Valid 220-1202 Exam Labs | Test 220-1202 Simulator Fee

With our users all over the world, you really should believe in the choices of so many people. Our advantage is very obvious. Of course, the right to choose is in your hands. What I want to say is that if you are eager to get an international 220-1202 Certification, you must immediately select our 220-1202 preparation materials. After you have studied for twenty to thirty hours on our 220-1202 exam questions, you can take the test. And your pass rate will reach 99%.

CompTIA A+ Certification Exam: Core 2 Sample Questions (Q156-Q161):

NEW QUESTION # 156
An employee is trying to connect their company laptop to airport Wi-Fi. A pop-up with the airport logo appeared and was closed quickly. The internet does not work. What should a help desk technician suggest?

- A. Reconnect to the network and read the pop-up carefully
- B. Tell the employee that company policy prohibits connection to public Wi-Fi
- C. Contact the airport IT department
- D. Look for a wall socket with RJ45 and try to connect

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
Public Wi-Fi networks often use captive portals, which require accepting terms or authenticating via the pop-up page before full access is granted. Closing it prematurely stops full connection.
From Travis Everett - All-in-One Exam Guide:
"Captive portals intercept the first HTTP request and present a login or acknowledgment screen. Without completing it, access is denied."

NEW QUESTION # 157

A network technician notices that most of the company's network switches are now end-of-life and need to be upgraded. Which of the following should the technician do first?

- A. Propose the change
- B. Approve the change
- C. Implement the change
- D. Schedule the change

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
The first step in the IT change management process is to identify and propose the change. In this case, the technician notices a need (end-of-life network switches), so the appropriate action is to formally propose a change. This proposal would be documented and submitted for approval before any planning or implementation occurs.
According to the CompTIA A+ 220-1102 objectives under Operational Procedures (Domain 4.0), the change management process follows these typical steps:
* Submit a change request (Propose the change)
* Review and approval (Approve the change)
* Planning and scheduling (Schedule the change)
* Implementation
* Documentation and review
Therefore, proposing the change is the correct first step in accordance with standard ITIL-based change management practices.
Reference:
CompTIA A+ 220-1102 Objective 4.1: Given a scenario, implement best practices associated with documentation and support systems information management.
Study Guide Section: Change Management Process

NEW QUESTION # 158

A computer technician is implementing a solution to support a new internet browsing policy for a customer's business. The policy prohibits users from accessing unauthorized websites based on categorization. Which of the following should the technician configure on the SOHO router?

- A. Group Policy Editor
- B. Firewall
- C. Content filtering
- D. Secure management access

Answer: C

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
Content filtering allows administrators to block or allow access to websites based on categories (e.g., social media, adult content,

streaming). On a SOHO (Small Office/Home Office) router, this is often built-in or available via DNS-level filtering, and is the most appropriate method for enforcing browsing policies without needing to touch each individual device.
A: Secure management access protects router admin interfaces but doesn't control user browsing.
B: Group Policy Editor is a Windows tool, not used on routers.
D: A firewall can block specific IPs or ports, but it doesn't categorize web content.
Reference:
CompTIA A+ 220-1102 Objective 2.2: Compare and contrast security measures and tools.
Study Guide Section: SOHO router security features - content filtering, parental controls

NEW QUESTION # 159
A company recently transitioned to a cloud-based productivity suite and wants to secure the environment from external threat actors. Which of the following is the most effective method?

- A. Encryption
- B. Strong passwords
- C. Backups
- D. Multifactor authentication

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
Multifactor authentication (MFA) is considered one of the most effective security measures for cloud environments. It requires users to verify their identity using two or more factors (e.g., password + phone app code), making it significantly harder for external attackers to gain access, even if the primary password is compromised.
B: Encryption is important for data protection but doesn't prevent unauthorized logins.
C: Backups protect against data loss but don't stop breaches.
D: Strong passwords are helpful but can still be phished or cracked - MFA adds a critical extra layer.
Reference:
CompTIA A+ 220-1102 Objective 2.2: Compare and contrast authentication technologies.
Study Guide Section: Cloud security best practices - MFA and access control

NEW QUESTION # 160
Which of the following malware types typically has very high computing resource usage?

- A. Boot sector virus
- B. Cryptominer
- C. Rootkit
- D. Trojan

Answer: B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
Cryptominers exploit system resources to mine cryptocurrency, often without user consent, leading to high CPU and GPU usage.
From Quentin Docter - CompTIA A+ Complete Study Guide:
"Cryptomining malware can cause significant performance degradation by monopolizing system resources like CPU and GPU to mine digital currency."

NEW QUESTION # 161
......

In all respects, you will find our 220-1202 practice braindumps compatible to your actual preparatory needs. As you can find on our website, we have three different versions of our 220-1202 exam questions: the PDF, Software and APP online. With all these versins, you can practice the 220-1202 Learning Materials at any time and condition as you like. The language of our 220-1202 simulating exam is simple and the content is engaging and easy. What are you waiting for? Just rush to buy it!
