## Salesforce Certified Experience Cloud Consultant Sample Questions (Q48-Q53):

### NEW QUESTION # 48

Ursa Majer Solar (UMS) would like authenticated Experience Site users to see cases, quotes, contracts, and Knowledge articles appear in search results, but the Search Results component is only returning Knowledge articles. How should UMS configure its search results to yield the desired results?

- A. In Salesforce Setup, under the Experience Site users' profile, adjust the system permissions to allow for multiple objects in search results.
- B. On the Home page, in the property editor for the Hero component, adjust the Hero Type to "Call to Action" instead of "Search".
- C. On the Search page, select the appropriate objects in the property editor for the Search Results component.
- **D. On the Search page, switch the Search Results component with Global Search Results and select the appropriate objects in the property editor.**

**Answer: D**

Explanation:

This option allows UMS to configure its search results to include cases, quotes, contracts, and Knowledge articles. The Global Search Results component is a new component that supports multiple objects and facets in the search results. UMS can add this component to the Search page and select the objects that they want to display in the property editor.

### NEW QUESTION # 49

By defining roles, permission sets, or profiles, Knowledge article visibility can be controlled by using which functionality?

- A. Org-Wide Defaults
- B. Content Management
- C. Automatic Topic Assignment
- **D. Data Category Visibility**

**Answer: D**

Explanation:

Data Category Visibility allows you to control which Knowledge articles are visible to which users based on data categories and user roles, permission sets, or profiles. You can assign data category visibility at different levels, such as the org-wide default, the role hierarchy, or the permission set.

### NEW QUESTION # 50

Universal Containers (UC) has a B2C customer department that uses person accounts to track and manage all B2C customers. UC has set up a B2C site using Salesforce Experience Cloud. The VP of B2C business wants to enable self-registration on the portal so customers can create their own user accounts.

What should the Experience Cloud consultant at UC recommend so that the new users self-registering on the B2C site are captured as person accounts in Salesforce?

- A. Use the standard self-registration configuration under Experience Workspace that assigns users to a default business account, and then build a trigger on Account to create person accounts for each user.
- **B. Create a custom self-registration page and Apex handler that creates a person account for each user self-registering on the portal.**
- C. Use the standard self-registration configuration under Experience Workspace and leave the default Account field empty.
- D. Restrict the Account record type access to Person Account record type only for the Site Guest User, so any account created is by default a person account.

**Answer: B**

Explanation:

To capture the new users self-registering on the B2C site as person accounts in Salesforce, UC should create a custom self-registration page and Apex handler that creates a person account for each user. A custom self-registration page allows UC to customize the look and feel, fields, and logic of the self-registration process.

An Apex handler is a class that implements the Auth.RegistrationHandler interface and defines the logic for creating a user and an account. UC can use an Apex handler to create a person account for each user based on the information they provide on the self-registration page.

### NEW QUESTION # 51

Zephyrus Relocation Services (ZRS) plans to build a portal for its partners. The portal needs to show company information and brand details on the Account Management page.

Which templates should ZRS consider to build the portal?

Choose 2 answers

- A. Help Center
- B. Build Your Own
- C. Customer service
- D. Partner Central

**Answer: B,D**

Explanation:

Partner Central and Build Your Own are two templates that ZRS can consider to build the portal for its partners. Partner Central is a template that is designed for managing partner relationships, such as recruiting, onboarding, training, and co-selling. Build Your Own is a template that allows you to create a custom site using Lightning Web Components and other web standards.

### NEW QUESTION # 52

Northern Trail Outfitters wants to add a background image to a record list of products in its digital experience.

How should an administrator accomplish this?

- A. Use an HTML component
- B. Create CMS items.
- C. Build a custom Lightning component.
- D. Use a Flexible page layout.

**Answer: C**

Explanation:

To add a background image to a record list of products in its digital experience, an administrator should build a custom Lightning component. A Lightning component is a reusable unit of user interface that you can create and customize using code. A custom Lightning component allows you to add your own functionality and design to your Experience Cloud site. To add a background image to a record list of products, an administrator should build a custom Lightning component that uses the SLDS Background Image utility class and the lightning-record-list base component.
