CompTIA Linux+ Certification Exam latest study torrent & XK0-006 vce dumps & XK0-006 practice cram

As we all know, a lot of efforts need to be made to develop a XK0-006 learning prep. Firstly, a huge amount of first hand materials are essential, which influences the quality of the compilation about the XK0-006 actual test guide. We have tried our best to find all reference books. Then our experts have carefully summarized all relevant materials of the XK0-006 exam. Also, annual official test is also included. They have built a clear knowledge frame in their minds before they begin to compile the XK0-006 Actual Test guide. It is a long process to compilation. But they stick to work hard and never abandon. Finally, they finish all the compilation because of their passionate and persistent spirits. So you are lucky to come across our XK0-006 exam questions. Once you choose our products, you choose high-efficiency exam preparation materials which will help you pass exam for sure. We are absolutely responsible for you. Stop hesitation!

CompTIA Linux+ Certification Exam Sample Questions (Q36-Q41):

NEW QUESTION # 36

A Linux user runs the following command:

nohup ping comptia.com &

Which of the following commands /should the user execute to attach the process to the current terminal?

- A. exec
- B. fg
- C. renice
- D. jobs

Answer: B

Explanation:

The fg command brings a background job to the foreground, attaching it to the current terminal.

Since the ping process was started in the background with &, fg is the correct way to reattach it.

NEW QUESTION # 37

A Linux administrator needs to create and then connect to the app-01-imagecontainer. Which of the following commands accomplishes this task?

- A. docker exec -dc app-01-image
- B. docker run -it app-01-image
- C. docker start -td app-01-image
- D. docker build -ic app-01-image

Answer: B

Explanation:

The docker run -it command both creates a new container from the specified image and attaches to it interactively, which is exactly what the administrator needs.

NEW QUESTION # 38

Which of the following commands should a Linux administrator use to determine the version of a kernel module?

- A. depmod bluetooth
- B. modinfo bluetooth
- C. lsmod bluetooth
- D. modprobe bluetooth

Answer: B

Explanation:

The modinfo command displays detailed information about a kernel module, including its version, author, description, and parameters.

NEW QUESTION # 39

A user on a Linux VM is running /work/test.shBash script and receives the following error:

bash: /work/test.sh: Permission denied

After further investigation, the user receives the following outputs:

```
# ls -l /work/test.sh
-rwxr--r--.   1 testuser    test           512 Jul 12  2023 /work/test.sh

# mount
/dev/mapper/work on /work type xfs (rw,nosuid,nodev,noexec,relatime,seclabel,attr2,noquota)
```

Which of the following commands should a systems administrator run to fix the issue?

- A. chmod g+x /work/test.sh
- B. chmod o+x /work/test.sh
- C. mount -o remount,exec /work

- D. mount -o remount,suid /work

Answer: C

Explanation:
The script /work/test.sh already has execute permissions (-rwxr--r--), but the filesystem is mounted with the noexec option, which prevents execution of binaries and scripts. Remounting the filesystem with the exec option allows execution of the script.

NEW QUESTION # 40
In the echo "profile-$num-$name"line of a shell script, the variable $numseems to not be expanding during execution. Which of the following notations ensures the value is expanded?

- A. echo 'profile-$num-$name'
- B. echo "profile-'Snum'-$name"
- C. echo "profile-${num}-$name"
- D. echo "profile-$(num)-$name"

Answer: C

Explanation:
Using ${num} ensures correct variable expansion, especially when variables are adjacent to other characters or hyphens. This prevents ambiguity and guarantees $num is properly expanded within the string.

NEW QUESTION # 41
......

What are you waiting for? Unlock your potential and download PassExamDumps actual XK0-006 questions today! Start your journey to a bright future, and join the thousands of students who have already seen success by using CompTIA Dumps of PassExamDumps, you too can achieve your goals and get the CompTIA Linux+ Certification Exam (XK0-006) certification of your dreams.
