

2V0-16.25 Practice Materials: VMware vSphere Foundation 9.0 Administrator & 2V0-16.25 Test King & 2V0-16.25 Test Questions

BONUS!!! Download part of CertkingdomPDF 2V0-16.25 dumps for free: <https://drive.google.com/open?id=1p8zaRS9GtzLOut1Yt2XLmMSnT9ngMdIv>

One of our outstanding advantages is our high passing rate, which has reached 99%, and much higher than the average pass rate among our peers. Our high passing rate explains why we are the top 2V0-16.25 prep guide in our industry. One point does farm work one point harvest, depending on strength speech! The source of our confidence is our wonderful 2V0-16.25 exam questions. Passing the exam won't be a problem as long as you keep practice with our 2V0-16.25 Study Materials about 20 to 30 hours. Considered many of the candidates are too busy to review, our experts designed the 2V0-16.25 question dumps in accord with actual examination questions, which would help you pass the exam with high proficiency.

Before clients buy our 2V0-16.25 questions torrent they can download them and try out them freely. The pages of our product provide the demo and the aim is to let the client know part of our titles before their purchase and what form our 2V0-16.25 guide torrent is. You can visit our website and read the pages of our product. The pages introduce the quantity of our questions and answers of our 2V0-16.25 Guide Torrent, the time of update, the versions for you to choose and the price of our product. After you try out the free demo you could decide whether our 2V0-16.25 exam torrent is worthy to buy or not. So you needn't worry that you will waste your money or our 2V0-16.25 exam torrent is useless and boosts no values.

Valid Valid 2V0-16.25 Test Pattern - Accurate 2V0-16.25 Exam Tool Guarantee Purchasing Safety

More qualified certification for our future employment has the effect to be reckoned with, only to have enough qualification 2V0-16.25 certifications to prove their ability, can we get over rivals in the social competition. Many candidates be defeated by the difficulty of the 2V0-16.25 exam, but if you can know about our 2V0-16.25 Exam Materials, you will overcome the difficulty easily. If you want to buy our 2V0-16.25 exam questions please look at the features and the functions of our product on the web or try the free demo of our 2V0-16.25 exam questions.

VMware 2V0-16.25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Plan and Design the VMware by Broadcom Solution: This section of the exam measures the ability of VMware Solution Architects to plan and design solutions. While there are no specific testable objectives included, the focus is on preparing professionals to design VMware-based solutions that align with organizational goals and best practices.

Topic 2	<ul style="list-style-type: none"> IT Architectures, Technologies, Standards: This section of the exam measures the understanding of IT Infrastructure Architects and covers foundational concepts of architectures, emerging technologies, and industry standards. Although no testable objectives are listed here, it establishes the baseline knowledge needed to interpret and design VMware-related environments effectively.
Topic 3	<ul style="list-style-type: none"> Deploy, Configure, and Operate VMware vSphere Foundation (VVF): This section of the exam measures the expertise of Data Center Administrators and emphasizes hands-on skills in deploying and configuring VMware vSphere Foundation environments. Candidates must understand the components of a VVF deployment, configure Supervisors within clusters, and manage identity, access control, licensing, and certificate management. The objectives also extend to lifecycle management within the vSphere Foundation. Furthermore, it explores operational tasks including monitoring and analyzing logs, configuring alerting, managing dashboards, and integrating with VMware Cloud Foundation (VCF) Operations. Candidates will also be tested on cost and pricing configuration, compliance monitoring, and security hardening practices. Finally, automation skills are validated through deploying services with Supervisors, running Kubernetes workloads, using VM services, and integrating VCF Operations Orchestrator to support enterprise automation.
Topic 4	<ul style="list-style-type: none"> VMware vSphere Foundation Fundamentals: This section of the exam measures the skills of Virtualization Engineers and focuses on the essentials of virtualization technology. It introduces the principles of virtualization, explores use cases, and highlights the value it brings to businesses. Candidates are expected to demonstrate knowledge of VMware compute components such as vCenter and ESX, cluster configuration, and lifecycle management of virtual machines. It also covers secure workload operations, encryption, and managing resources with content libraries. In addition, storage fundamentals are examined through configuring vSphere storage, deploying VMware vSAN clusters, defining storage policies, and ensuring data availability. Networking fundamentals are also introduced, requiring the ability to differentiate between VMware vSphere networking components.
Topic 5	<ul style="list-style-type: none"> Troubleshoot and Optimize the VMware Solution: This section of the exam measures the ability of Systems Engineers to troubleshoot and optimize VMware-based environments. While no explicit testable objectives are listed, candidates are expected to apply their problem-solving skills to diagnose, resolve, and enhance VMware solutions for improved reliability and performance.

VMware vSphere Foundation 9.0 Administrator Sample Questions (Q59-Q64):

NEW QUESTION # 59

What is the benefit of enabling lockdown mode on VMware ESX hosts?

- A. Improves network performance.
- B. Increases CPU and memory resources available to virtual machines (VMs).
- C. Restricts direct access to the ESX host, enhancing security.**
- D. Simplifies the management of virtual machines.

Answer: C

Explanation:

Lockdown Mode on ESXi hosts is a security feature that restricts direct logins to the ESXi host.

