

CDCS Study Torrent & CDCS Free Questions & CDCS Valid Pdf

DOWNLOAD the newest VCE4Plus CDCS PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=1y3ui3gfHFI_YdBf_tSSphoEfOE8tDpN

Different with other similar education platforms on the internet, the EXIN EPI Certified Data Centre Specialist guide torrent has a high hit rate, in the past, according to data from the students' learning to use the CDCS test torrent, 99% of these students can pass the qualification test and acquire the qualification of their yearning, this powerfully shows that the information provided by the CDCS Study Tool suit every key points perfectly, targeted training students a series of patterns and problem solving related routines, and let students answer up to similar topic.

After years of operation, our platform has accumulated a wide network of relationships, so that we were able to learn about the changes in the exam at the first time. This is a benefit that students who have not purchased CDCS exam guide can't get. The team of experts hired by EXIN EPI Certified Data Centre Specialist study questions constantly updates and supplements the contents of study materials according to the latest syllabus and the latest industry research results. We also have dedicated staff to maintain CDCS Exam Material every day, and you can be sure that compared to other test materials on the market, EXIN EPI Certified Data Centre Specialist study questions are the most advanced.

>> CDCS Exam Questions Vce <<

EXIN CDCS Test Questions Vce | CDCS Valid Exam Vce Free

So rest assured that with the VCE4Plus EXIN EPI Certified Data Centre Specialist (CDCS) practice questions, you will not only

make the entire EXIN CDCS exam dumps preparation process and enable you to perform well in the final EXIN EPI Certified Data Centre Specialist (CDCS) certification exam with good scores. To provide you with the updated CDCS Exam Questions the VCE4Plus offers three months updated EXIN EPI Certified Data Centre Specialist (CDCS) exam dumps download facility, Now you can download our updated CDCS practice questions up to three months from the date of VCE4Plus EXIN EPI Certified Data Centre Specialist (CDCS) exam purchase.

EXIN EPI Certified Data Centre Specialist Sample Questions (Q43-Q48):

NEW QUESTION # 43

The humidity in the computer room has increased from about 60% up to 85% Relative Humidity (RH). What potential risk does this pose to your equipment?

- A. The electrostatic discharge (ESD) levels will go up
- B. No risks at all
- C. There will be a cooling risk due to a high wet bulb temperature
- D. The risk of excessive wear and corrosion will increase

Answer: D

Explanation:

High relative humidity (above 80%) creates a serious risk for corrosion of electronic contacts, printed circuit boards (PCBs), and metallic components. Moisture in the air condenses more easily, especially when surfaces are cooler than ambient dew point. This can lead to oxidation of connectors, degradation of solder joints, and eventual failures in ICT hardware.

Electrostatic discharge (ESD) risks, by contrast, increase at low humidity (below 30%) because dry air promotes charge buildup. Therefore, option C is incorrect here. Similarly, option D (cooling risk from wet- bulb temperature) applies to evaporative cooling efficiency, not directly to ICT risk.

ASHRAE recommends data centers maintain RH between 40-60% for optimal reliability. Values above 80% RH are considered outside the recommended operating envelope and significantly increase the risk of corrosion, especially in the presence of airborne contaminants like sulfur dioxide (SO₂) or hydrogen sulfide (H₂S).

Therefore, the verified risk at 85% RH is corrosion-related degradation.

References: ASHRAE TC 9.9 Thermal Guidelines (2016 Edition, Table 4.1), IEC 60721-3-3 Environmental Conditions for ICT Equipment.

NEW QUESTION # 44

What is the minimum requirement for power feeds to a Rated-4 data center (ANSI/TIA-942)?

- A. One feed split into two distribution boards
- B. Two feeds from two different substations, one power company not acceptable
- C. Two feeds from one substation
- D. Two feeds from two different substations, one power company acceptable

Answer: D

Explanation:

A Rated-4 facility requires dual active utility feeds, each from an independent substation, but they may come from the same utility provider if substations are geographically separate and independent.

* Option A is too strict; ANSI/TIA-942 does not mandate two different companies.

* Options C and D do not provide true independence and would fail Rated-4 requirements.

Thus, the minimum is two substations, possibly same provider.

References: ANSI/TIA-942-B §6.2 (Utility Service Requirements).

NEW QUESTION # 45

Do you need to consider blast protection when designing a data center?

- A. No, there is no reason for implementing blast protection as nobody can predict the impact of a bomb explosion.
- B. Yes, if the data center is a potential target or the building is located within the vicinity of (close by) a potential target.
- C. Yes, blast protection is a requirement of ANSI/TIA-942.
- D. No, blast protection is not a requirement of ANSI/TIA-942.

