GIAC GCIH exam is intended for security professionals who are responsible for detecting, responding to, and preventing security incidents in their organizations. It covers a wide range of topics such as incident handling processes, network protocols, malware analysis, and forensic analysis. GCIH exam is designed to test the candidate's ability to identify, analyze, and respond to security

incidents in a timely and effective manner.

The GCIH certification exam is a rigorous test that requires the candidate to have a thorough understanding of the various aspects of incident handling. GCIH Exam consists of 150 multiple-choice questions, and the candidate has four hours to complete it. The passing score for the exam is 71%, and the candidate must renew the certification every four years. The GCIH certification is highly respected in the cybersecurity industry and is a valuable asset for professionals looking to advance their careers in incident handling.
