

Certification ICWIM Exam Cost, Reliable ICWIM Exam Sample

International Certificate in Wealth Investment Management (ICWIM) Exam

1. What is the primary role of a wealth manager?

- A) To provide loans to clients
- B) To advise clients on investment strategies and wealth management
- C) To manage client taxes exclusively
- D) To facilitate client spending

Answer: B

Explanation: Wealth managers primarily focus on advising clients on various investment strategies and overall wealth management, helping clients achieve their financial goals.

2. Which of the following is NOT a characteristic of mutual funds?

- A) Pooled investment
- B) Daily pricing
- C) Direct ownership of securities
- D) Professionally managed

Answer: C

Explanation: Investors in mutual funds do not hold direct ownership of the underlying securities; instead, they own shares in the mutual fund itself, which in turn owns the securities.

Reliable ICWIM Exam Sample & ICWIM Training Tools

As we all know, looking at things on a computer for a long time can make your eyes wear out and even lead to the decline of vision. We are always thinking about the purpose for our customers. To help customers solve problems, we support printing of our ICWIM exam torrent. Our ICWIM quiz torrent can help you get out of trouble regain confidence and embrace a better life. Our ICWIM Exam Question can help you learn effectively and ultimately obtain the authority certification of CISI, which will fully prove your ability and let you stand out in the labor market. We have the confidence and ability to make you finally have rich rewards. Our

ICWIM learning materials provide you with a platform of knowledge to help you achieve your wishes.

CISI International Certificate in Wealth & Investment Management Sample Questions (Q81-Q86):

NEW QUESTION # 81

Tax relief that prevents overseas profits from being taxed twice is called:

- A. Dividend Taxation Relief
- B. Overseas Taxation Relief
- **C. Double Taxation Relief**
- D. Double Taxation Agreement

Answer: C

Explanation:

Double Taxation Relief (DTR) ensures that income earned in a foreign country is not taxed twice-once in the country where the income is earned and again in the investor's home country.

* How It Works:

* If an investor pays foreign tax on overseas income, they can offset that tax liability against their domestic tax bill.

* The UK has Double Taxation Agreements (DTAs) with multiple countries to prevent double taxation on dividends, interest, and capital gains.

* Example:

* A UK investor receives £10,000 in dividends from US stocks and is charged a 15% withholding tax in the US.

* Under a UK-US tax treaty, the investor receives a tax credit for the amount paid in the US, reducing UK tax liability.

Reference: HMRC Double Taxation Agreements, CISI Wealth & Investment Management.

NEW QUESTION # 82

If a firm operating in a perfect free market is able to make supernormal profit in the short run, what is likely to occur in the long run?

- A. The government will regulate the market
- **B. Other firms will enter the industry until no economic profit is made**
- C. The firm will cut its prices until no economic profit is made
- D. It will continue to make supernormal profit

Answer: B

Explanation:

In a perfectly competitive market, short-term supernormal profits attract new firms into the industry, driving down profits to normal levels in the long run.

* Why is Option B Correct?

* Free market entry allows competitors to reduce market share and drive down prices.

* Eventually, firms earn only normal profits, meaning no economic profit remains.

* Why Not Other Options?

* A (Continue making supernormal profit) # Not possible in perfect competition, as new firms enter.

* C (Government regulation) # Market forces, not regulation, determine profit in perfect competition.

* D (Firm cuts prices) # Price reduction occurs due to new competition, not voluntary price cuts.

Reference: Microeconomic Theory (Perfect Competition), CISI Wealth & Investment Management.

NEW QUESTION # 83

Once an offshore foundation is established, who will normally be responsible for making ongoing decisions regarding the operational use of the foundation's assets?

- A. The beneficiaries
- **B. The council**
- C. The board of directors
- D. The trustees

Answer: B

Explanation:

- * Offshore Foundations
 - * These legal entities are typically used for wealth preservation, estate planning, or philanthropic purposes.
 - * Foundations are managed by a council, which is responsible for operational decisions and ensuring the foundation's goals are met.
 - * Why the Answer is C
 - * The council acts similarly to a board of directors but focuses specifically on the foundation's assets and objectives.
 - * Why Other Options are Incorrect
 - * A. Board of directors: Applies to companies, not foundations.
 - * B. Trustees: Apply to trusts, not foundations.
 - * D. Beneficiaries: Beneficiaries do not have decision-making authority.
 - * ICWIM Study Guide, Chapter on Trusts and Foundations: Discusses the governance of offshore foundations.
 - * Legal Principles of Foundations: Confirms the role of the council.
- References Thus, the correct answer is C. The council.

NEW QUESTION # 84

What is the most likely effect on the demand curve of an increase in consumer preference for a good?

- A. A rightward shift
- B. A leftward shift
- C. A downward movement
- D. An upward movement

Answer: A

Explanation:

- * Effect of Increased Consumer Preference:
 - * When consumer preference for a good increases, demand rises at all price levels, leading to a rightward shift in the demand curve.
 - * The rightward shift reflects higher quantity demanded at each price point.
 - * Elimination of Other Options:
 - * A & B: Movements along the curve (upward or downward) occur due to price changes, not preference shifts.
 - * D: A leftward shift indicates reduced demand, contrary to the scenario presented.
- References:
- * ICWIM Module 3: Microeconomics: Demand and supply curve analysis.

NEW QUESTION # 85

Which commodity is categorized based on how sweet or sour it is?

- A. Natural gas
- B. Zinc
- C. Oil
- D. Coffee

Answer: C

Explanation:

Crude oil is classified as sweet or sour based on its sulfur content:

- * Sweet crude # Low sulfur content (e.g., Brent Crude).
 - * Sour crude # High sulfur content (e.g., Venezuelan crude).
 - * Sweet crude is more desirable because it is easier to refine into gasoline and diesel.
 - * Why Not Other Options?
 - * A (Coffee) # Categorized by origin and bean type.
 - * B (Natural gas) # Classified by energy content.
 - * D (Zinc) # Graded by purity, not sweetness.
- # Reference: International Energy Agency (IEA), CISI Wealth & Investment Management (Commodity Markets).

NEW QUESTION # 86

.....

In today's competitive CISI industry, only the brightest and most qualified candidates are hired for high-paying positions.