Answer: B

Explanation:

Blast protection should be considered if the data center or its location is a potential target or is near high-risk areas. Blast protection measures can protect both personnel and infrastructure from potential explosion impacts, which could be essential in areas with heightened security risks.

Detailed Explanation:

In areas where there may be risks of terrorist attacks or explosions due to nearby high-risk facilities, implementing blast protection measures helps safeguard the data center's infrastructure. These measures can include reinforced walls, blast-resistant windows, and secure entryways designed to withstand explosive forces.

EPI Data Center Specialist References:

While not specifically mandated by ANSI/TIA-942, EPI training advises considering local risk factors, including proximity to potential targets, when evaluating the need for blast protection. This approach is aligned with risk assessment and mitigation practices to ensure facility security.

NEW QUESTION # 46

What should you consider when using raised floor tiles with air deflectors or louvers?

- A. Tiles with air deflectors or louvers can only be used to cool storage equipment.
- **B. Tiles with air deflectors or louvers can be very heavy.**
- C. Tiles with air deflectors or louvers do not allow for a flexible cooling solution.
- D. Tiles with air deflectors or louvers will reduce the cooling capacity of the tile.

Answer: B

Explanation:

Raised floor tiles with air deflectors or louvers are typically heavier than standard tiles due to the additional materials and mechanisms used to direct airflow. The added weight can pose challenges for installation and adjustment, and consideration must be given to the floor's load capacity and ease of maintenance.

Detailed Explanation:

Tiles with deflectors or louvers help direct airflow, enhancing cooling efficiency by focusing cool air where needed. However, these tiles are often heavier, which can affect handling and require reinforced raised floor systems. It's essential to factor in the weight for any floor tile replacements or installations to ensure they are compatible with the raised floor's structural capacity.

EPI Data Center Specialist References:

EPI data center design training mentions the potential impact of heavy tiles on floor handling and load capacity. Data center operators need to plan for safe handling and load-bearing capacity when using such specialized tiles.

NEW QUESTION # 47

You are allowed to use a calculator for this question. A battery bank is rated at a total capacity of 600 Ah. Calculate how much charging current the rectifier should be able to supply as charging current.

- A. 80 Amperes
- B. 12 Amperes
- **C. 30 Amperes**
- D. 60 Amperes

Answer: C

Explanation:

To determine the charging current for a battery bank, a general rule of thumb is that the charging current should be 5% of the total battery capacity. For a battery rated at 600 Ah, this calculation would be:

$600 \text{ Ah} \times 0.05 = 30 \text{ Amperes}$ This ensures the battery is charged efficiently without overloading the rectifier or risking battery damage.

Detailed Explanation:

Battery charging current is typically set as a percentage of the battery's capacity to balance effective charging with longevity and safety. A 5% charging rate is standard for lead-acid batteries, which would be 30 Amperes for a 600 Ah battery bank.

EPI Data Center Specialist References:

EPI standards recommend calculating charging currents based on a percentage of the battery capacity to ensure safety and efficiency, aligning with best practices for battery management in data centers.

NEW QUESTION # 48

.....

Many candidates who take the qualifying exams are not aware of our CDCS exam questions and are not guided by our systematic guidance, and our users are much superior to them. In similar educational products, the CDCS quiz guide is absolutely the most practical. Also, from an economic point of view, our CDCS Exam Guide Materials is priced reasonable, so the CDCS test material is very responsive to users, user satisfaction is also leading the same products. You can deeply depend on our CDCS exam guide materials when you want to get the qualification.

CDCS Test Questions Vce: <https://www.vce4plus.com/EXIN/CDCS-valid-vce-dumps.html>

EXIN CDCS Exam Questions Vce And would you like to get much more professional recognition, Our company is here especially for providing you with the most professional CDCS quiz torrent materials, with which you will pass the exam as well as getting the related certification with great ease (CDCS test bootcamp) and you will be able to keep out of troubles and take everything in your stride, As for our EPI Data Centre latest training vce, you don't need to worry about that because we will provide EXIN CDCS free demo for you before you purchase them.

It is well known that certificates are not versatile, but without a CDCS certification you are a little inferior to the same competitors in many ways, Planting CDCS a crucifixion, otherwise he would not be too expensive to buy his followers.

EXIN certification CDCS the latest examination questions and answers come out

And would you like to get much more professional recognition, Our company is here especially for providing you with the most professional CDCS Quiz torrent materials, with which you will pass the exam as well as getting the related certification with great ease (CDCS test bootcamp) and you will be able to keep out of troubles and take everything in your stride.

As for our EPI Data Centre latest training vce, you don't need to worry about that because we will provide EXIN CDCS free demo for you before you purchase them.

The major reason behind their failure in the EXIN CDCS exam is studying the material which is not the latest, CDCS certification exams are playing an important role in IT industry.
