## Free PDF Quiz H12-521\_V1.0 - HCIP-Intelligent Vision V1.0 Fantastic New Exam Preparation

Dumpcollection offers authentic and actual H12-521\_V1.0 dumps that every candidate can rely on for good preparation. Our top priority is to give you the most reliable prep material that helps you pass the H12-521\_V1.0 Exam on the first attempt. In addition, we offer up to three months of free HCIP-Intelligent Vision V1.0 questions updates.

Huawei H12-521\_V1.0 Exam is a comprehensive test that evaluates candidates' knowledge of intelligent vision technology, including its applications, principles, and best practices. HCIP-Intelligent Vision V1.0 certification exam is designed to ensure that professionals possess the necessary skills to design, deploy, and manage intelligent vision solutions effectively. HCIP-Intelligent Vision V1.0 certification is highly valued in the industry and is an excellent way for professionals to demonstrate their expertise and advance their careers in the field of intelligent vision technology.

## Huawei HCIP-Intelligent Vision V1.0 Sample Questions (Q43-Q48):

### NEW QUESTION # 43

In site planning principles, a observation circle is to enclose the target area to build a comprehensive and enclosed prevention and control system. For example, observation circles can be built for inter-city boundaries and a city's entrance/exit points.

- A. FALSE
- B. TRUE

**Answer: B**

Explanation:

The correct answer is A. TRUE . The idea of an observation circle in video site planning is to form a perimeter-style observation system around a protected area so that targets can be detected, tracked, and controlled at key boundary points. This matches the planning logic used in intelligent vision deployments, where site selection focuses on strategically important locations. The material identifies priority planning positions such as "Road intersections and entrances and exits" and "Key areas in cities" . These are exactly the kinds of points used to form an observation circle.

From a professional planning perspective, the observation circle concept is not just about placing cameras randomly; it is about creating an enclosed prevention-and-control framework by covering the external boundary and critical transition points of an area. Inter-city boundaries and city entrances or exits are typical examples because they are natural choke points for observation, vehicle monitoring, and event response. By surrounding the target area through layered site deployment, the system improves awareness, traceability, and early warning capability. Therefore, the statement correctly describes the purpose and example of an observation circle.

#### NEW QUESTION # 44

IVS3800 improves the reliability of data through the backup function. Which of the following statement about backups is wrong?

- A. Backup source server and destination server can be in the same cluster
- B. Real-time backup is to back up the real-time video of the camera and the metadata obtained by analysis
- C. Support for backing up videos and pictures to parallel domains and superior domains
- D. Historical backup is to back up the historical data of the camera

**Answer: A**

#### NEW QUESTION # 45

A certain urban area needs to deploy a batch of video sites for road monitoring, face recognition, vehicle management, etc. Regarding the selection of rods and network equipment for video sites, which of the following selections meet the requirements? (Multiple choice)

- A. Use the old monitoring poles and router access
- B. Face recognition rods, switch access
- C. Use the old traffic station rods and switch access
- D. Vehicle bayonet rod GPON

**Answer: B,C**

#### NEW QUESTION # 46

GB/T28181 describes the technical requirements for information transmission, exchange, and control in the security and defense video security networking system.

- A. True
- B. False

**Answer: A**

#### NEW QUESTION # 47

The ONVIF protocol describes the network video model, interface, data type, and data interaction. The goal is to solve the interoperability between IP network-based security products (cameras, VMS, etc.).

- A. True
- B. False

Answer: A

## NEW QUESTION # 48
