If you think our HPE6-A90 exam questions are useful for you, you can buy it online.

HPE Networking Central Exam Sample Questions (Q99-Q104):

NEW QUESTION # 99

You need to interact with a remote device through a command-line interface. Which HPE Aruba Networking Central feature allows that?

- A. OOBM connection from the Troubleshoot page
- **B. Remote Console service from the Troubleshoot page**
- C. Template groups with multi-edit

Answer: B

Explanation:

The Remote Console service in the Troubleshoot page provides direct CLI access to managed devices, allowing administrators to execute commands and perform real-time diagnostics from HPE Aruba Networking Central.

NEW QUESTION # 100

What is true about the Developer Hub portal?

- **A. Developer Hub provides sample codes for APIs; no API calls are made from it.**
- B. API calls are for demonstration only.
- C. API calls are actively changing the device's configuration.

Answer: A

Explanation:

The Developer Hub portal is designed to provide documentation, API references, and sample code examples to help developers understand how to interact with the platform. It does not execute API calls against live infrastructure, so it is used for learning and development purposes rather than performing actual configuration changes.

NEW QUESTION # 101

What is the purpose of Client Insights in HPE Aruba Networking Central?

- A. Configure switch VLANs automatically
- **B. Monitor and analyze connected client behavior and performance**
- C. Upgrade device firmware

Answer: B

Explanation:

Client Insights provides visibility into client devices, including connection history, usage patterns, and performance metrics, enabling administrators to optimize user experiences.

NEW QUESTION # 102

Which feature allows administrators to upgrade firmware across multiple devices simultaneously?

- A. Faceplate View
- B. Client Timeline
- C. Bulk Firmware Upgrade

Answer: C

Explanation:

Bulk Firmware Upgrade streamlines software maintenance by enabling administrators to schedule and execute firmware updates across multiple devices at once.

NEW QUESTION # 103

A guest SSID requires captive portal access. Which setting enables this in HPE Aruba Networking Central?

- A. Configure captive portal under the WLAN profile
- B. Apply Guest role to all users with ClearPass
- C. Set security level to Guest under WLAN profile

Answer: A

Explanation:

Captive portal access for a guest SSID is enabled by configuring the captive portal settings within the WLAN profile in HPE Aruba Networking Central. This defines how users are redirected for authentication and how access is granted after successful login.

NEW QUESTION # 104

.....

In fact, many candidates have the willing and ambition to pass the HPE6-A90 exam and achieve the certification for they want to challenge themselves to become better. The efficiency of going it alone is very low, and it is easy to go to a dead end. You really need a helper. Take a look at the development of HPE6-A90 Guide quiz and you will certainly be attracted to it. The advantages of HPE6-A90 study materials are numerous and they are all you need!
