Salesforce Manufacturing Cloud Accredited Professional Exam Sample Questions (Q39-Q44):

NEW QUESTION # 39

Which Manufacturing Cloud function has an out-of-the-box Submit for Approval quick action?
Sales Agreements

- A. Experience Cloud for Manufacturing
- B. Account Manager Target
- C. Account Based Forecasting
- D. Order Management

Answer: A

Explanation:
Explanation

Sales agreements are the core objects of Manufacturing Cloud for Sales. They represent the negotiated terms and conditions between a manufacturer and a customer or partner for run-rate or long-term business. Sales agreements have an out-of-the-box Submit for Approval quick action that allows users to initiate an approval process for the sales agreement record. This quick action can be customized to fit different approval scenarios and workflows.

NEW QUESTION # 40

In Tableau CRM for Manufacturing, which three user types can be selected to receive credit for an order in the Tableau CRM configuration wizard then calculating actuals against account manager targets?

- A. Order Owner
- B. Account Owner
- C. Custom Lookup Field for a user on Account.
- D. Other User
- E. Opportunity Owner

Answer: A,B,D

Explanation:

The Opportunity Owner, Order Owner, and Account Owner are the user types that can be selected in the Tableau CRM configuration wizard to receive credit for an order when calculating actuals against account manager targets. These user types are linked to the opportunity, order and account respectively, and are likely to be the users responsible for the sales transaction.

NEW QUESTION # 41

Which two options are available to integrate Oracle ERP orders data with Manufacturing Cloud?

- A. Use ANT Migration
- B. Use API integration with custom logic
- C. Use the ERP integration template
- D. Use an AppExchange ISV solution

Answer: B,D

Explanation:

Salesforce Manufacturing Cloud can be integrated with Oracle ERP orders data using two options:

* Use an AppExchange ISV solution: This option allows you to leverage existing solutions from independent software vendors (ISVs) that are available on the Salesforce AppExchange platform. These solutions are designed to simplify and automate the

integration process between Salesforce and Oracle ERP systems. Some examples of AppExchange ISV solutions are rSTAR, DBSync, and Jitterbit.

* Use API integration with custom logic: This option allows you to use the Salesforce APIs and the Oracle ERP APIs to create custom logic for integrating the orders data between the two systems. You can use any programming language or tool that supports REST or SOAP web services to build the integration logic. You can also use the MuleSoft Accelerator for Manufacturing, which is a prebuilt integration solution that connects Salesforce Manufacturing Cloud with Oracle ERP Cloud1.

NEW QUESTION # 42

Universal container wants to stream line the way they collaborate on sales agreement with their channel partners which is the recommended option

- A. Leverage my domain to set up a secure site for collaboration
- **B. Leverage the manufacturing experience cloud template to set up a secure site for collaboration**
- C. Leverage the salesforce site manufacturing cloud template to set up a secure site for collaboration
- D. Leverage Heroku for Manufacturing cloud to set up a secure site for collaboration

Answer: B

Explanation:

Explanation

Manufacturing Cloud provides a predefined manufacturing partner template that can be used to set up a secure site for collaboration with channel partners. The template includes features such as leads, sales agreements, forecasts, and dashboards that partners can use to work with the manufacturer. The template also allows the manufacturer to control the access and permissions of the partners based on their roles and profiles. NEW QUESTION # 43

The service agents at Universal Containers reported that it takes too long to find information related to contacts and accounts, such as Cases, Assets, Warranties, and Claims.

What should the consultant recommend to make the support process easier?

- A. Create a custom Case Lightning record page.
- B. Enable the Service Console app.
- **C. Enable the Service Console for Manufacturing app.**

Answer: C

Explanation:

Explanation

To make the support process easier for the service agents, the consultant should recommend enabling the Service Console for Manufacturing app. This is a prebuilt Lightning app that provides a unified view of all the information related to contacts and accounts, such as cases, assets, warranties, and claims. The app also includes components and tools that help the service agents to manage and resolve issues faster and more efficiently. The app can be customized and configured to meet the specific needs of the service agents and the business.
