If you buy our Google-Workspace-Administrator Study Materials you odds to pass the test will definitely increase greatly.

Google Cloud Certified - Professional Google Workspace Administrator Sample Questions (Q34-Q39):

NEW QUESTION # 34
Multiple users in your organization are reporting that Calendar invitations sent from a specific department are not being received. You verified that the invitations are being sent and there are no error messages in the sender's logs. You want to troubleshoot the issue. What should you do?

- A. Check the affected users' Calendar settings to confirm whether they have accidentally blocked invitations from the specific department.
- B. Disable and re-enable the Calendar service for the affected users to refresh their connection.
- C. Analyze the message headers of the sent invitations by using the Google Admin Toolbox to identify any delivery issues.
- D. Verify that the senders in the specific department have the necessary permissions to share their calendars externally and send invitations outside of the organization.

Answer: C

Explanation:
Using the Google Admin Toolbox to analyze the message headers of the sent invitations helps you identify if there are any issues with the delivery of the invitations, such as misrouted messages or issues with email delivery to the affected users. This approach will give you detailed information on what might be causing the issue, even if no error messages appear in the sender's logs.

NEW QUESTION # 35
Your-company.com recently started using Google Workspace. The CIO is happy with the deployment, but received notifications that some employees have issues with consumer Google accounts (conflict accounts). You want to put a plan in place to address this concern.
What should you do?

- A. Ask users to request a new Google Workspace account from your local admin.
- B. Use the Transfer tool for unmanaged users to find the conflict accounts.
- C. Rename the accounts to temp@your-company.com, and recreate the accounts.
- D. Use the conflict account remove tool to remove the accounts from Google Workspace.

Answer: B

Explanation:
https://gsuiteupdates.googleblog.com/2017/02/resolve-conflicting-accounts-with-
new.html#:~:text=Using%20the%20new%20Transfer%20tool,accounts%20to%20G%20Suite%20accounts.

NEW QUESTION # 36
You manage Chrome Enterprise browsers for your large organization. You want to ensure that specific extensions are automatically installed on all managed Chrome Enterprise browsers. What should you do?

- A. Publish the extensions in the Chrome Web Store.
- B. Force-install the extensions through Chrome browser policies.
- C. Allowlist the specific Chrome browser extensions.
- D. Configure a script to deploy the extensions upon user login.

Answer: B

Explanation:
Using Chrome browser policies, you can force-install specific extensions on all managed Chrome Enterprise browsers. This ensures that the desired extensions are automatically installed on users' browsers without requiring manual installation. This approach is the most efficient and scalable solution for managing extensions across a large organization.

NEW QUESTION # 37
Your organization has a data loss prevention (DLP) rule to detect and warn users about external sharing of sensitive files in Google Drive. You also want to prevent external users from downloading files with viewer permissions to their local machines. What should you do?

- A. Do nothing. View-only Drive files automatically prevent the user from downloading the files.
- B. Modify the existing DLP rule to Disable download, print, and copy for commenters and viewers.
- C. Create a new DLP rule by using the existing content detector conditions, but change the action for the new rule to Disable download, print, and copy for commenters and viewers.
- D. Create a new DLP rule and set the scope to the organizational unit or group that you want to restrict.

Answer: B

Explanation:
A single DLP rule can have multiple actions. By modifying the existing rule, you can add the new action to disable downloading, printing, and copying, without creating a separate rule.

NEW QUESTION # 38
Your company moved to Google Workspace last month and wants to install Hangouts Meet Hardware in all of their conference rooms. This will allow employees to walk into a room and use the in-room hardware to easily join their scheduled meeting. A distributed training session is coming up, and the facilitator wants to make remote room joining even easier. Participants in remote rooms should walk into their room and begin receiving the training without having to take any actions to join the session.
How should you accomplish this?

- A. Room participants will need to start the meeting from the remote in the room.
- B. By adding the rooms to the Calendar invite, they will all auto-join at the scheduled time.
- C. Select Add Live Stream to the Calendar invite; all rooms added to the event will auto-join at the scheduled time.
- D. In the Admin Console, select the devices in Meeting Room Hardware, select Call, and Enter the meeting code.

Answer: D
