At QuestionsTube, you can read AZ-140 free demo questions in pdf file, so you can check the questions and answers before deciding to download the Microsoft AZ-140 practice questions. These free demo questions are parts of the AZ-140 exam questions. Download and read them carefully, you will find that the AZ-140 test questions of QuestionsTube will be your great learning materials online. Share some AZ-140 exam online questions below.

P.S. Free 2026 Microsoft AZ-140 dumps are available on Google Drive shared by VCETorrent: https://drive.google.com/open?id=1nLh3R0Zs4gXz1s1TGC_6ZyUrsNVJjp0V

The more you practice with our AZ-140 simulating exam, the more compelling you may feel. Even if you are lack of time, these AZ-140 practice materials can speed up your pace of review. Our AZ-140 guide questions are motivating materials especially suitable for those exam candidates who are eager to pass the exam with efficiency. And we can claim that with our AZ-140 study braindumps for 20 to 30 hours, you will be bound to pass the exam.

Audience for the Exam

Exam AZ-140 is designed for administrators that are responsible for planning, performing, and operating virtual desktop experiences along with remote apps based on Azure for any device. Such professionals cooperate with Azure admins and architects, as well as with Microsoft 365 admins, to deliver apps on Azure Virtual Desktop and help them perform in multi-session virtual environments. Before enrolling in the process of taking the test, exam-takers should be proficient in Azure technologies (virtualization, storage, backups, disaster recovery, etc.), they also should be knowledgeable of the on-premises virtual desktop infrastructure technologies that are connected with migration to Azure Virtual Desktop as well. To add more, the candidates should have a thorough understanding of Azure Resource Manager templates and the Azure portal.

AZ-140 Exam Vce Format - High-Efficient AZ-140 Test Pattern and Correct Configuring and Operating Microsoft Azure Virtual Desktop Training Tools

You can also become part of this skilled and qualified community. To do this just enroll in the AZ-140 certification exam and start preparation with real and valid Configuring and Operating Microsoft Azure Virtual Desktop (AZ-140) exam practice test questions right now. The VCETorrent Microsoft AZ-140 Exam Practice test questions are checked and verified by experienced and qualified AZ-140 exam trainers. So you can trust VCETorrent Microsoft AZ-140 exam practice test questions and start preparation with confidence.

Microsoft Configuring and Operating Microsoft Azure Virtual Desktop Sample Questions (Q254-Q259):

NEW QUESTION # 254

You have an Azure Virtual Desktop deployment that contains the session hosts shown in the following table.

Name	Microsoft Configuration
Host1	RDP Shortpath for managed networks is enabled.
Host2	RDP Shortpath for managed networks is not configured.

You have the users shown in the following table.

- Users connect to Azure from the locations shown in the following table.
 - For each of the following statements, select Yes if the statement is true. Otherwise, select No.
- NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 255

You have an Azure Virtual Desktop deployment.

You are configuring the outbound firewall settings for the host pool.

Which outbound URL and outbound port should you configure to ensure that the host machines maintain Windows activation? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Reference:

<https://docs.microsoft.com/en-us/azure/virtual-desktop/safe-url-list>

NEW QUESTION # 256

-

You have an Azure Virtual Desktop deployment that contains a host pool named HostPool1.

You need to perform the following configurations for HostPool1:

- * Set the scale factor of the remote session to 125 percent.
- * Generate a registration key that expires after five days.
- * Enable Start VM on connect.

Which three settings should you modify? To answer, select the appropriate settings in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 257

You have an Azure Virtual Desktop deployment that contains a host pool. The pool has the following settings:

- * Resource group: RG1
- * Host pool name: Pool1
- * Location: East US
- * Host pool type: Pooled

The deployment contains the workspaces shown in the following table.

For Pool1, you plan to create a RemoteApp application group named AppGroup1. In which workspaces can you register AppGroup1?

- A. Workspace1, Workspace2, Workspace3, and Workspace4
- B. Workspace1 and Workspace2 only
- C. Workspace1 and Workspace3 only
- D. Workspace1 only

Answer: C

NEW QUESTION # 258

Which three PowerShell modules should you install on Server1 to meet the technical requirements? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. ServerManager
- B. ActiveDirectory
- C. RemoteDesktop
- D. Pester
- E. Hyper-V

Answer: B,D,E

Explanation:

Contoso identifies the following technical requirements:

From a server named Server1, convert the user profile disks to the FSLogix profile containers.

