問題 #20

You have enabled and created a branded email layout for your customer. When can this custom email layout be used? Note: There are 2 correct answers to this question.

- A. When sending an email from the Applicant Workbench
- **B. When sending an email associated with an applicant status**
- C. When sending an email from the Candidate Search page
- **D. When sending an email associated with a Recruiting email trigger**

答案： **B,D**

解題說明：

Comprehensive and Detailed In-Depth Explanation:

In SAP SuccessFactors Recruiting: Candidate Experience, a branded email layout enhances candidate communication with consistent company branding. The custom layout applies to specific email scenarios:

* Option B (When sending an email associated with an applicant status): Correct. Emails tied to applicant status changes (e.g., "Application Received," "Interview Scheduled") can use the branded layout when configured in E-Mail Notification Templates Settings. This is a common use case for candidate-facing communications in Recruiting Management.

* Option D (When sending an email associated with a Recruiting email trigger): Correct. Recruiting email triggers (e.g., "Data Capture Form Submitted - Welcome and Set Password Email") are configured to notify candidates based on specific actions. These emails, set up in Recruiting Email Triggers, can leverage the branded layout for consistency.

* Option A (When sending an email from the Applicant Workbench): Incorrect. The Applicant Workbench is an internal tool for recruiters to manage candidates, and emails sent from here typically use ad-hoc or manual templates, not the branded layout designed for automated candidate communication.
