Valid Hitachi HQT-4160 Test Simulator, HQT-4160 Valid Dumps Questions

In this information-dominated society, boosting plenty stocks of knowledge and being competent in some certain area can establish yourself in society and help you get a high social status. Passing HQT-4160 certification can help you realize these goals and find a good job with high income. If you buy our HQT-4160 Practice Test you can pass the HQT-4160 exam successfully and easily. And if you study with our HQT-4160 exam questions for only 20 to 30 hours, you will pass the HQT-4160 exam easily.

Hitachi Vantara Qualified Professional - VSP 5000 Series Installation Sample Questions (Q34-Q39):

NEW QUESTION # 34

What are the key benefits of correctly performing a "New Installation" procedure for VSP 5000 storage systems? (Choose Three)

- A. Enhanced system security
- B. Optimal system performance
- C. Extended hardware lifespan
- D. Reduced risk of installation-related issues
- E. Increased storage capacity

Answer: A,B,D

Explanation:

Performing a proper new installation procedure for the Hitachi VSP 5000 ensures that the system is set up correctly and ready for reliable operation. Key benefits include:

Optimal system performance (B)

Correct configuration of storage controllers, network connections, and RAID groups ensures efficient I/O handling and system

throughput.

Enhanced system security (C)

Properly configuring access controls, user permissions, and network settings helps protect data and prevent unauthorized access.

Reduced risk of installation-related issues (D)

Following the recommended steps minimizes errors such as connectivity problems, misconfigured storage, or hardware misalignment, which could lead to downtime.

NEW QUESTION # 35

When a hot spare drive is activated in a VSP 5000 system, it's important to:

- A. Power down the system to avoid data loss
- B. Reconfigure the RAID settings
- C. Perform a full backup of the system
- **D. Immediately order a replacement for the hot spare**

Answer: D

Explanation:

In the Hitachi VSP 5000 storage system, a hot spare is a drive reserved to automatically replace a failing drive in a RAID group.

When it is activated:

The hot spare takes over the failed drive, and RAID rebuild begins.

At this point, the system no longer has a spare available for future failures.

Therefore, it is critical to order and install a new hot spare as soon as possible to maintain full redundancy and data protection.

NEW QUESTION # 36

You are installing a new VSP 5500 storage system. Which tool is used to install the initial license keys?

- A. Maintenance Utility
- B. SVP application
- C. Webconsole
- **D. Storage Navigator**

Answer: D

Explanation:

Storage Navigator is the tool used to install the initial license keys on a new VSP 5500 storage system. It provides the necessary interface for license management and activation.

NEW QUESTION # 37

How does the management software improve the operation of VSP 5000 systems?

- **A. By automating routine tasks**
- B. By increasing the energy consumption
- C. By reducing physical maintenance needs
- D. By simplifying user access controls

Answer: A

Explanation:

The Hitachi VSP 5000 management software provides a centralized interface to monitor, configure, and manage the storage system.

One of its key benefits is automation of routine operational tasks, such as:

Creating and provisioning storage volumes

Assigning storage to hosts

Monitoring system health and generating alerts

Performing replication or backup scheduling

Rebuilding or rebalancing RAID groups automatically

Automation reduces manual intervention, minimizes errors, and improves operational efficiency.

NEW QUESTION # 38

Which two statements are true about the spare drive in a VSP 5000 system? (Choose two.)

- A. The customer can decide which slot is to be used for the spare drive.
- B. Only slot 11 and slot 23 of DBS2 can be used as spare.
- C. The VSP 5000 system will allocate a spare slot automatically if "Spare slot allocation" is set to "Variable" at installation time.
- D. If one of the slot 11 of the SBX is used as spare, the 3 remaining slots 11 could only be used as spare.

Answer: A,C

Explanation:

The customer can decide which slot is to be used for the spare drive.

With "Fixed" spare slot allocation, the customer has the flexibility to select which drive slot will serve as the spare during system configuration.

The VSP 5000 system will allocate a spare slot automatically if "Spare slot allocation" is set to "Variable" at installation time.

If the "Variable" option is chosen for spare slot allocation, the system automatically selects and assigns spare drive locations.

NEW QUESTION # 39

.....

Our company has been putting emphasis on the development and improvement of HQT-4160 test prep over ten year without archaic content at all. So we are bravely breaking the stereotype of similar content materials of the exam, but add what the exam truly tests into our HQT-4160 Exam Guide. So we have adamant attitude to offer help rather than perfunctory attitude. We esteem your variant choices so all these versions of HQT-4160 study materials are made for your individual preference and inclination.
