

# **Juniper JN0-460 Braindumps Downloads, JN0-460 Latest Exam Test**

BTW, DOWNLOAD part of Real4test JN0-460 dumps from Cloud Storage: <https://drive.google.com/open?id=1WuqK7AvKJ-Zw78FMYDf-cB8b-grXjSYQ>

So it requires no special plugins. The web-based Mist AI Wired, Specialist (JNCIS-MistAI-Wired) (JN0-460) practice exam software is genuine, authentic, and real so feel free to start your practice instantly with Mist AI Wired, Specialist (JNCIS-MistAI-Wired) (JN0-460) practice test. It would be really helpful to purchase Mist AI Wired, Specialist (JNCIS-MistAI-Wired) (JN0-460) exam dumps right away. If you buy this Juniper Certification Exams product right now, we'll provide you with up to 1 year of free updates for Mist AI Wired, Specialist (JNCIS-MistAI-Wired) (JN0-460) authentic questions. You can prepare using these no-cost updates in accordance with the most recent test content changes provided by the Mist AI Wired, Specialist (JNCIS-MistAI-Wired) (JN0-460) exam dumps.

According to different kinds of questionnaires based on study condition among different age groups, we have drawn a conclusion that the majority learners have the same problems to a large extend, that is low-efficiency, low-productivity, and lack of plan and periodicity. As a consequence of these problem, our JN0-460 test prep is totally designed for these study groups to improve their capability and efficiency when preparing for JN0-460 Exams, thus inspiring them obtain the targeted JN0-460 certificate successfully. There are many advantages of our JN0-460 question torrent that we are happy to introduce you and you can pass the exam for sure.

## **100% Pass Quiz 2026 Juniper Professional JN0-460: Mist AI Wired, Specialist (JNCIS-MistAI-Wired) Braindumps Downloads**

Everyone has the right to pursue happiness and wealth. You can rely on the JN0-460 certificate to support yourself. If you do not own one or two kinds of skills, it is difficult for you to make ends meet in the modern society. After all, you can rely on no one but yourself. At present, our JN0-460 study materials can give you a ray of hope. You can get the JN0-460 certification easily with our JN0-460 learning questions and have a better future.

## **Juniper JN0-460 Exam Syllabus Topics:**

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>• <b>Wired Assurance Management or Operations:</b> This section of the exam measures the skills of Network Operations Engineers and focuses on the management and operational aspects of Wired Assurance. It covers switch management, port profiles, and dynamic port configuration to ensure optimal network performance. The section also explores service-level expectations, client insights, and the use of APIs for improved monitoring and automation. Candidates gain an understanding of how MistAI enables proactive management and predictive troubleshooting to maintain service quality.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• <b>Campus EVPN-VXLAN:</b> This section of the exam measures the skills of Data Center Network Engineers and explores the key principles of VXLAN and EVPN technologies. Candidates learn about Layer 2 tunneling, data and control plane operations, and the functions of VTEPs and VXLAN gateways. Additionally, it covers advanced EVPN concepts such as multipath routing, route types, and identifiers. The section concludes with a focus on MAC learning and policy applications to ensure efficient, scalable, and resilient network fabrics.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Wired Assurance Provisioning or Deployment:</b> This section of the exam measures the skills of Network Deployment Specialists and focuses on the provisioning and deployment processes of Wired Assurance. It includes the essential steps and options involved in setting up networks, from configuration templates to deployment methodologies. Candidates learn about provisioning procedures, supported architectures, and the use of site variables to streamline automation and consistency across wired infrastructures.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Campus Fabric Architecture:</b> This section of the exam measures the skills of Network Design Engineers and focuses on understanding and deploying Campus Fabric Architectures. It introduces essential design concepts such as EVPN multihoming, IP Clos architecture, and micro-segmentation. The section also compares CRB and ERB models, explains scaling requirements, and highlights how the Campus Fabric Core-Distribution design supports high-performance, scalable, and secure enterprise networks.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• <b>Wired Assurance Fundamentals:</b> This section of the exam measures the skills of Network Support Engineers and covers the foundational elements of Wired Assurance within the MistAI ecosystem. It introduces candidates to key concepts such as supported devices, solution architecture, and the main features and components that define Wired Assurance functionality. Additionally, it highlights how MistAI accounts, analytics, and subscriptions integrate to deliver intelligent insights for network performance and operations.</li> </ul>

