And we have successfully helped numerous of the candidates pass their exams.

IASP Strategy Planning Professional Exam Sample Questions (Q105-Q110):

NEW QUESTION # 105

Which of the following is a common impediment or barrier to effective strategic planning?

- **A. A lack of senior management support**
- B. Fully engaged strategic planning staff
- C. Thorough involvement of middle management
- D. Balanced focus on external and internal pressures or trends

Answer: A

Explanation:

A lack of senior management support is one of the most significant barriers to successful strategic planning.

Without leadership commitment, strategy efforts lack resources, authority, and credibility. The IASP SPP curriculum emphasizes that senior leaders must champion strategy to enable alignment, execution, and cultural adoption. Engaged staff and management focus are enablers, not impediments. #IASP SPP Study Guide - Barriers to Planning##Kotter, Leading Change#

NEW QUESTION # 106

Which of the following is the BEST method for facilitation among geographically dispersed team members?

- **A. Using a combination of email, telephone, and online meetings**
- B. Having team members meet each other previously
- C. Making a phone call
- D. Using a slide show presentation

Answer: A

Explanation:

Effective facilitation of geographically dispersed teams requires a combination of communication channels—email, telephone, and online meetings—to support rich, frequent interaction. This multimodal approach overcomes distance barriers, accommodates different preferences, and sustains engagement. The IASP SPP curriculum recognizes technology-enabled facilitation as critical for virtual collaboration, ensuring team cohesion and productivity. Single-channel approaches or relying on prior meetings lack the continuous, multifaceted communication needed for effective virtual teamwork. #IASP SPP Study Guide - Virtual Team Management##Powell et al., Virtual Teams: A Review of Current Literature#

NEW QUESTION # 107

When considering who should lead a planning team, it is appropriate to make sure that the person

- **A. is true to the organization's values and can inspire others to live them.**
- B. subscribes to the same values as the other team members.
- C. has values that can take the organization to the next level.
- D. is comfortable with the organization's values.

Answer: A

Explanation:

The best planning team leader is someone who embodies the organization's values authentically and inspires others to do the same. The IASP SPP curriculum emphasizes leadership by example as crucial for motivation, trust, and alignment throughout the planning process. Comfort or agreement with values is insufficient without active demonstration and inspiration. #IASP SPP Study Guide - Leadership##Goleman, Emotional Intelligence#

NEW QUESTION # 108

Which of the following will BEST assist employees in implementing strategic plan projects and initiatives?

- A. Survey development
- B. Market forecasts
- C. Budget preparation
- **D. Project management skills**

Answer: D

Explanation:

Project management skills are essential for employees to effectively plan, organize, execute, and monitor strategic projects. These skills enable managing scope, resources, timelines, and risks, directly contributing to successful implementation. The IASP SPP curriculum identifies project management as a foundational competency in strategy execution, equipping employees to navigate complexities and meet objectives. While surveys and forecasts inform decisions, project management provides the practical tools for day-to-day implementation. Budgeting supports resource allocation but is not a skill per se. #IASP SPP Study Guide - Project Management###PMI, PMBOK Guide#

NEW QUESTION # 109

How are key stakeholders identified?

- A. Consider the list of the board of directors
- B. Identify the major corporate shareholders
- **C. Consider those who are most affected by and able to affect the outcomes**
- D. Identify organization's highest lifetime value customers

Answer: C

Explanation:

Key stakeholders are identified by considering those individuals or groups who are most affected by and have the ability to influence the outcomes of a project or strategic initiative. This broad perspective ensures inclusion of all critical parties, internal or external, that can impact success or failure. The IASP SPP curriculum emphasizes the importance of comprehensive stakeholder analysis for effective engagement, risk mitigation, and support. Limiting focus to boards, customers, or shareholders alone misses other important influencers such as employees, partners, or regulators. #IASP SPP Study Guide - Stakeholder Analysis#
#Freeman, Strategic Management#

NEW QUESTION # 110

.....

IASP certification SPP exam is a test of IT professional knowledge. ActualtestPDF is a website which can help you quickly pass IASP certification SPP exams.
