Microsoft AZ-900 exam is designed to test your knowledge of cloud computing concepts, as well as your understanding of Azure services, pricing, and support. It is a foundational certification that is intended for individuals who are new to the field of cloud computing. AZ-900 Exam will help you understand the basic concepts of cloud computing and how Microsoft Azure can help businesses achieve their goals.

Microsoft Azure Fundamentals Sample Questions (Q446-Q451):

NEW QUESTION # 446

Your company plans to migrate all its network resources to Azure. You need to start the planning process by exploring Azure. What should you create first?

- A. a subscription
- B. a virtual network
- C. a management group
- D. a resource group

Answer: A

Explanation:

The first thing you create in Azure is a subscription. You can think of an Azure subscription as an 'Azure account'. You get billed per subscription.

A subscription is an agreement with Microsoft to use one or more Microsoft cloud platforms or services, for which charges accrue based on either a per-user license fee or on cloud-based resource consumption.

Microsoft's Software as a Service (SaaS)-based cloud offerings (Office 365, Intune/EMS, and Dynamics 365) charge per-user license fees.

Microsoft's Platform as a Service (PaaS) and Infrastructure as a Service (IaaS) cloud offerings (Azure) charge based on cloud resource consumption.

You can also use a trial subscription, but the subscription expires after a specific amount of time or consumption charges. You can convert a trial subscription to a paid subscription.

Organizations can have multiple subscriptions for Microsoft's cloud offerings.

NEW QUESTION # 447

Select the answer that correctly completes the sentence.

Answer:

Explanation:

Explanation:

NEW QUESTION # 448

A company has setup an Azure subscription and an Azure tenant. You need to provide the development team to be able to start and stop Virtual Machines. The access needs to be granted on specific occasions only.

You need to ensure the permission gets assigned and use the principle of least privilege. You also need to minimize costs.

Which of the following security feature would you use for the requirement?

- A. Privileged Identity Management
- B. Conditional Access policy
- C. Azure Policies
- D. Just in time VM access

Answer: A

Explanation:

With Privileged Identity Management, you can implement just in time privileges for Azure resources.

NEW QUESTION # 449

HOTSPOT

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

□

Answer:

Explanation:

□ Section: Describe Azure cost management and Service Level Agreements

Explanation:

Box 1: No

Azure Free Account gives you 12 months access to the most popular free services. It also gives you a credit (150 GBP or 200 USD) to use on any Azure service for up to 30 days.

Box 2: Yes

All free accounts expire after 12 months.

Box 3: No

You can only create one free Azure account per Microsoft account.

NEW QUESTION # 450

This question requires that you evaluate the underlined text to determine if it is correct.

After you create a virtual machine, you need to modify the network security group (NSG) to allow connections from TCP port 8080 to the virtual machine.

Instructions: Review the underlined text. If it makes the statement correct, select "No change is needed". If the statement is incorrect, select the answer choice that makes the statement correct.

- A. virtual network
- B. virtual network gateway
- C. **No change is needed**
- D. route table

Answer: C

Explanation:

Section: Understand Security, Privacy, Compliance and Trust