## Juniper Mist AI Wired, Specialist (JNCIS-MistAI-Wired) Sample Questions (Q72-Q77):

### NEW QUESTION # 72

Click the Exhibit button.

Which two statements are correct about the switch shown in the exhibit? (Choose two.)

- A. PoE is enabled.
- B. The Junos OS version on this switch is compliant with the other switches in the organization.
- C. The Mist APs are connected to ge interfaces.
- D. The Junos OS version on this switch is not compliant with the other switches in the site.

**Answer: A,D**

Explanation:

According to the provided exhibit, several visual indicators confirm the operational status and compliance of the EX4100-48MP switch within the Juniper Mist dashboard1.

First, the statement that PoE is enabled is verified by multiple sections of the dashboard2. In the Front Panel view, several ports display a green icon representing a wireless access point, and the PoE status indicator in the top right is lit green, indicating the subsystem is active. Furthermore, the Statistics panel shows a "Total Power Draw" of 48.40 W, and the Metrics section displays "100% PoE Compliance," confirming that the switch is successfully delivering Power over Ethernet to connected devices such as the three Mist APs listed in the summary.

Second, the exhibit indicates that the Junos OS version on this switch is not compliant with the other switches in the site5. This is explicitly shown in the Metrics section, where the Version Compliance tile is highlighted in red with a value of 0%6. In the Mist AI-

driven interface, a red compliance tile signifies that the current software version running on the device (identified as 23.2R1.13 in the Properties panel) does not match the "Configured Version" or the "Approved Version" set at the Site or Organization level. The other options are incorrect based on the visual evidence. While Mist APs are connected, the Front Panel shows them connected to 2.5GbE (mGig) ports (ports 0, 2, 8, etc.) and standard 1GbE ports, not specifically just "ge" interfaces in a traditional sense<sup>8</sup>. Additionally, the 0% Version Compliance score directly contradicts the idea that the switch is compliant with the organization's standards.

#### NEW QUESTION # 73

MistAI accounts are essential for which of the following reasons?

- A. To limit network functionality
- B. To reduce network security
- C. To manually configure network devices
- D. To access AI-driven network insights

**Answer: D**

#### NEW QUESTION # 74

The integration of VXLAN with EVPN provides which of the following benefits?

- A. Reduced control plane scalability
- B. Integrated control and data plane learning for efficient MAC address management
- C. Simplification of physical network topology
- D. Increased reliance on Layer 2 flooding

**Answer: B**

#### NEW QUESTION # 75

Which three parameters should be provided through DHCP when using ZTP during a Mist AI greenfield deployment? (Choose three.)

- A. NTP server
- B. name server
- C. NETCONF
- D. IP address

**Answer: A,B,D**

#### NEW QUESTION # 76

Which two statements are correct about adding CLI commands to the "Additional CLI Commands" input box on the switch configuration page? (Choose two.)

- A. The commands are applied to the switch every time the configuration is saved.
- B. The commands are only applied the first time the configuration is saved.
- C. To remove the command you must change the actual command from 'set' to 'delete'
- D. To remove the command from the switch, delete the command from the input box.

**Answer: A,C**

#### NEW QUESTION # 77

.....

They can try a free demo for satisfaction before buying our Juniper JN0-460 dumps. And a 24/7 support system assists them whenever they are stuck in any problem or issue. This Mist AI Wired, Specialist (JNCIS-MistAI-Wired) (JN0-460) questions is a complete package and a blessing for candidates who want to prepare quickly for the JN0-460 exam Buy It Now!
