UPDATED ECCouncil 312-85 PDF QUESTIONS [2023]- QUICK TIPS TO PASS

Based on the credibility in this industry, our 312-85 study braindumps have occupied a relatively larger market share and stable sources of customers. Such a startling figure --99% pass rate is not common in this field, but we have made it with our endless efforts. As this new frontier of personalizing the online experience advances, our 312-85 exam guide is equipped with comprehensive after-sale online services. It's a convenient way to contact our staff, for we have customer service people 24 hours online to deal with your difficulties. If you have any question or request for further assistance about the 312-85 study braindumps, you can leave us a message on the web page or email us.

HOT Simulations 312-85 Pdf - High Pass-Rate ECCouncil Actual 312-85 Test: Certified Threat Intelligence Analyst

What's more, part of that Prep4sureExam 312-85 dumps now are free: https://drive.google.com/open?id=1gqjk6M2QI2pWCZom1nWTFxP1LNhk7yml

You must ensure that you can pass the exam quickly, so you must choose an authoritative product. Our 312-85 exam materials are certified by the authority and have been tested by our tens of thousands of our worthy customers. This is a product that you can definitely use with confidence. And with our 312-85 training guide, you can find that the exam is no long hard at all. It is just a piece of cake in front of you. What is more, you can get your 312-85 certification easily.

The ECCouncil 312-85 exam questions are designed and verified by experienced and qualified ECCouncil 312-85 exam trainers. They work together and share their expertise to maintain the top standard of ECCouncil 312-85 Exam Practice test. So you can get trust on ECCouncil 312-85 exam questions and start preparing today.

Free Download ECCouncil Instant 312-85 Download Are Leading Materials & Valid 312-85: Certified Threat Intelligence Analyst

It is acknowledged that there are numerous 312-85 learning questions for candidates for the exam, however, it is impossible for you to summarize all of the key points in so many materials by yourself. But since you have clicked into this website for 312-85 practice materials you need not to worry about that at all because our company is especially here for you to solve this problem. With our

312-85 Exam Questions, you will pass your exam just in one go for we are the most professional team in this career for over ten years.

ECCouncil Certified Threat Intelligence Analyst Sample Questions (Q73-Q78):

NEW QUESTION # 73
Jian is a member of the security team at Trinity, Inc. He was conducting a real-time assessment of system activities in order to acquire threat intelligence feeds. He acquired feeds from sources like honeynets, P2P monitoring. infrastructure, and application logs.
Which of the following categories of threat intelligence feed was acquired by Jian?

- A. Proactive surveillance feeds
- B. Internal intelligence feeds
- C. CSV data feeds
- D. External intelligence feeds

Answer: B

Explanation:
Internal intelligence feeds are derived from data and information collected within an organization's own networks and systems. Jian's activities, such as real-time assessment of system activities and acquiring feeds from honeynets, P2P monitoring, infrastructure, and application logs, fall under the collection of internal intelligence feeds. These feeds are crucial for identifying potential threats and vulnerabilities within the organization and form a fundamental part of a comprehensive threat intelligence program. They contrast with external intelligence feeds, which are sourced from outside the organization and include information on broader cyber threats, trends, and TTPs of threat actors.

NEW QUESTION # 74
A threat analyst wants to incorporate a requirement in the threat knowledge repository that provides an ability to modify or delete past or irrelevant threat data.
Which of the following requirement must he include in the threat knowledge repository to fulfil his needs?

- A. Searchable functionality
- B. Evaluating performance
- C. Data management
- D. Protection ranking

Answer: C

Explanation:
Incorporating a data management requirement in the threat knowledge repository is essential to provide the ability to modify or delete past or irrelevant threat data. Effective data management practices ensure that the repository remains accurate, relevant, and up-to-date by allowing for the adjustment and curation of stored information. This includes removing outdated intelligence, correcting inaccuracies, and updating information as new insights become available. A well-managed repository supports the ongoing relevance and utility of the threat intelligence, aiding in informed decision-making and threat mitigation strategies.References:

NEW QUESTION # 75
Michael, a threat analyst, works in an organization named TechTop, was asked to conduct a cyber-threat intelligence analysis. After obtaining information regarding threats, he has started analyzing the information and understanding the nature of the threats.
What stage of the cyber-threat intelligence is Michael currently in?

- A. Known knowns
- B. Known unknowns
- C. Unknown unknowns

- D. Unknowns unknown

Answer: B

Explanation:
The "known unknowns" stage in cyber-threat intelligence refers to the phase where an analyst has identified threats but the specific details, implications, or full nature of these threats are not yet fully understood.
Michael, in this scenario, has obtained information on threats and is in the process of analyzing this information to understand the nature of the threats better. This stage involves analyzing the known data to uncover additional insights and fill in the gaps in understanding, thereby transitioning the "unknowns" into
"knowns." This phase is critical in threat intelligence as it helps in developing actionable intelligence by deepening the understanding of the threats faced.

NEW QUESTION # 76
Bob, a threat analyst, works in an organization named TechTop. He was asked to collect intelligence to fulfil the needs and requirements of the Red Tam present within the organization.
Which of the following are the needs of a RedTeam?

- A. Intelligence that reveals risks related to various strategic business decisions
- B. Intelligence on latest vulnerabilities, threat actors, and their tactics, techniques, and procedures (TTPs)
- C. Intelligence related to increased attacks targeting a particular software or operating system vulnerability
- D. Intelligence extracted latest attacks analysis on similar organizations, which includes details about latest threats and TTPs

Answer: B

Explanation:
Red Teams are tasked with emulating potential adversaries to test and improve the security posture of an organization. They require intelligence on the latest vulnerabilities, threat actors, and their TTPs to simulate realistic attack scenarios and identify potential weaknesses in the organization's defenses. This information helps Red Teams in crafting their attack strategies to be as realistic and relevant as possible, thereby providing valuable insights into how actual attackers might exploit the organization's systems. This need contrasts with the requirements of other teams or roles within an organization, such as strategic decision-makers, who might be more interested in intelligence related to strategic risks or Blue Teams, which focus on defending against and responding to attacks.

NEW QUESTION # 77
A threat analyst wants to incorporate a requirement in the threat knowledge repository that provides an ability to modify or delete past or irrelevant threat data.
Which of the following requirement must he include in the threat knowledge repository to fulfil his needs?

- A. Searchable functionality
- B. Evaluating performance
- C. Data management
- D. Protection ranking

Answer: C

Explanation:
Incorporating a data management requirement in the threat knowledge repository is essential to provide the ability to modify or delete past or irrelevant threat data. Effective data management practices ensure that the repository remains accurate, relevant, and up-to-date by allowing for the adjustment and curation of stored information. This includes removing outdated intelligence, correcting inaccuracies, and updating information as new insights become available. A well-managed repository supports the ongoing relevance and utility of the threat intelligence, aiding in informed decision-making and threat mitigation strategies.
