Prep4sureGuide is a very good website for Microsoft certification MS-721 exams to provide convenience. According to the research of the past exam exercises and answers, Prep4sureGuide can effectively capture the content of Microsoft Certification MS-721 Exam. Prep4sureGuide's Microsoft MS-721 exam exercises have a very close similarity with real examination exercises.

The MS-721 exam is a beta exam, which means it is still in development and undergoing testing. Microsoft offers beta exams to allow candidates to provide feedback on the exam questions and to help shape the final exam. Beta exams are usually offered at a discounted price, and candidates who pass the beta exam will receive the certification just like those who take the final exam. However, beta exams may have a longer waiting time for results and may have a higher level of difficulty than the final exam.

Microsoft MS-721 (Collaboration Communications Systems Engineer (beta)) Certification Exam is designed to test the knowledge and skills of IT professionals who are responsible for designing, implementing, and maintaining collaboration and communication systems. This beta exam is intended for individuals who are interested in advancing their career in the field of collaboration and communication systems engineering.

The MS-721 Exam covers a range of topics related to collaboration and communication systems engineering, including designing and deploying communication systems, configuring and optimizing communication systems, troubleshooting and maintaining communication systems, and managing and monitoring communication systems. Collaboration Communications Systems Engineer certification is ideal for IT professionals who work in a variety of roles, including network administrator, systems engineer, and IT

manager.

### Microsoft Collaboration Communications Systems Engineer Sample Questions (Q228-Q233):

#### NEW QUESTION # 228

Your company has a branch office named Branch1 that has limited network bandwidth.

The company has a Microsoft Teams Phone deployment.

You need to limit the amount of data the Teams client utilizes when users are in Branch1.

How should you complete the command? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

☐

**Answer:**

Explanation:

☐

Explanation:

☐

#### NEW QUESTION # 229

You need to meet the technical requirements for the returns department.

How should you complete the PowerShell script? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

☐

**Answer:**

Explanation:

☐

Topic 1, Contoso

Overview

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment and problem statements- If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

General Overview

The network contains an Active Directory forest named contoso.com that syncs to Microsoft 365 by using Azure AD Connect. Domain controllers run Windows Server 2019.

Physical Locations

Contoso has offices in Toronto, New York, and London. Contoso has a manufacturing facility in Vancouver.

Contoso has a global sales team that works remotely without a physical corporate office.

## Active Directory Environment

The network contains an Active Directory forest named contoso.com that syncs to Microsoft 365 by using Azure AD Connect. Domain controllers Windows Server 2019.

## Microsoft Office 365

Contoso has a Microsoft 365 subscription. All users are assigned Microsoft 365 F3 licenses. Contoso uses Microsoft Exchange Online for email.

## Network Infrastructure

All the offices connect to each other by using a private WAN. The Toronto office has a 1-Gbps internet circuit and the London office has a 100-Mbps internet circuit. Internet access for all the offices is provided through the Toronto and London offices.

The remote sales team users connect to the network by using VPN connections. The remote users use various connection types, including wireless and mobile.

Skype for Business Server traffic for the remote users is routed through the VPN connections.

## Telephony

Contoso uses a centralized Skype for Business Server 2015 deployment configured for disaster recovery between the Toronto and London datacenters.

Each frontend pool connects to the PSTN through a pair of managed Session Border Controllers (SBCs) that provide Enterprise Voice and dial-in conferencing.

Contoso has a Skype for Business Server Survivable Branch Appliance (SBA) and a local SBC that connect to a Primary Rate Interface (PRI) in the Vancouver manufacturing facility.

Contoso has hybrid connectivity deployed between Skype for Business Server and Office 365.

All SBCs are Microsoft Teams-certified.

The returns department has an auto attendant that uses an ID of returns3a@contoso.com.

## Planned Changes

Contoso plans to migrate all existing services from Skype for Business Server to Teams.

Direct Routing will be deployed for the existing SBCs.

Existing meeting rooms have Skype for Business Server video endpoints that are Skype for Business Server-certified. The endpoints are not Teams-certified.

You plan to use the video endpoints in Teams until the equipment is replaced with Microsoft Teams Rooms.

A limited pilot of the Teams migration and the Direct Routing deployment will occur in the Vancouver facility before deployment to the entire company.

## Technical Requirements

Contoso identifies the following technical requirements:

- \* During the limited pilot, the media path must be optimized.

- Media flow/ for the remote sales team users must be optimized.

Contoso identifies the following technical requirements:

- \* During the limited pilot, the media path must be optimized.

- \* Media flow/ for the remote sales team users must be optimized.

- \* All sales team users require inbound toll free audio conferencing-

- \* Users in the Vancouver facility must be able to place emergency calls regardless of internet availability.

- \* When users in the returns department dial out, the outbound calls must display Contoso and the department's phone number.

- \* The video endpoints for the existing meeting rooms must be able to be used for both voice and video conferencing in Teams meetings. All sales team users require inbound toll free audio conferencing-

- \* Users in the Vancouver facility must be able to place emergency calls regardless of internet availability.

- \* When users in the returns department dial out, the outbound calls must display Contoso and the department's phone number.

- \* The video endpoints for the existing meeting rooms must be able to be used for both voice and video conferencing in Teams meetings.

## NEW QUESTION # 230

Your company has offices in Paris and London.

You are migrating from an on-premises PBX telephony solution to a Microsoft Teams Phone deployment that uses Direct Routing.

You plan to use the existing telephony carrier. The new solution will provide telephony services to users in both offices.

You need to recommend a solution that is the most resistant to possible failures. The solution must ensure that calls are routed through each user's respective office.

Which two actions should you include in the recommendation? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point

- **A. Deploy one Session Border Controller (SBC) to each office. Configure the SBCs as a high-availability pair.**
- **B. Deploy a highly available Session Border Controller (SBC) pair to each office.**
- **C. Configure voice routing policies for each office.**

- D. Configure a single voice routing policy for all users.

**Answer: A,C**

#### NEW QUESTION # 231

You have a Microsoft Teams Phone deployment.

You have a PBX that connects to the PSTN by using an E1/T1 Primary Rate interface (PRI).

You plan to migrate to Direct Routing by using the existing PSTN services.

What should you install upstream of the PBX?

- A. an FXO SIP Analog Telephony Adapter (ATA)
- **B. a physical Session Border Controller (SBC)**
- C. a virtual Session Border Controller (SBC)
- D. a Session Border Controller (SBC) in Azure

**Answer: B**

Explanation:

Local PBX might have the ISDN connectivity hosted, in this case no need to be a physical SBC, so a virtual SBC = Azure SBC can be SIP trunked in between Teams Tenant and PBX.

#### NEW QUESTION # 232

You have a Microsoft Teams Phone deployment.

You are deploying a new remote site.

You have a Session Border Controller (SBC) that has an E1/T1 Primary Rate Interface (PRI) deployed to the remote site.

You plan to deploy a Survivable Branch Appliance (SBA) to ensure PSTN connectivity.

Which type of endpoints is supported by the SBA?

- **A. Microsoft Teams Windows desktops**
- B. audio conferencing in Microsoft Teams
- C. call queues in Microsoft Teams
- D. Microsoft Teams panels

**Answer: A**

#### NEW QUESTION # 233