* Once enabled, administrators must manage the host through vCenter Server instead of direct DCUI/SSH access (except for exception users).

* This prevents unauthorized local access and improves overall security compliance.

Other options:

- * A. Improves network performance# Not related.
- * C. Increases CPU/memory for VMs# Not related.
- * D. Simplifies VM management# It actually makes direct management more restricted.

VMware Docs: Lockdown Mode in ESXi

NEW QUESTION # 60

Which VMware Cloud Foundation (VCF) Operations capability enables monitoring and optimization of a VMware vSphere Foundation (VVF) environment?

- A. Capacity Analytics
- B. Infrastructure Visibility
- C. Log Insight Integration
- D. Intelligent Alerts

Answer: A

Explanation:

The capability in VMware Cloud Foundation (VCF) Operations that directly enables monitoring and optimization of a VMware vSphere Foundation (VVF) environment is Capacity Analytics.

- * Capacity Analytics provides real-time and predictive insights into resource utilization, capacity forecasting, and optimization.
- * It analyzes historical and real-time utilization data to predict future workload demands, enabling administrators to proactively plan expansions or right-size workloads.
- * This includes what-if scenario modeling, workload optimization, and resource reclamation to ensure workloads are efficiently placed, avoiding bottlenecks and waste.

Why not the other options?

- * A. Intelligent Alerts# Provides proactive alerts and recommendations but is more focused on issue detection and notification, not optimization.
- * C. Log Insight Integration# Enables log analysis and troubleshooting, not capacity optimization.
- * D. Infrastructure Visibility# Provides monitoring and observability but does not perform predictive optimization.

NEW QUESTION # 61

An administrator is informed that a digital certificate used by vSphere has been revoked by the issuing Certificate Authority (CA) before the scheduled expiration date. The administrator checks the Certificate Revocation List (CRL) in VMware Cloud Foundation (VCF) Operations but the CRL tab is not activated.

What must the administrator do to view the CRL?

- A. Select the External Event Based Active Symptoms under Global Settings.
- B. Set the Threshold For Adapters Certificate Expiration Alert to 6 under Global Settings.
- C. Select the Activate Standard Certificate Validation under Global Settings.
- D. The CRL tab is not available when VCF Operations is licensed under vSphere Foundation.

Answer: C

Explanation:

In VCF Operations, the Certificate Revocation List (CRL) tab is visible only when Standard Certificate Validation is activated in Global Settings.

- * Once enabled, administrators can view the CRL tab and monitor revoked certificates.

Other options:

- * A. External Event Based Active Symptoms# Related to alerting, not CRL.
- * C. Threshold for Expiration Alert# Configures warnings, not CRL visibility.
- * D. Not available under vSphere Foundation license# Incorrect; CRL is available if validation is enabled.

NEW QUESTION # 62

An administrator is tasked to configure VMware Cloud Foundation (VCF) Operations alerts to notify only relevant stakeholders when alerts trigger.

Which configuration step will satisfy the requirement?

- A. Configure notification to write a file to an output folder.
- B. Configure notification to use generic contact information.
- C. Configure notification for only critical alerts.
- D. **Configure notification to specific alert recipients.**

Answer: D

Explanation:

In VCF Operations, alerts can be configured with notification settings. To ensure only relevant stakeholders receive alerts:

- * You assign specific recipients to notifications.
- * This avoids alert fatigue and ensures teams only see alerts they are responsible for.

Other options:

- * A. Write to file# Not for stakeholder notifications.
- * B. Only critical alerts# Reduces volume, but still not targeted to relevant recipients.
- * D. Generic contact info# Sends to broad groups, not selective.

NEW QUESTION # 63

An administrator is tasked to configure Service Discovery in VMware Cloud Foundation (VCF) Operations for Linux Guest Operating Systems. For security reasons a non-root user needs to be used and all required steps for the Guest OS have already been completed.

What are the two steps the administrator needs to take? (Choose two.)

- A. **Activate Use Sudo in the Service Discovery instance.**
- B. **Activate Service Discovery in the required VCF Operations vCenter instance.**
- C. Deactivate Use Sudo in the Service Discovery instance.
- D. Activate Use Sudo in the vCenter instance.
- E. Activate Service Discovery in the required VCF Operations NSX instance.

Answer: A,B

Explanation:

To configure Service Discovery for Linux Guest OS in VCF Operations using a non-root user:

- * Activate Service Discovery in the vCenter instance to start discovery operations. (B)
- * Enable Use Sudo in the Service Discovery instance so the non-root account can run necessary privileged commands. (E) Other options:

- * A. Activate Use Sudo in vCenter instance# Wrong, this is configured in Service Discovery.
- * C. Activate in NSX instance# Not applicable; Service Discovery integrates with vCenter.
- * D. Deactivate Use Sudo# Opposite of required security setting

NEW QUESTION # 64

.....

Many people prefer to buy our 2V0-16.25 study materials because they deeply believe that if only they buy them can definitely pass the test. The reason why they like our 2V0-16.25 study materials is that our 2V0-16.25 study materials' quality is very high and the service is wonderful. For years we always devote ourselves to perfecting our 2V0-16.25 Study Materials and shaping our products into the model products which other companies strive hard to emulate.
