the developer can access.

Answer: D

Explanation:

Explanation/Reference: https://docs.servicenow.com/bundle/orlando-application-development/page/build/applications/concept/c_DelegatedDevelopment.html

NEW QUESTION # 59

If you create a SOAP Message, what syntax indicates a variable to pass when the function is called?

- A. < variable_name >.do?WSDL
- B. current.variable_name
- C. < variable_name >
- D. S {variable_name}

Answer: D

Explanation:

In the SOAP Message feature set, we indicate variables using the following syntax: S {variable_name}. This allows us to pass a variable with the specified name from the SOAP message record to the web service function.

NEW QUESTION # 60

Which Application Access configuration field(s) are NOT available if the Can read configuration field is NOT selected?

- A. Can read does not affect the availability of other Application Access fields
- B. Can create, Can update, and Can delete
- C. Allow configuration
- D. All access to this table via web services

Answer: B

Explanation:

"You must first select read access to grant any other API record operation." https://docs.servicenow.com/bundle/tokyo-application-development/page/build/applications/reference/r_TableApplicationAccessFields.html The Application Access configuration fields control the access level for an application and its tables. The following Application Access configuration fields are not available if the Can read configuration field is not selected:

Can create. This field determines whether users can create records on the application tables.

Can update. This field determines whether users can update records on the application tables.

Can delete. This field determines whether users can delete records on the application tables.

These fields are not available because they depend on the Can read field, which determines whether users can view records on the application tables. If users cannot read records, they cannot create, update, or delete them either.

The following Application Access configuration fields are available regardless of the Can read configuration field:

All access to this table via web services. This field determines whether users can access the application tables using web services, such as REST or SOAP.

Allow configuration. This field determines whether users can configure the application tables, such as adding or modifying fields, views, or indexes. References: Application Access, Certified Application Developer (CAD) Learning Path

NEW QUESTION # 61

.....

Everything needs a right way. The good method can bring the result with half the effort, the same different exam also needs the good test method. Our CAD study materials in every year are summarized based on the test purpose, every answer is a template, there are subjective and objective exams of two parts, we have in the corresponding modules for different topic of deliberate practice. To this end, our CAD Study Materials in the qualification exam summarize some problem- solving skills, and induce some generic templates.
