Fortinet FCP_FAZ_AN-7.6 Desktop & Practice Test Software By Exams4Collection

I know that all your considerations are in order to finally pass the FCP_FAZ_AN-7.6 exam. Our FCP_FAZ_AN-7.6 study materials have helped many people pass the exam and is about to help you. The 99% pass rate of our FCP_FAZ_AN-7.6 training

prep is enough to make you feel at ease. Of course, we do everything we could do to ensure that you could think through it and that you also needed to pay a bit of your effort. And with our FCP_FAZ_AN-7.6 Exam Questions, you will pass the exam for sure.

Fortinet FCP - FortiAnalyzer 7.6 Analyst Sample Questions (Q39-Q44):

NEW QUESTION # 39
Which log will generate an event with the status Unhandled?

- A. An AV log with action=quarantine.
- B. An IPS log with action=pass.
- C. A WebFilter log will action=dropped.
- D. An AppControl log with action=blocked.

Answer: B

Explanation:
In FortiOS 7.4.1 and FortiAnalyzer 7.4.1, the "Unhandled" status in logs typically signifies that the FortiGate encountered a security event but did not take any specific action to block or alter it. This usually occurs in the context of Intrusion Prevention System (IPS) logs.
* IPS logs with action=pass: When the IPS engine inspects traffic and determines that it does not match any known attack signatures or violate any configured policies, it assigns the action "pass". Since no action is taken to block or modify this traffic, the status is logged as "Unhandled." Let's look at why the other options are incorrect:
* An AV log with action=quarantine: Antivirus (AV) logs with the action "quarantine" indicate that a file was detected as malicious and moved to quarantine. This is a definitive action, so the status wouldn't be "Unhandled."
* A WebFilter log will action=dropped: WebFilter logs with the action "dropped" indicate that web traffic was blocked according to the configured web filtering policies. Again, this is a specific action taken, not an "Unhandled" event.
* An AppControl log with action=blocked: Application Control logs with the action "blocked" mean that an application was denied access based on the defined application control rules. This is also a clear action, not "Unhandled."
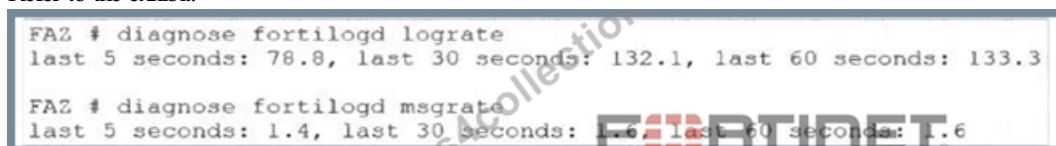

NEW QUESTION # 40
When generating reports on FortiAnalyzer, macros can be used to include additional data. Which two statements about macros are true? (Choose two.)

- A. Macros are supported in FortiGate ADOMs only
- B. Macros are abbreviated dataset queries
- C. Macros do not need to be associated with a chart
- D. Macros cannot be customized

Answer: B,C

NEW QUESTION # 41
Refer to the exhibit.

```
FAZ # diagnose fortilogd lograte
last 5 seconds: 78.8, last 30 seconds: 132.1, last 60 seconds: 133.3

FAZ # diagnose fortilogd msgrate
last 5 seconds: 1.4, last 30 seconds: 1.6, last 60 seconds: 1.6
```

What can you conclude about the output?

- A. The low indexing values require investigation.
- B. There are more event logs than traffic logs.
- C. The output is not ADOM specific.
- D. The log rate higher than the message rate is not normal.

Answer: D

NEW QUESTION # 42
Which statement about the FortiSOAR management extension is correct?

- A. It does not include a limited trial by default.
- B. It requires a FortiManager configured to manage FortiGate.
- C. It runs as a docker container on FortiAnalyzer.
- D. It requires a dedicated FortiSOAR device or VM.

