In order to be able to better grasp the proposition thesis direction, the Salesforce-Loyalty-Management study question focus on the latest content to help you pass the Salesforce-Loyalty-Management exam.

Salesforce Loyalty Management Accredited Professional Exam Sample Questions (Q32-Q37):

NEW QUESTION # 32

The Loyalty Analytics Base App license provides technical Consultants access to Loyalty analytics data with what limitations?

- A. Administrators can analyze up to 10 million rows
- B. Rows do not have an analysis limit, only licenses do
- C. Administrators can analyze up to 1 million rows
- D. Administrators can analyze up to 25 million rows

Answer: A

Explanation:

The Loyalty Analytics Base App license allows technical Consultants to access Loyalty analytics data with the limitation that administrators can analyze up to 10 million rows (D). This limitation is set to ensure system performance and scalability while providing sufficient data analysis capabilities for most loyalty program needs. Salesforce documentation on Loyalty Management and its integration with analytics tools would detail these limitations and provide best practices for managing and analyzing loyalty data within these constraints.

NEW QUESTION # 33

A Customer Support Manager noticed that the customer support team's performance decreased since the company rolled out the Loyalty Program. The customer Support Agents complain that finding information about the Loyalty Program Member takes a lot of the time.

What is the standard solution to display the information regarding the Loyalty Program Member on the case detail page?

- A. Create formula fields on Case Object
- B. Develop a custom component
- C. Embed Loyalty Member Profile Cards
- D. Create a Screen Flow

Answer: C

NEW QUESTION # 34

A company has recently rolled out a Loyalty Program in the production environment in the Monitor Workflow Services from Setup, the System Administrator noticed that all the Loyalty automations that have Data Processing Engine actions are failing, but the rest of the loyalty automations are working correctly.

What is the root cause of this?

- A. The Default Workflow User is missing the Data Pipelines Base User permission set license
- B. The Default Workflow User is missing the CLAAalytics Base User permission set license
- C. The Default Workflow User is missing the Loyalty Management permission set license
- D. The Default Workflow User is missing the CLAAalytics Base User permission set license

Answer: B

Explanation:

The root cause of the issue where all the Loyalty automations that have Data Processing Engine actions are failing is because the Default Workflow User is missing the CLAAalytics Base User permission set license (B). This permission set license is essential for the Default Workflow User to execute actions related to the Data Processing Engine within Salesforce Loyalty Management. Without this permission set, the user lacks the necessary access rights to run these specific automations, leading to the observed failures. Salesforce documentation on Loyalty Management would provide guidance on setting up and troubleshooting automations, including the necessary permission sets for different actions.

NEW QUESTION # 35

Loyalty Management enables the onboarding and managing of cross-industry program partners to increase member engagement with

the Loyalty program. The consultant needs to add a program partner.
Which fields are required to set up a partner?

- A. Name, Partnership Start Data, Industry, Status, Billing Type
- B. Name, Partnership Start Data, Billing Type, Status, Type
- D. Name, Partnership Start Data, Industry, Status, Type
- **C. Name, Program, Program Partnership Category, Type, Billing Type**

Answer: C

Explanation:

When adding a program partner in Salesforce Loyalty Management, the required fields include:

* Name, Program, Program Partnership Category, Type, Billing Type (B): This combination of fields ensures that a program partner is properly defined and categorized within the Loyalty Management system.

* Name: Identifies the partner within the loyalty program.

* Program: Links the partner to a specific loyalty program.

* Program Partnership Category: Categorizes the partner according to the nature of the partnership (e.g., accrual, redemption).

* Type: Defines the nature of the partnership, such as whether the partner is involved in point accrual, redemption, or both.

* Billing Type: Specifies how the partner is billed, which could be related to transaction fees, membership fees, or other financial arrangements.

Options A, C, and D include fields like "Partnership Start Data," "Industry," and "Status," which, while important, are not the core required fields for initially setting up a program partner in Salesforce Loyalty Management.

Salesforce Loyalty Management documentation provides comprehensive details on setting up program partners, including the required fields and best practices for managing partnerships to enhance member engagement and program value.

NEW QUESTION # 36

Loyalty Management enables the onboarding and managing of cross-industry program partners to increase member engagement with the Loyalty program. The consultant needs to add a program partner.

Which fields are required to set up a partner?

- A. Name, Partnership Start Data, Billing Type, Status, TypeD, Name, Partnership Start Data, Industry, Status, Type
- B. Name, Partnership Start Data, Industry, Status, Billing Type
- **C. Name, Program, Program Partnership Category, Type, Billing Type**

Answer: C

Explanation:

When adding a program partner in Salesforce Loyalty Management, the required fields include:

* Name, Program, Program Partnership Category, Type, Billing Type (B): This combination of fields ensures that a program partner is properly defined and categorized within the Loyalty Management system.

* Name: Identifies the partner within the loyalty program.

* Program: Links the partner to a specific loyalty program.

* Program Partnership Category: Categorizes the partner according to the nature of the partnership (e.g., accrual, redemption).

* Type: Defines the nature of the partnership, such as whether the partner is involved in point accrual, redemption, or both.

* Billing Type: Specifies how the partner is billed, which could be related to transaction fees, membership fees, or other financial arrangements.

Options A, C, and D include fields like "Partnership Start Data," "Industry," and "Status," which, while important, are not the core required fields for initially setting up a program partner in Salesforce Loyalty Management.

Salesforce Loyalty Management documentation provides comprehensive details on setting up program partners, including the required fields and best practices for managing partnerships to enhance member engagement and program value.