The PowerShell modules for Hyper-V, Active Directory, and Pester are prerequisites to running the cmdlets to convert user profile disks to FSLogix.

Reference:

<https://docs.microsoft.com/en-us/azure/cloud-adoption-framework/migrate/azure-best-practices/contoso-migration-rds-to-wvd> This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case.

However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

Topic 2, Litware, Inc

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

Overview

Litware, Inc. is a pharmaceutical company that has a main office in Boston, United States, and a remote office in Chennai, India.

Existing Environment. Identity Environment

The network contains an on-premises Active Directory domain named litware.com that syncs to an Azure Active Directory (Azure AD) tenant named litware.com.

The Azure AD tenant contains the users shown in the following table.

All users are registered for Azure Multi-Factor Authentication (MFA).

Existing Environment. Cloud Services

Litware has a Microsoft 365 E5 subscription associated to the Azure AD tenant. All users are assigned Microsoft 365 Enterprise E5 licenses.

Litware has an Azure subscription associated to the Azure AD tenant. The subscription contains the resources shown in the following table.

□ Litware uses custom virtual machine images and custom scripts to automatically provision Azure virtual machines and join the virtual machines to the on-premises Active Directory domain.

Network and DNS

The offices connect to each other by using a WAN link. Each office connects directly to the internet.

All DNS queries for internet hosts are resolved by using DNS servers in the Boston office, which point to root servers on the internet. The Chennai office has caching-only DNS servers that forward queries to the DNS servers in the Boston office.

Requirements. Planned Changes

Litware plans to implement the following changes:

Deploy Windows Virtual Desktop environments to the East US Azure region for the users in the Boston office and to the South India Azure region for the users in the Chennai office.

Implement FSLogix profile containers.

Optimize the custom virtual machine images for the Windows Virtual Desktop session hosts.

Use PowerShell to automate the addition of virtual machines to the Windows Virtual Desktop host pools.

Requirements. Performance Requirements

Litware identifies the following performance requirements:

Minimize network latency of the Windows Virtual Desktop connections from the Boston and Chennai offices.

Minimize latency of the Windows Virtual Desktop host authentication in each Azure region.

Minimize how long it takes to sign in to the Windows Virtual Desktop session hosts.

Requirements. Authentication Requirements

Litware identifies the following authentication requirements:

Enforce Azure MFA when accessing Windows Virtual Desktop apps.

Force users to reauthenticate if their Windows Virtual Desktop session lasts more than eight hours.

Requirements. Security Requirements

Litware identifies the following security requirements:

Explicitly allow traffic between the Windows Virtual Desktop session hosts and Microsoft 365.

Explicitly allow traffic between the Windows Virtual Desktop session hosts and the Windows Virtual Desktop infrastructure.

Use built-in groups for delegation.

Delegate the management of app groups to CloudAdmin1, including the ability to publish app groups to users and user groups.

Grant Admin1 permissions to manage workspaces, including listing which apps are assigned to the app groups.

Minimize administrative effort to manage network security.

Use the principle of least privilege.

Requirements. Deployment Requirements

Litware identifies the following deployment requirements:

Use PowerShell to generate the token used to add the virtual machines as session hosts to a Windows Virtual Desktop host pool.

Minimize how long it takes to provision the Windows Virtual Desktop session hosts based on the custom virtual machine images.

Whenever possible, preinstall agents and apps in the custom virtual machine images.

NEW QUESTION # 259

.....

The Configuring and Operating Microsoft Azure Virtual Desktop (AZ-140) certification exam is one of the best credentials in the modern Microsoft world. The Configuring and Operating Microsoft Azure Virtual Desktop (AZ-140) certification offers a unique opportunity for beginners or experienced professionals to demonstrate their expertise and knowledge with an industry-recognized certificate. With the Microsoft AZ-140 Exam Dumps, you can not only validate your skill set but also get solid proof of your proven expertise and knowledge.
