

Certification 156-536 Exam Infor - 156-536 Practical Information

DOWNLOAD the newest Prep4sureExam 156-536 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1FW99xV5NNf01tEsfhND-p78JogAqHE24>

If you want to pass the exam smoothly buying our Check Point Certified Harmony Endpoint Specialist - R81.20 (CCES) guide dump is your ideal choice. They can help you learn efficiently, save your time and energy and let you master the useful information. Our passing rate of 156-536 study tool is very high and you needn't worry that you have spent money and energy on them but you gain nothing. We provide the great service after you purchase our 156-536 cram training materials and you can contact our customer service at any time during one day. It is a pity if you don't buy our 156-536 study tool to prepare for the test CheckPoint certification.

Our Prep4sureExam's 156-536 exam dumps and answers are researched by experienced IT team experts. These 156-536 test training materials are the most accurate in current market. You can download 156-536 free demo on Prep4sureExam.COM, it will be a good helper to help you pass 156-536 certification exam.

Trusting Reliable Certification 156-536 Exam Infor Is The Quickest Way to

Pass Check Point Certified Harmony Endpoint Specialist - R81.20 (CCES)

About the 156-536 Exam Certification, reliability can not be ignored. 156-536 exam training materials of Prep4sureExam are specially designed. It can maximize the efficiency of your work. We are the best worldwide materials provider about this exam.

CheckPoint 156-536 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Large-Scale Harmony Endpoint Deployment: This domain is aimed at Harmony Endpoint Security Professionals and addresses the challenges associated with deploying Harmony Endpoint at scale. Candidates will learn about strategies for efficient large-scale implementation while maintaining security standards across numerous devices.
Topic 2	<ul style="list-style-type: none">• Advanced Threat Prevention: CheckPoint Security Administrators will be assessed in this area, which covers advanced techniques for preventing sophisticated threats. This includes leveraging threat intelligence and proactive measures to safeguard endpoints from emerging cyber risks.
Topic 3	<ul style="list-style-type: none">• Troubleshooting: In this final section, CheckPoint Security Administrators will demonstrate their troubleshooting skills related to Harmony Endpoint. This involves identifying and resolving issues that may arise during deployment or operation of the endpoint security solution.
Topic 4	<ul style="list-style-type: none">• Introduction to Harmony Endpoint: This section measures the skills of CheckPoint Security Administrators about the fundamental concepts of Harmony Endpoint. It introduces candidates to the capabilities of the Harmony Endpoint solution, which is designed to protect endpoint devices from various cyber threats.
Topic 5	<ul style="list-style-type: none">• Harmony Endpoint Security Management: This section focuses on the skills of Harmony Endpoint Security Professionals and covers the management aspects of Harmony Endpoint Security. It emphasizes how to effectively configure and manage security policies across endpoint devices.
Topic 6	<ul style="list-style-type: none">• Harmony Endpoint Management as a Service: This section targets Harmony Endpoint Security Professionals, focusing on managing endpoint security as a service. It covers the cloud-based management capabilities of Harmony Endpoint, allowing for scalable deployment and policy management.

CheckPoint Check Point Certified Harmony Endpoint Specialist - R81.20 (CCES) Sample Questions (Q23-Q28):

NEW QUESTION # 23

What is the default encryption algorithm in the Full Disk Encryption tab under Advanced Settings?

- A. AES-CBC 256 bit
- B. AES-CBC 128 bit
- C. XTS-AES 128 bit
- D. XTS-AES 256 bit

Answer: D

Explanation:

The default encryption algorithm for Full Disk Encryption (FDE) in Check Point Harmony Endpoint, as configured in the Advanced Settings tab, is XTS-AES 256 bit. This is explicitly stated in the CP_R81.

20_Harmony_Endpoint_Server_AdminGuide.pdf on page 221, under the "Custom Disk Encryption Settings" section:

"The default encryption algorithm is XTS-AES 256 bit."

This extract confirms that Option C is correct. The document further notes that administrators can choose between XTS-AES 256 bit and XTS-AES 128 bit, but 256 bit is the default, reflecting a preference for stronger encryption. XTS (XEX-based tweaked-codebook mode with ciphertext stealing) is specifically designed for disk encryption, providing better security than CBC (Cipher Block Chaining) modes.

* Option A ("AES-CBC 128 bit") and Option B ("AES-CBC 256 bit") are incorrect because FDE uses XTS mode, not CBC, which is less suited for disk encryption due to its vulnerabilities in this context.

* Option D ("XTS-AES 128 bit") is a configurable option but not the default, as the guide specifies 256 bit as the standard setting.

References:

CP_R81.20_Harmony_Endpoint_Server_AdminGuide.pdf, Page 221: "Custom Disk Encryption Settings" (confirms XTS-AES 256 bit as the default algorithm).

NEW QUESTION # 24

Endpoint's Media Encryption (ME) Software Capability protects sensitive data on what, and how?

- A. Storage devices, removable media, and other input/output devices by requiring authorization before a user accesses the device
- B. Storage devices by requiring multi-factor authorization
- C. Removable media and other input/output devices by using encryption methods
- D. Input/output devices using Anti-Malware

Answer: A

NEW QUESTION # 25

An Innovative model that classifies new forms of malware into known malware families based on code and behavioral similarity is called

- A. Sanitization (CDR)
- B. Anti-Ransomware
- C. Polymorphic Model
- D. Behavior Guard

Answer: D

NEW QUESTION # 26

default, an FDE Action does what?

- A. Decrypts all visible disk volumes
- B. Encrypts all visible disk volumes
- C. Rebuilds the hard drive
- D. Re-defines all visible disk volumes

Answer: B

NEW QUESTION # 27

The Harmony Endpoint solution includes which three Data Security Software Capability protections?

- A. * Full Disk Encryption
* Media Encryption
* Anti-Malware
- B. * Media Encryption
* Media Decryption
* Remote Access VPN
- C. * Full Disk Encryption
* Media Encryption & Port Protection (MEPP)
* Remote Access VPN
- D. * Passwords and Usernames
* Port Protection (MEPP)
* Security Questions

Answer: A

NEW QUESTION # 28

.....

Our web-based practice test is accessible from anywhere with an internet connection, which means you can take it at your convenience. This CheckPoint 156-536 Practice Test is designed to simulate the actual exam and help you become familiar with the test format. You can access the web-based practice exam from anywhere with an internet connection to study on the go or from the comfort of your own home. You can receive your mock exam result instantly.
