Thus we offer discounts from time to time, and you can get 50% discount at the second time you buy our AD0-E724 question dumps after a year. Lower price with higher quality, that's the reason why you should choose our AD0-E724 prep guide.

Adobe Commerce Developer Professional Sample Questions (Q126-Q131):

NEW QUESTION # 126
On an Adobe Commerce Cloud platform, at what level is the variable env: composer_auth located in the Project Web Interface?

- A. In the Environment-specific variables.
- B. In the Project variables.
- C. In the Integration variables.

Answer: B

Explanation:
The variable env: composer_auth is located in the Project variables section in the Project Web Interface. This variable is used to store the authentication credentials for Composer repositories that require access keys or tokens. The developer can set this variable at the project level to apply it to all environments, or override it at the environment level if needed. Verified References: [Magento 2.4 DevDocs] 2

NEW QUESTION # 127
Which command can be used to display a full list of enabled and disabled Magento modules?

- A. bin/magento module:show
- B. bin/magento module:all
- C. bin/magento modulestatus

Answer: C

Explanation:
The command to display a full list of enabled and disabled Magento modules isbin/magento module:status.
This command provides a comprehensive overview of all modules within the Magento instance, categorizing them into enabled and disabled modules. This information is crucial for debugging and development purposes, as it allows developers to quickly understand which components of Magento are active and which are not, facilitating troubleshooting and configuration adjustments.

NEW QUESTION # 128
Which file on an Adobe Commerce Cloud project allows a developer to upgrade the PHP version and enable /disable a PHP extension?

- A. magento.app.yaal
- B. .magento. env. yaml
- C. php.ini

Answer: B

Explanation:
The.magento.env.yamlfile is used on an Adobe Commerce Cloud project to customize the environment configuration, including the PHP version and enabling/disabling PHP extensions. This YAML configuration file provides the ability to manage service configurations and is essential for customizing the Cloud environment.

NEW QUESTION # 129
A developer would like to initialize a theme in Adobe Commerce. Which two files are required to complete this task? (Choose two.)

- A. registration.php
- B. theme.less

- C. composerjson
- D. themexml

Answer: A,C

Explanation:
To initialize a theme in Adobe Commerce, at least two files are required:registration.phpandtheme.xml. The registration.phpfile is used to register the theme within the system, andtheme.xmldefines the theme's name, parent (if any), and other metadata. Thetheme.lessfile is not required for theme initialization but may be used for custom styling. The correct option fortheme.xmlis represented as "theme.xml" (D), not "themexml" as mentioned in the options.

NEW QUESTION # 130
A developer is investigating a problem with the shopping cart. Some of the cart records in the database are being checked. Which table should the developer check?

- A. sales.cart
- B. sates.quote
- C. quote

Answer: C

Explanation:
* A quote is a temporary object that represents the customer's shopping cart before it is converted into an order1. A quote can be created by a guest or a registered customer, and it can be active or inactive depending on whether the customer has completed the checkout process or not2.
* The quote table stores the basic information about the quote, such as the customer ID, email, currency, subtotal, grand total, shipping method, payment method, and so on2. Each row in the quote table corresponds to one quote object, identified by a unique entity ID2.
* The quote item table stores the details of each product added to the quote, such as the product ID, SKU, name, price, quantity, discount amount, tax amount, and so on2. Each row in the quote item table corresponds to one quote item object, identified by a unique item ID2. A quote item object is associated with a quote object by the quote ID column in the quote item table2.
* When a customer adds a product to the cart, Magento creates or updates a quote object and a quote item object for that product. The quote object is initialized by the Magento\Quote\Model\Quote class, which implements the Magento\Quote\Api\Data\CartInterface interface3. The quote item object is initialized by the Magento\Quote\Model\Quote\Item class, which implements the Magento\Quote\Api\Data\CartItemInterface interface3.
* Magento uses various classes and interfaces to manipulate the quote and quote item objects, such as the Magento\Quote\Model\QuoteRepository class, which implements the Magento\Quote\Api\CartRepositoryInterface interface for saving and retrieving quotes from the database3, and the Magento\Quote\Model\QuoteManagement class, which implements the Magento\Quote\Api\CartManagementInterface interface for creating and submitting quotes to orders3.
* Magento also uses various events and observers to perform additional actions on the quote and quote item objects, such as applying discounts, calculating taxes, validating stock availability, and so on.
Some of these events are: sales_quote_add_item, sales_quote_collect_totals_before, sales_quote_collect_totals_after, sales_quote_save_before, sales_quote_save_after, sales_model_service_quote_submit_before, sales_model_service_quote_submit_after.
* Magento provides various APIs for interacting with the quote and quote item objects, such as the Magento\Quote\Api\CartManagementInterface API for creating empty carts and placing orders from carts, the Magento\Quote\Api\CartItemRepositoryInterface API for adding, updating, and removing items from carts, and the Magento\Quote\Api\CouponManagementInterface API for managing coupons for carts.

NEW QUESTION # 131
......

Our Adobe AD0-E724 study guide in order to allow the user to form a complete system of knowledge structure, the qualification examination of test interpretation and supporting course practice organic reasonable arrangement together, the AD0-E724 simulating materials let the user after learning the section, and each section between cohesion and is closely linked, for users who use the Commerce Developer Professional AD0-E724 training quiz to build a knowledge of logical framework to create a good condition.

Most AD0-E724 Reliable Questions: https://www.itcertmagic.com/Adobe/real-AD0-E724-exam-prep-dumps.html

With AD0-E724 soft training test, you just need to spend only 20-30 h on practice, You only need to spend a little money on buying the Most AD0-E724 Reliable Questions - Commerce Developer Professional study guide, Adobe AD0-E724 Exam Questions Fee And we have become the most popular exam braindumps provider in this career and supported by numerous of our loyal customers, The high quality and accurate questions & answers of AD0-E724 exam torrent are the guarantee of your success.

future generations are not interested in Related AD0-E724 Exams atypical things, so he Is devoted to devoting his work to these descendants, so in this human account, the most impartial and AD0-E724 selfish culture of knowledge in the world blossomed the last beautiful flower.
