ASIS Physical Security Professional Exam Sample Questions (Q238-Q243):

NEW QUESTION # 238

The long-term (more than 60 days) process of restoration activities after an emergency or disaster that returns the organization to its pre-event condition is called:

- A. Business recovery
- B. Business continuity
- C. Business healing
- **D. Business resumption**

Answer: D

NEW QUESTION # 239

Administrative workload is substantially decreased when which service is employed?

- A. Proprietary
- **B. Contract**
- C. Union
- D. Security

Answer: B

NEW QUESTION # 240

_____ defines the problem, set the requirements, discuss solutions and set out punishment for infractions.

- A. Physical security
- B. Forensic investigations
- C. Spam filtering
- **D. Network Security Policy**

Answer: D

Explanation:

A network security policy defines the scope of security measures within an organization's network. It sets the rules for behavior, outlines acceptable use, identifies protected resources, defines responses to security breaches, and lays out disciplinary measures for violations.

Physical security (A) focuses on tangible access control.

Forensic investigations (C) deal with post-incident evidence gathering.

Spam filtering (D) is a specific technical control, not a policy framework.

NEW QUESTION # 241

A security supervisor should do which of the following to reinforce training and understanding of the post orders with security officers?

- A. Check the training records
- B. Let the officer read the order and then write a report on it
- **C. Ask one or more specific questions about the order**
- D. Review the log book entries

Answer: C

Explanation:

Asking targeted questions about post orders helps supervisors verify that security officers understand their duties. It encourages engagement, promotes accountability, and reinforces learning through direct interaction.

A (Checking training records) shows completion but not understanding.

B (Logbook review) focuses on past actions, not comprehension.

D (Written report) may test literacy more than actual understanding.

NEW QUESTION # 242

A company has selected a project manager to upgrade security at its manufacturing plants. A risk assessment for each plant has been completed. Which of the following is the first action of the project manager?

- A. Develop a concept design to solicit support from senior management
- B. Develop a phased implementation plan
- C. Solicit a request for information
- D. Have construction documents prepared and sent to prospective contractors for bids

Answer: A

Explanation:

After a risk assessment is completed, the first step for a project manager is to create a concept design. This outlines the proposed system and supports budget justification and strategic alignment with management's objectives. Gaining senior management buy-in is essential before progressing to detailed design or procurement.

A (RFI) may follow concept approval.

C (Construction documents) are created much later.

D (Implementation planning) is dependent on approved design and funding.
