Prep4sureGuide provides you with actual SAP C_S4EWM_2023 in PDF format, Desktop-Based Practice tests, and Web-based Practice exams. These 3 formats of SAP C_S4EWM_2023 exam preparation are easy to use. This is a Printable C_S4EWM_2023 PDF dumps file. The SAP C_S4EWM_2023 PDF dumps enables you to study without any device, as it is a portable and easily shareable format.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management Sample Questions (Q44-Q49):

NEW QUESTION # 44
Which of the following actions are possible based on a value-added service (VAS) order? Note: There are 3 correct answers to this question.

- A. Perform quality inspection
- B. Assemble a kit.
- C. Capture time required.
- D. Capture costs.
- E. Consume auxiliary products.

Answer: B,C,E

Explanation:
A Value-Added Service (VAS) order in SAP Extended Warehouse Management (EWM) enables enhanced activities for goods that go beyond the standard warehouse operations. Here's how the selected actions are supported:
* Capture Time Required (A):
* VAS orders allow for tracking the time spent on specific value-added services.
* The time can be recorded and used for subsequent costing or reporting purposes.
* This is configured in the VAS activity details in EWM.
* Assemble a Kit (C):
* VAS orders facilitate kitting processes, where individual products are combined into a kit as part of warehouse operations.
* The system supports creating and managing kits via predefined VAS templates and work instructions.
* Consume Auxiliary Products (D):
* Auxiliary products, such as packaging materials or additional items used during the value-added service, can be consumed and accounted for through the VAS order process.
* This consumption is defined in the VAS template, which specifies materials and quantities.
References:
* SAP S/4HANA Cloud Private Edition Documentation for EWM: Value-Added Services Setup
* SAP Help Portal: Configuration and Execution of VAS Orders

NEW QUESTION # 45
How are warehouse orders sorted for automatic assignment to a resource? Note: There are 2 correct answers to this question.

- A. By execution priority
- B. By latest starting date
- C. By resource utilization
- D. By mode

Answer: A,B

Explanation:
Automatic Assignment of Warehouse Orders to Resources
* Warehouse orders are automatically sorted to optimize resource assignment:
* Latest Starting Date (A): Orders with the latest starting dates are prioritized to ensure timely execution.
* Execution Priority (D): Orders are prioritized based on their assigned priority levels to manage critical tasks effectively.
Excluded Options

* By Resource Utilization (B): Resource utilization is managed through capacity planning, not order sorting.
* By Mode (C): Sorting by mode is not relevant for warehouse order assignment.
SAP S/4HANA Cloud Private Edition Reference
* Refer to Resource Assignment and Sorting in EWM for detailed configurations.

NEW QUESTION # 46
You define new SAP Extended Warehouse Management (SAP EWM) delivery document types for inbound delivery processes.
Which additional customizing step is required in SAP EWM?

* A. Define a document category for the inbound process.
* B. Create a new system profile for the field control.
* C. Map an SAP ERP document type to the delivery document type
* D. Define a delivery item type for the inbound process.

Answer: C

NEW QUESTION # 47
Which of the following actions are possible based on a value-added service (VAS) order? Note: There are 3 correct answers to this question.

* A. Capture costs
* B. Perform quality inspection
* C. Consume auxiliary products
* D. Assemble a kit
* E. Capture time required

Answer: C,D,E

Explanation:
Comprehensive and Detailed In-Depth Explanation:
A VAS order in SAP EWM supports additional services during processing. Option A ("Assemble a kit") is correct as kitting is a common VAS activity. Option B ("Consume auxiliary products") is correct because VAS often uses materials like packaging, and option D ("Capture time required") is correct as Labor Management tracks VAS execution time, all configured in SPRO: SCM Extended Warehouse Management > Value-Added Services. Option C (quality inspection) is a separate QM process, and option E (costs) is tracked indirectly, not directly via VAS orders.

NEW QUESTION # 48
Which fields in the warehouse process type are used to determine warehouse order creation rules (WOCR)?
Note: There are 2 correct answers to this question.

* A. WOCR activity area
* B. Storage process
* C. Process type determination indicator
* D. Activity

Answer: A,D

Explanation:
Fields in Warehouse Process Type for WOCR Determination
* WOCR Activity Area (B): Defines the area of operations within the warehouse for specific tasks.
* Activity (C): Specifies the type of activity (e.g., picking, putaway) to link with the appropriate warehouse order creation rule.
Excluded Options
* A (Storage Process): Relevant for stock movement flows but not directly linked to WOCR determination.
* D (Process Type Determination Indicator): Governs warehouse process type determination but not WOCR rules.
SAP S/4HANA Cloud Private Edition Reference
* Refer to Warehouse Order Creation Rule Fields in SAP EWM for configuration details.

NEW QUESTION # 49

......

In this age of anxiety, everyone seems to have great pressure. If you are better, you will have a more relaxed life. C_S4EWM_2023 guide materials allow you to increase the efficiency of your work. You can spend more time doing other things. Our C_S4EWM_2023 study questions allow you to pass the exam in the shortest possible time.