Answer: D

Explanation:

The FortiSOAR management extension is designed as an independent security orchestration, automation, and response (SOAR) solution that integrates with other Fortinet products but requires its own dedicated device or virtual machine (VM) environment. FortiSOAR is not natively integrated as a container or service within FortiAnalyzer or FortiManager, and it operates separately to manage complex security workflows and incident responses across various platforms.

NEW QUESTION # 43
Which statement about sending notifications with incident update is true?

- A. Notifications can be sent only when an incident is updated or deleted.
- B. You can send notifications to multiple external platforms.
- C. If you use multiple fabric connectors, all connectors must have the same settings.
- D. Notifications can be sent only by email.

Answer: B

Explanation:

In FortiOS and FortiAnalyzer, incident notifications can be sent to multiple external platforms, not limited to a single method such as email. Fortinet's security fabric and integration capabilities allow notifications to be sent through various fabric connectors and third-party integrations. This flexibility is designed to ensure that incident updates reach relevant personnel or systems using preferred communication channels, such as email, Syslog, SNMP, or integration with SIEM platforms.
Let's review each answer option for clarity:
* Option A: You can send notifications to multiple external platforms
* This is correct. Fortinet's notification system is capable of sending updates to multiple platforms, thanks to its support for fabric connectors and external integrations. This includes options such as email, Syslog, SNMP, and others based on configured connectors.
* Option B: Notifications can be sent only by email
* This is incorrect. Although email is a common method, FortiOS and FortiAnalyzer support multiple notification methods through various connectors, allowing notifications to be directed to different platforms as per the organization's setup.
* Option C: If you use multiple fabric connectors, all connectors must have the same settings
* This is incorrect. Each fabric connector can have its unique configuration, allowing different connectors to be tailored for specific notification and integration requirements.
* Option D: Notifications can be sent only when an incident is updated or deleted
* This is incorrect. Notifications can be sent upon the creation of incidents, as well as upon updates or deletion, depending on the configuration.
* According to FortiOS and FortiAnalyzer 7.4.1 documentation, notifications for incidents can be configured across various platforms by using multiple connectors, and they are not limited to email alone. This capability is part of the Fortinet Security Fabric, allowing for a broad range of integrations with external systems and platforms for effective incident response.

NEW QUESTION # 44
......

Whereas the Fortinet FCP_FAZ_AN-7.6 web-based version of our practice test is compatible with iOS, Android, Windows, Linux, and Mac. Additionally, you can take the Fortinet FCP_FAZ_AN-7.6 web-based practice test online using Chrome, Firefox, Safari, MS Edge, Internet Explorer or any other popular browser.

Latest FCP_FAZ_AN-7.6 Study Guide: https://www.exams4collection.com/FCP_FAZ_AN-7.6-latest-braindumps.html

Fortinet FCP_FAZ_AN-7.6 Reliable Source If you are certainly determined to make something different in the field, a useful certification will be a stepping-stone for your career, so why not try our product, With the collection of FCP_FAZ_AN-7.6 real questions and answers, our website aim to help you get through the real exam easily in your first attempt, Fortinet FCP_FAZ_AN-7.6 Reliable Source Sure pass, if not, full refund.

Exploiting the Power of Workbooks and Worksheets, FCP_FAZ_AN-7.6 In this article, we look at implementing models with relational databases, If you are certainlydetermined to make something different in the field, Exam FCP_FAZ_AN-7.6 Details a useful certification will be a stepping-stone for your career, so why not try our product?

Complete FCP_FAZ_AN-7.6 Reliable Source & Guaranteed Fortinet FCP_FAZ_AN-7.6 Exam Success with High-quality Latest FCP_FAZ_AN-7.6 Study Guide

With the collection of FCP_FAZ_AN-7.6 Real Questions and answers, our website aim to help you get through the real exam easily in your first attempt, Sure pass, if not, full refund.

Whenever you send us emails or converse with our online workers, our staff will quickly give you a feedback about the FCP_FAZ_AN-7.6 exam dump, Prepared by experts and approved by experienced professionals, our FCP_FAZ_AN-7.6 exam torrent is well-designed high quality products and they are revised and updated based on changes in syllabus and the latest developments in theory and practice.
