# Marvelous New NSE8_812 Exam Bootcamp | Amazing Pass Rate For NSE8_812: Fortinet NSE 8 - Written Exam (NSE8_812) | Fantastic New NSE8_812 Braindumps

P.S. Free & New NSE8_812 dumps are available on Google Drive shared by RealValidExam: https://drive.google.com/open?id=10lVojO8-MQjENutikf2gXl-wMwISfbl5

The content of our NSE8_812 practice engine is chosen so carefully that all the questions for the NSE8_812 exam are contained. And our NSE8_812 study materials have three formats which help you to read, test and study anytime, anywhere. This means with our products you can prepare for exams efficiently and at the same time you will get 100% success for sure. If you desire a NSE8_812 Certification, our products are your best choice.

Fortinet NSE8_812 exam is a certification exam that tests the competency of network security professionals in designing, implementing, and managing complex security solutions. NSE8_812 exam is designed for individuals who have a deep understanding of network security and have experience working with Fortinet products and solutions. NSE8_812 exam is intended to validate their expertise in protecting the network infrastructure from advanced cyber threats and attacks.

The NSE8_812 Exam is a vendor-neutral certification, which means that it is not tied to any specific product or technology. This makes it a valuable certification for professionals who work with different security solutions and want to demonstrate their expertise in the field of network security.

NSE8_812: New Fortinet NSE 8 - Written Exam (NSE8_812) Exam Bootcamp

- Free PDF Quiz 2026 Unparalleled NSE8_812

Are really envisioned to attempt to be NSE8_812 certified professional. Then enrolled in our preparation suite and get the perceptively planned actual Dumps in two accessible formats, PDF and preparation software. RealValidExam is the preeminent platform, which offers NSE8_812 Dumps duly equipped by experts. Our NSE8_812 Exam Material is good to pass the exam within a week. RealValidExam is considered as the top preparation material seller for NSE8_812 exam dumps, and inevitable to carry you the finest knowledge on NSE8_812 exam certification syllabus contents.

Fortinet NSE 8 - Written Exam (NSE8_812) Sample Questions (Q27-Q32):

NEW QUESTION # 27
Refer to The exhibit, which shows a topology diagram.

A customer wants to use SD-WAN for traffic generated from the data center towards Branches. SD-WAN on HUB should follow the underlay condition on each Branch and the solution should be scalable for hundreds of Branches.
Which SD WAN-Rules strategy should be used?

- A. Lowest Cost SLA
- B. Auto based on link quality
- C. Best Quality based on route-tags
- D. Manual based on route-tags

Answer: C

NEW QUESTION # 28
Refer to the exhibit.

You have been tasked with replacing the managed switch Forti Switch 2 shown in the topology.
Which two actions are correct regarding the replacement process? (Choose two.)

- A. After replacing the FortiSwitch unit, the automatically created trunk name does not change
- B. After replacing the FortiSwitch unit, the automatically created trunk name changes.
- C. MCLAG-ICL will be automatically reconfigured once the new switch is connected to the FortiGate.
- D. CLAG-ICL needs to be manually reconfigured once the new switch is connected to the FortiGate

Answer: A,D

Explanation:
A is correct because the automatically created trunk name is based on the MAC address of the FortiSwitch unit. When the FortiSwitch unit is replaced, the MAC address will change, but the trunk name will not change.
B is correct because CLAG-ICL is a manually configured link aggregation group. When the FortiSwitch unit is replaced, the CLAG-ICL configuration will need to be manually reconfigured on the new FortiSwitch unit.
The other options are incorrect. Option C is incorrect because the automatically created trunk name does not change when the FortiSwitch unit is replaced. Option D is incorrect because MCLAG-ICL is a manually configured link aggregation group and will not be automatically reconfigured when the FortiSwitch unit is replaced.

NEW QUESTION # 29
You are performing a packet capture on a FortiGate 2600F with the hyperscale licensing installed. You need to display on screen all egress/ingress packets from the port16 interface that have been offloaded to the NP7.
Which three commands need to be run? (Choose three.)

- A. diagnose sniffer packet port16
- B. diagnose sniffer packet npudbg
- C. diagnose npu sniffer filter selector 0
- D. diagnose npu sniffer filter dir 2
- E. diagnose npu sniffer filter intf port16

Answer: B,D,E

NEW QUESTION # 30

Refer to the exhibit.

You are deploying a FortiGate 6000F. The device should be directly connected to a switch. In the future, a new hardware module providing higher speed will be installed in the switch, and the connection to the FortiGate must be moved to this higher-speed port. You must ensure that the initial FortiGate interface connected to the switch does not affect any other port when the new module is installed and the new port speed is defined.

How should the initial connection be made?

- A. Connect the switch on any interface between ports 1 to 4
- B. Connect the switch on any interface between ports 21 to 24
- C. Connect the switch on any interface between ports 25 to 28
- D. Connect the switch on any interface between ports 5 to 8.

Answer: C

NEW QUESTION # 31

Refer to the CLI configuration of an SSL inspection profile from a FortiGate device configured to protect a web server:

Based on the information shown, what is the expected behavior when an HTTP/2 request comes in?

- A. FortiGate will strip the ALPN header and forward the traffic.
- B. FortiGate will forward the traffic without modifying the ALPN header.
- C. FortiGate will rewrite the ALPN header to request HTTP/1.
- D. FortiGate will reject all HTTP/2 ALPN headers.

Answer: A
