## 1Z0-1055-25 Valid Dumps, 1Z0-1055-25 Reliable Guide Files

Are you preparing for the 1Z0-1055-25 exam certification recently? Do you want to get a high score in the 1Z0-1055-25 actual test? Dupleader 1Z0-1055-25 practice test may be the right study material for you. When you choose Oracle 1Z0-1055-25 pdf dumps, you can download it and install it on your phone or i-pad, thus you can make full use of your spare time, such as, take the subway or wait for the bus. Besides, if you are tired of the electronic screen, you can print the 1Z0-1055-25 Pdf Dumps into papers, which is convenient to make notes.

## Oracle Fusion Cloud Financials: Payables and Expenses 2025 Implementation Professional Sample Questions (Q15-Q20):

### NEW QUESTION # 15

Previously, cash advances were applied automatically to expenses when the auditor ran the expense reimbursement process. Now, Oracle Expenses allows employees to have the ability to manually apply their cash advances to the relevant expense report. As an Application Implementation Consultant, you advise your client to enable this feature and allow employees to perform manual application of cash advances to their expense reports for the US Business Unit. Which statement is NOT true about this feature?

- A. Unused cash advance amounts are applied to the next expense report or refunded to the company by the employee.
- B. Auditors can make changes to cash advances that are applied to an expense report.
- C. Employees need to include a justification if they don't apply an available cash advance when submitting an expense report.
- D. If approvers or auditors reject expense reports, the cash advances that are applied to the reports are automatically removed and returned to the employee's available cash advances.

**Answer: B**

### NEW QUESTION # 16

Which two invoice types can have a status of Incomplete?

- A. Scanned Invoices which are rejected during import
- B. Prepayment Invoices which are fully paid but not applied against any invoice
- C. Scanned Invoices with invalid or missing data
- D. Supplier Portal Invoices which are saved but not yet submitted

**Answer: C,D**

Explanation:

Comprehensive and Detailed In-Depth

In Oracle Financials Cloud, the "Incomplete" status is assigned to invoices that require additional information or actions before they can be fully processed. This status ensures that incomplete or erroneous invoices are identified and addressed promptly.

A. Supplier Portal Invoices which are saved but not yet submitted

When suppliers create invoices through the Supplier Portal, they have the option to save their progress without submitting the invoice

for approval or payment. These saved invoices are assigned an "Incomplete" status, indicating that the supplier has not yet finalized and submitted them. This allows suppliers to review and modify invoice details before formal submission.

support.oracle.com

B . Scanned Invoices with invalid or missing data

Invoices processed through Integrated Imaging or Intelligent Document Recognition (IDR) are scanned and imported into the system. If these scanned invoices contain invalid or missing data-such as incorrect invoice numbers, missing line items, or unreadable fields-they are assigned an "Incomplete" status. This designation prompts accounts payable personnel to review and correct the discrepancies before the invoices can proceed through the payment process.

docs.oracle.com

C . Scanned Invoices which are rejected during import

Invoices that are rejected during the import process due to significant errors or mismatches are typically not assigned an "Incomplete" status. Instead, they are marked as "Rejected" or "Error," indicating that they require substantial correction before reprocessing. Therefore, this option is not associated with the "Incomplete" status.

D . Prepayment Invoices which are fully paid but not applied against any invoice Prepayment invoices represent advance payments made to suppliers and are recorded as such. Once a prepayment is made, the invoice reflects a "Paid" status. The application of this prepayment to subsequent invoices is a separate process and does not revert the original prepayment invoice to an "Incomplete" status. Thus, this option does not correspond to the "Incomplete" status.

Understanding the scenarios that lead to an "Incomplete" status helps organizations efficiently manage and rectify invoice issues, ensuring a smooth accounts payable workflow.

### NEW QUESTION # 17

While creating the setup for employee bank accounts, you have the profile option CE\_USE\_EXISTING\_BANK\_BRANCH set to Yes.

What can the users now search for by default?

- A. Bank Branch identifier
- B. Bank Branch only
- C. Bank and Bank Branch

**Answer: C**

Explanation:

Comprehensive and Detailed In-Depth

The profile option CE\_USE\_EXISTING\_BANK\_BRANCH in Oracle Financials Cloud controls whether users can select from pre-existing banks and branches or enter new bank information manually when setting up employee bank accounts.

When set to Yes:

Behavior: Users are provided with a list of predefined banks and branches to select from. This ensures consistency in bank data and reduces errors associated with manual entry.

Default Search Capability: Users can search and select both Bank and Bank Branch from the existing list.

Reference:

When set to No:

Behavior: The system allows users to manually enter bank and branch details as free text, without relying on predefined lists.

Default Search Capability: Since there are no predefined lists, users do not have search options and must input all bank information manually.

Therefore, with the profile option CE\_USE\_EXISTING\_BANK\_BRANCH set to Yes, users can search for and select both the Bank and Bank Branch from the predefined options, ensuring accurate and standardized bank account setups.

### NEW QUESTION # 18

Your organization has decided to create employee expense items by leveraging the digital assistant feature and sending expense receipts via email.

Which is the next processing step after an email with an expense receipt is received in the expenses application?

- A. The application verifies the sender's email address and compares it with the employee's email addressed in HCM
- B. The Application automatically matched receipts to corporate card charges
- C. The application extracts the receipt details and creates expense items
- D. The application sends the expenses team receipt notification
- E. The application assigns an expense type based on category

**Answer: A**

Your company requests you to establish Expense delegates to assist with the management of expenses. Expense delegates will receive a digest notification for each employee they are a delegate for and can then take quick action to identify and fix pending expense items, including outstanding corporate card charges.

- A. Submitted and Saved
- B. Only Rejected
- C. Saved, Withdrawn, Rejected, or Returned
- D. Only Withdrawn
