These Registry Examination for Advanced Pulmonary Function Technologists (RPFT) practice test covers all the topics of the RPFT test and includes real RPFT questions. If you are attempting the RPFT examination for the first time, you will get an exact idea about the RPFT exam and how you can clear it with flying colors. These NBRC RPFT Questions are available in desktop RPFT practice exam software, web-based RPFT practice test, and Registry Examination for Advanced Pulmonary Function Technologists (RPFT) dumps pdf format.

NBRC RPFT (Registry Examination for Advanced Pulmonary Function Technologists) Certification Exam is a highly respected certification for professionals in the field of pulmonary function testing. Registry Examination for Advanced Pulmonary Function Technologists certification is awarded by the National Board for Respiratory Care (NBRC) and is recognized by employers, colleagues and patients as a mark of expertise and competence. To be eligible to take the NBRC RPFT exam, candidates must have a minimum of an associate degree in respiratory care or pulmonary function technology, as well as a minimum of 12 months of clinical experience in pulmonary function technology.

NBRC RPFT exam is designed to evaluate the competency of pulmonary function technologists in a variety of areas, such as patient care, equipment management, quality control, and data interpretation. RPFT Exam consists of 160 multiple-choice questions and is divided into three sections: patient assessment, equipment management, and data analysis. Candidates have four hours to complete the exam, and a passing score is required to obtain certification.

To be eligible to take the NBRC RPFT Exam, candidates must have a minimum of an associate's degree in respiratory therapy or a related field, and must hold a valid license to practice respiratory care. Additionally, candidates must have a minimum of 12 months of experience in pulmonary function testing. The NBRC RPFT Exam is a highly respected credential in the field of respiratory care, and obtaining this certification can lead to increased job opportunities and higher salaries.

Certification RPFT Cost - 100% Latest Questions Pool

Sometime, most candidates have to attend an exam, they may feel nervous and don't know what to do. If you happen to be one of them, our RPFT learning materials will greatly reduce your burden and improve your possibility of passing the exam. Our advantages of time-saving and efficient can make you no longer be afraid of the RPFT Exam, and you will find more about the benefits of our RPFT exam questions later on.

NBRC Registry Examination for Advanced Pulmonary Function

Technologists Sample Questions (Q43-Q48):

NEW QUESTION # 43

While performing a quality control test on an open circuit nitrogen system, the volume of a 3-liter syringe is measured as 3.9 L. Which of the following is the most probable explanation?

- A. There was an air leak in the system.
- B. The initial O₂ concentration in the syringe was greater than 0.21.
- C. The nitrogen analyzer gain was set too low.
- D. The volume was not corrected from ATPS to BTPS.

Answer: A

NEW QUESTION # 44

To assure linearity of an oxygen analyzer, calibrate with

- A. Three test gases within the operating range of the instrument
- B. Air
- C. 100% O₂
- D. Two test gases within the operating range of the instrument

Answer: A

NEW QUESTION # 45

At maximum exercise, a 24-year-old patient's heart rate is 150/min with a VO₂ of 750 mL/min. The calculated O₂ pulse is most consistent with which of the following?

- A. achievement of anaerobic threshold
- B. cystic fibrosis
- C. deconditioning
- D. cardiomyopathy

Answer: B

NEW QUESTION # 46

Which of the following sets of FIF data is most consistent with an extrathoracic airway obstruction?

- A. Option C
- B. Option D
- C. Option B
- D. Option A

Answer: B

NEW QUESTION # 47

A 12-year-old patient completed an evaluation for exercise-induced asthma in the pulmonary function laboratory. The patient completed six minutes of exercise on a treadmill with a heart rate of 145 to 150/min. The following spirometry data were collected:

	FVC (L)	FEV ₁ (L)
Baseline	3.00	2.40
5 minutes post-exercise	3.10	2.30
10 minutes post-exercise	2.95	2.20
15 minutes post-exercise	3.05	2.15

A pulmonary function technologist should conclude that the exercise test is

- A. Inadequate workload with a positive response

- B. Adequate workload with a positive response
- C. Adequate workload with a negative response
- D. Inadequate workload with a negative response

Answer: B

NEW QUESTION # 48

.....

For candidates who choose RPFT test materials for the exam, the quality must be one of most important standards for consideration. We have a professional team to collect the first-rate information for the exam, and we also have reliable channel to ensure you that RPFT exam braindumps you receive is the latest one. We are strict with the quality and answers, and RPFT Exam Materials we offer you is the best and the latest one. In addition, we provide you with free update for 365 days, so that you can know the latest information for the exam, and the latest version for RPFT training materials will be sent to your email address automatically.
