It is believed that through comparative analysis, users will be able to choose the most satisfactory C_ACDET_2506 test guide.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q53-Q58):

NEW QUESTION # 53

How can you set the order of your custom Contract Workspace fields? Note: There are 2 correct answers to this question.

- A. Select Field Configuration, find the class, and select the Layout tab. Here you can drag and drop the order of the fields. Once all changes are performed, publish all changes via Customizing Publish.
- B. Select Field Configuration and under the advanced tab select property Sequence. Fields are sorted by this field in the UL. Once all changes are performed, publish all changes via Customizing Publish.
- C. Navigate to the UI where the class is presented, select Customize in the banner, select Edit, and drag and drop the fields in the order they should be presented. Once all changes are performed, publish all changes via Customizing → Publish
- D. The fields are presented in alphabetical order of the field label. By carefully choosing the

Answer: A,C

NEW QUESTION # 54

Which of the following accurately describes the migration of flex master data templates using the migration tool?

- A. The templates are migrated by the tool, but the data must be loaded manually later.
- B. Both the templates and their data are fully migrated by the tool.
- C. Neither the templates nor the data is migrated using the tool
- D. Only the data of the flex master data templates is migrated; templates must be created manually.

Answer: A

NEW QUESTION # 55

Which of the following classes are NOT frequently customized in SAP Ariba Strategic Sourcing solutions?

- A. SourcingProject
- B. AbstractDocument
- C. ContractWorkspace
- D. ExtendedAddressRep

Answer: D

NEW QUESTION # 56

How can you set the order of your custom Contract Workspace fields? (Select 2 correct answers)

- A. Select Field Configuration, find the class, and select the Layout tab. Drag and drop the order of the fields, then publish.
- B. Fields are presented in alphabetical order of the field label.
- C. Navigate to the UI where the class is presented, select Customize in the banner, edit, and drag and drop fields, then publish.
- D. Select Field Configuration and under the Advanced tab set the Sequence property, then publish.

Answer: A,D

Explanation:

Custom Contract Workspace field order can be controlled through two methods:

* Using the Layout tab in Field Configuration, where fields can be dragged and dropped to reorder them visually, followed by publishing the changes.

* Using the Sequence property under the Advanced tab, assigning numeric values that define the sort order, with lower numbers appearing first. Option B is incorrect because UI banner customization does not manage field order in Contract Workspace screens. Option C is incorrect; field order is controlled by explicit settings, not alphabetical label order.

NEW QUESTION # 57

The customer wants to have a field to hold Contract Storage Locations and the address. Those locations are loaded from an external system, and the user should be able to search for storage locations. What should be used to hold the valid storage locations?

- A. Create a new field of type Date, where each date entry is tied to a unique Storage Location and its corresponding address, allowing users to select locations based on historical data entries.
- B. You should load a new Enumeration Type and call it Storage Location and load the location addresses. Create a new field of type Enumeration with a custom filter to only Enumerations of type show Storage Locations.
- **C. You should create a new Flex Master Data (FMD) Template with appropriate attributes and call it Storage Location. Once the template is published and sample data loaded, you can create a custom field and select the type Storage Location**
- D. Create a new field of type Text, with a custom Validation where the available Storage Locations are listed.

Answer: C

NEW QUESTION # 58

.....
