IIA Business Knowledge for Internal Auditing Sample Questions (Q303-Q308):

NEW QUESTION # 303

Which of the following best describes the primary objective of cybersecurity?

- A. To regulate users' behavior in the web and cloud environment.
- B. To secure application of protocols and authorization routines.
- C. To protect the effective performance of IT general and application controls.
- D. To prevent unauthorized access to information assets.

Answer: A

NEW QUESTION # 304

The network below describes the interrelationships of several activities necessary to complete a project. The arrows represent the activities. The numbers between the arrows indicate the number of months to complete each activity.

The shortest time to complete the project is

- A. 8 months.
- B. 6 months.
- C. 14 months.
- D. 5 months.

Answer: A

Explanation:

The critical (longest) path through the network from node (A) to node (F) is path A-C-D-F. All other paths are shorter than path A-C-D-F, so the activities along those paths can be completed before the activities along path A-C-D-F. Thus, the shortest time to complete the project is 8 months (3 + 3 + 2).

NEW QUESTION # 305

An internal auditor observed that the organization's disaster recovery solution will make use of a cold site in a town several miles away. Which of the following is likely to be a characteristic of this disaster recovery solution?

- A. Recovery time is expected to be less than one week.
- B. Recovery resources and data restore processes have been defined.
- C. Servers are not available and need to be procured.
- D. Data is synchronized in real time.

Answer: C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

A cold site is a disaster recovery location that provides only basic infrastructure (e.g., power, cooling, and space) but does not have pre-installed IT systems. Organizations must procure and install servers before recovery can begin.

Option A (Real-time data synchronization) applies to hot sites, which maintain fully operational backup systems.

Option B (Recovery time under one week) is more characteristic of warm or hot sites, as cold sites require longer setup times.

Option D (Defined recovery processes) applies to all disaster recovery plans and does not differentiate cold sites.

Since a cold site lacks pre-installed servers, Option C is the correct answer.

NEW QUESTION # 306

An entity that sprays chemicals in residences to eliminate or prevent infestation of insects requires that customers prepay for 3 months' service at the beginning of each new quarter. Select the term that appropriately describes this situation from the viewpoint of the entity.

- A. Earned income.
- **B. Deferred income.**
- C. Prepaid expense.
- D. Accrued income.

Answer: B

Explanation:

The prepayment does not meet the income recognition criteria the future inflow of economic benefits is not sufficiently certain given that the entity has not done what is required to be entitled to those benefits. Thus, the amount received in advance is considered a liability (deferred income) because it represents an obligation to perform a service in the future (an outflow of economic benefits) arising from a past transaction.

NEW QUESTION # 307

An organization decided to reorganize into a flatter structure. Which of the following changes would be expected with this new structure?

- A. Lower costs.
- B. Slower decision making at the senior executive level.
- C. Limited creative freedom in lower-level managers.
- **D. Senior-level executives more focused on short-term, routine decision making**

Answer: D
