New developments in the tech sector always bring new job opportunities. These new jobs have to be filled with the ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) certification holders. So to fill the space, you need to pass the ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) exam. Earning the ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) certification helps you clear the obstacles you face while working in the APMG-International field. To get prepared for the ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) certification exam, applicants face a lot of trouble if the study material is not updated.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q48-Q53):

NEW QUESTION # 48
Which of the following statements about the relationship between ISO/IEC 27001 and ISO/IEC 27002 is true?
* ISO/IEC 27002 provides implementation advice on the controls selected during the ISO/IEC 27001 information security risk management process
* ISO/IEC 27002 provides a process for information security risk management which implements the requirements of ISO/IEC 27001

- A. Neither 1 or 2 is true
- B. Only 2 is true
- C. Both 1 and 2 are true
- D. Only 1 is true

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27001 & 27002:2022 standards:
ISO/IEC 27001 Annex A lists reference controls. ISO/IEC 27002 providesdetailed guidance on the implementation of those controls, including purpose, guidance, and examples. Clause 6.1.3 of ISO/IEC
27001 makes the link explicit: controls from Annex A are referenced, but ISO/IEC 27002 explains how to implement them. However, ISO/IEC 27002 doesnotprovide a process for risk management-that is covered by ISO/IEC
27005. Risk management requirements are in ISO/IEC 27001 (Clauses 6.1.2 and 6.1.3).
Therefore, statement 1 is true, but statement 2 is false. Correct answer:A.

NEW QUESTION # 49
Which of the following is required to be considered when selecting appropriate information security risk treatment options?

- A. Only risk controls in Annex A of ISO/IEC 27001
- B. Criteria for performing risk assessments
- C. Criteria for accepting identified risks
- D. Only risk controls in ISO/IEC 27002

Answer: C

Explanation:
Clause 6.1.3 (c) requires organizations to:
"compare the controls determined in 6.1.3 b) with those in Annex A and verify that no necessary control has been omitted; and prepare a Statement of Applicability." It also requires organizations to select risk treatment options considering "the organization's risk acceptance criteria." This shows thatrisk acceptance criteriaare a fundamental factor when selecting risk treatment options.
Options C and D are incorrect because Annex A and ISO/IEC 27002 are reference sets, not the sole sources of controls - organizations can design their own. Criteria for performing risk assessments (B) are part of 6.1.2 (risk assessment process), not risk treatment.
Thus, the correct requirement isA: Criteria for accepting identified risks.

NEW QUESTION # 50
To whom does the scope of the Terms and conditions of employment control apply?

- A. All employees, contractors and third-party users
- B. Employees only
- C. Contractors only
- D. Personnel and the organization

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
Annex A.6.1 (Terms and conditions of employment) states:
"The contractual agreements with employees and contractors shall state their and the organization's responsibilities for information security." This means the control applies not just to employees, but also contractors and, where relevant, third-party users who are subject to contractual obligations with the organization. The goal is to ensure thatall parties engaged in work under the organization's control understand their security responsibilities before, during, and after employment or contract engagement.
Options A and B are too narrow, excluding key groups. Option C misrepresents the scope by implying a mutual responsibility but not identifying the individuals covered. The explicit scope includesemployees, contractors, and third-party users.
Therefore, the correct answer isD.

NEW QUESTION # 51
Which is a control title within Annex A of ISO/IEC 27001?

- A. Information security in supplier relationships
- B. Responsibilities and procedures
- C. Change control
- D. Protection of documents

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
In ISO/IEC 27002:2022, which provides control guidance for Annex A of ISO/IEC 27001, Clause 5.19 is titled:"Information security in supplier relationships." This control requires organizations to ensure that information security is addressed in supplier agreements and relationships. It is part of theOrganizational Controls theme. The other options are not control titles in Annex A:
* "Responsibilities and procedures" (B) was used in older standards like ISO/IEC 27001:2005 but no longer exists.
* "Protection of documents" (C) relates to document control but is not a specific Annex A control.
* "Change control" (D) is relevant to ITIL/ITSM but not listed as a control title in Annex A.
Therefore, the correct Annex A control title isA: Information security in supplier relationships.

NEW QUESTION # 52
Which of the following statements about the differences between an internal audit and a certification audit is true?
An internal audit is conducted at planned intervals and a certification audit is conducted annually An internal audit is known as a 1st party audit and a certification audit is known as a 3rd party audit

- A. Neither 1 or 2 is true
- B. Only 2 is true
- C. Both 1 and 2 are true
- D. Only 1 is true

Answer: B

Explanation:

ISO/IEC 27001 Clause 9.2 requires internal audits to be conducted at planned intervals, but it does not specify an annual frequency.
Certification audits, under ISO/IEC 17021 rules, typically occur on a 3-year cycle with annual surveillance, not strictly "annually."
This makes statement 1 inaccurate.
Audit types are defined in ISO/IEC 19011:

First-party audits: conducted internally by or on behalf of the organization (internal audits).

Third-party audits: conducted by independent external certification bodies.

Thus, statement 2 is correct. Therefore, the accurate choice is B: Only 2 is true.

NEW QUESTION # 53
