NEW QUESTION # 65

Justin and Yvonne both open a Registered Education Savings Plan (RESP) for their daughter Grace. They plan to regularly contribute \$1,000 per year until Grace reaches the age of 17.

Which of the following statements relating to RESP is CORRECT?

- A. RESPs are attractive to Justin and Yvonne because they are tax-free investment plans.
- B. There is an annual contribution limit of \$2,500 that Justin and Yvonne can contribute to an RESP.
- C. Contributions made by Justin and Yvonne are eligible for a tax deduction in the year they are contributed.
- **D. Justin and Yvonne may contribute a combined lifetime maximum of \$50,000 for Grace.**

Answer: D

Explanation:

A Registered Education Savings Plan (RESP) is a tax-advantaged savings plan that helps parents and family members save for a child's post-secondary education. The government also contributes to the plan through the Canada Education Savings Grant (CESG) and the Canada Learning Bond (CLB), depending on the family income and the amount of contributions. However, there are some rules and limits that apply to RESP contributions and government grants. One of them is the lifetime contribution limit, which is the maximum amount that can be contributed to an RESP for a beneficiary from all sources. The lifetime contribution limit is \$50,000 per beneficiary, regardless of how many RESPs are opened for them or who contributes to them.

Therefore, statement A is correct. Justin and Yvonne may contribute a combined lifetime maximum of \$50,000 for Grace to their RESP.

The other statements are incorrect for the following reasons:

* Statement B: RESPs are not tax-free investment plans. They are tax-deferred plans, meaning that the contributions are made with after-tax dollars and the investment income earned in the plan is not taxed until it is withdrawn as an educational assistance payment (EAP) for the beneficiary. The EAPs are taxed in the hands of the beneficiary, who usually has little or no income and pays little or no tax.

* Statement C: There is no annual contribution limit for RESP contributions. However, there is an annual limit for the CESG, which is 20% of the first \$2,500 contributed per beneficiary per year, up to a maximum of \$500 per year. The CESG also has a lifetime limit of \$7,200 per beneficiary.

* Statement D: Contributions made to an RESP are not eligible for a tax deduction in the year they are contributed. They are made with after-tax dollars and do not reduce the contributor's taxable income.

NEW QUESTION # 66

Robin is preparing for a client meeting. She is gathering information about a mutual fund that she would like to recommend to her

client. Which of the following documents would be considered sales communication?

- A. fund facts
- B. annual information form
- **C. marketing brochure**
- D. the prospectus

Answer: C

Explanation:

Sales communication is any written or electronic communication that is intended to promote the sale of a mutual fund, or to influence a person to buy or sell a mutual fund. Sales communication includes any advertisement, brochure, report, newsletter, or other material that is distributed to existing or potential clients.

A marketing brochure is an example of sales communication, as it is designed to inform and persuade clients about the features and benefits of a mutual fund. A prospectus, a fund facts, and an annual information form are not considered sales communication, as they are legal documents that provide essential information about a mutual fund, such as its investment objectives, strategies, risks, fees, and performance. These documents are required by securities regulators and must be delivered to investors before or after they purchase a mutual fund.
