As for the safe environment and effective product, why don't you have a try for our Apigee-API-Engineer question torrent, never let you down!

Google Cloud - Apigee Certified API Engineer Sample Questions (Q111-Q116):

NEW QUESTION # 111

You are working on a new design for an API. The backend API will set the customer to a deleted status. The customer will remain in the backend database for later cleanup. The customer can no longer be retrieved by the API once the status is set. Which method should be used at the Apigee proxy to set the deleted status?

- A. GET
- B. DELETE
- C. PUT
- D. OPTIONS
- E. POST

Answer: A

NEW QUESTION # 112

You have implemented an Apigee Edge API proxy that includes a new shared flow. Before you release to production, you need to ensure all dependencies are ready. What should you do?

- A. Deploy the shared flow to the production environment
- B. Execute static code analysis on the bundle
- C. Alert the quality analysis team and product owner that you are preparing the release
- D. Run automated unit tests in the test environment

Answer: D

NEW QUESTION # 113

The IT security staff is concerned about unexpected increases in traffic on an API with an OAuth authorization flow. You want to limit impacts of such traffic increases. What should you do?

- A. Work with operations to ensure autoscaling is set up to respond to traffic events
- B. Use the Concurrent Rate Limit policy, to ensure back-end services are not overwhelmed
- C. Use a Quota policy, to ensure that no client exceeds a defined quantity of traffic.
- D. Use the Spike Arrest policy, to smooth out traffic spikes.

Answer: A

NEW QUESTION # 114

While testing your Apigee API proxy, you discover that the TargetEndpoint that is called is not what you expect. You have verified that there is a RouteRule that matches conditions, and should be called. What should you do?

- A. Create a new proxy for this special condition.
- B. Modify the RouteRules to be more specific.
- C. Add a new TargetServer to handle your specific condition
- D. Reorder the RouteRules so that your condition is found

Answer: C

NEW QUESTION # 115

You are designing an API that allows a consumer to fetch all orders associated to a given customer. You want to use a RESTful design. Which design should you use?

- A. GET/customers/{customer-id}/orders
- B. POST /orders with a post-body of customer-id- {customer-id}
- C. GET/getOrdersForCustomer?customer-id={customer-id}
- D. GET/orders?customer-id={customer-id}

Answer: A

NEW QUESTION # 116

.....
