## CIPP-E EXAM 2023 WITH QUESTIONS AND ANSWERS

### CIPP/E

What is the CLOUD Act? - ANSWER Clarifying Lawful Overseas Use of Data

What are main points of CLOUD Act? - ANSWER 1. Applies to information anywhere in the world if data is in the "possession, custody or control" of the recipient of the warrant.

2. A recipient can seek to quash the subpoena if it can show that the affected individual is not a United States person and that the required disclosure of that individual's data would violate the laws of a "qualifying foreign government".

3. Third, requires courts considering a motion to quash to conduct a comity analysis.

What is a "qualifying foreign government" under the CLOUD Act? - ANSWER

Those who have signed an executive agreement with the United States to cooperate in cross-border data access. To qualify, a foreign government would need the approval of the State Department and the U.S. Department of Justice. They would also have to agree to adhere to significant substantive and procedural privacy and civil liberties protections.

What factors are considered in a comity analysis under the CLOUD Act? - ANSWER

1. Location of the target

2. Nationalities involved

3. Alternative avenues to the data

4. Interests of the United States

5. Interests of the foreign sovereign

What are the 6 European Institutions - ANSWER 1. Council of Europe

2. European Court of Human Rights

3. European Parliament

Heutzutage, wo IT-Branche schnell entwickelt ist, müssen wir die IT-Fachleuten mit anderen Augen sehen. Sie haben uns viele unglaubliche Bequemlichkeiten nach ihrer spitzen Technik geboten und dem Staat sowie Unternehmen eine Menge Menschenkräfte sowie Ressourcen erspart. Sie beziehen sicher ein hohes Gehalt. Wollen Sie gleich wie sie werden? Dann müssen Sie zuerst die IAPP CIPP-E Zertifizierungsprüfung bestehen.

Die IAPP CIPP-E Zertifizierungsprüfungen werden normalerweise von den IT-Spezialisten gemäß ihren Berufserfahrungen bearbeitet. So ist es auch bei It-Prüfung. Die IT-Experten bieten Ihnen IAPP CIPP-E Prüfungsfragen und Antworten (Certified Information Privacy Professional/Europe (CIPP/E)), mit deren Hilfe Sie die Prüfung erfolgreich bestehen können. Die Genauigkeit von unseren Prüfungsfragen und Antworten beträgt 100%. Mit It-Prüfung Produkten können Sie ganz leicht die IAPP CIPP-E Zertifikate bekommen, was Ihnen eine große Beförderung in der IT-Branche ist.

## Prüfungsfragen mit Lösungen (Q184-Q189):

### 184. Frage

What is a reason the European Court of Justice declared the Data Retention Directive invalid in 2014?

- A. The requirements specified that data must be held within the EU.
- **B. The requirements affected individuals without exception.**
- C. The requirements had limitations on how national authorities could use data.
- D. The requirements were financially burdensome to EU businesses.

**Antwort: B**

Begründung:

The Data Retention Directive was a EU law that required providers of electronic communications services to retain certain data, such as traffic and location data, for a period of between six months and two years, for the purpose of preventing, investigating, detecting and prosecuting serious crime<sup>1</sup>. However, in 2014, the Court of Justice of the European Union declared the Directive invalid, because it violated the fundamental rights to respect for private life and to the protection of personal data, as enshrined in the Charter of Fundamental Rights of the EU<sup>2</sup>. The Court found that the Directive entailed a wide-ranging and particularly serious interference with those rights, without being limited to what is strictly necessary<sup>3</sup>. One of the reasons for this finding was that the Directive applied to all individuals, all means of electronic communication and all traffic data without any differentiation, limitation or exception, thus affecting the entire population of the EU<sup>4</sup>. The Court also noted that the Directive did not provide sufficient safeguards to ensure effective protection of the data against the risk of abuse and unlawful access, and did not require the data to be retained within the EU<sup>5</sup>. Reference: 1 Directive 2006/24/EC of the European Parliament and of the Council of 15 March 2006 on the retention of data generated or processed in connection with the provision of publicly available electronic communications services or of public communications networks and amending Directive 2002/58/EC<sup>2</sup> Charter of Fundamental Rights of the European Union<sup>3</sup> Press release No 54/14 - Judgment in Joined Cases C-293/12 and C-594/12 Digital Rights Ireland and Seitlinger and Others<sup>4</sup> Judgment of the Court (Grand Chamber) of 8 April 2014. Digital Rights Ireland Ltd v Minister for Communications, Marine and Natural Resources and Others and Karntner Landesregierung and Others. Requests for a preliminary ruling from the High Court (Ireland) and the Verfassungsgerichtshof (Austria). Joined cases C-293/12 and C-594/12 Ibid.

### 185. Frage

Which of the following regulates the use of electronic communications services within the European Union?

- A. Regulation (EU) 2017/1953 of the European Parliament and of the Council of 25 October 2017.
- **B. Regulator (EU) 2015/2120 of the European Parliament and of the Council of 25 November 2015.**
- C. Directive (EU) 2019/789 of the European Parliament and of the Council of 17 April 2019.
- D. Directive 2002/58/EC of the European Parliament and of the Council of 12 July 2002.

**Antwort: B**

### 186. Frage

SCENARIO

Please use the following to answer the next question:

The fitness company Vigotron has recently developed a new app called M-Health, which it wants to market on its website as a free download. Vigotron's marketing manager asks his assistant Emily to create a webpage that describes the app and specifies the terms of use. Emily, who is new at Vigotron, is excited about this task. At her previous job she took a data protection class, and though the details are a little hazy, she recognizes that Vigotron is going to need to obtain user consent for use of the app in some cases. Emily sketches out the following draft, trying to cover as much as possible before sending it to Vigotron's legal department.

Registration Form

Vigotron's new M-Health app makes it easy for you to monitor a variety of health-related activities, including diet, exercise, and sleep patterns. M-Health relies on your smartphone settings (along with other third-party apps you may already have) to collect data about all of these important lifestyle elements, and provide the information necessary for you to enrich your quality of life. (Please click here to read a full description of the services that M-Health provides.) Vigotron values your privacy. The M-Health app allows you to decide which information is stored in it, and which apps can access your data. When your device is locked with a passcode, all of your health and fitness data is encrypted with your passcode. You can back up data stored in the Health app to Vigotron's cloud provider, Stratculous. (Read more about Stratculous here.) Vigotron will never trade, rent or sell personal information

gathered from the M-Health app. Furthermore, we will not provide a customer's name, email address or any other information gathered from the app to any third-party without a customer's consent, unless ordered by a court, directed by a subpoena, or to enforce the manufacturer's legal rights or protect its business or property.

We are happy to offer the M-Health app free of charge. If you want to download and use it, we ask that you first complete this registration form. (Please note that use of the M-Health app is restricted to adults aged 16 or older, unless parental consent has been given to minors intending to use it.) First name:

Surname:

Year of birth:

Email:

Physical Address (optional\*):

Health status:

\*If you are interested in receiving newsletters about our products and services that we think may be of interest to you, please include your physical address. If you decide later that you do not wish to receive these newsletters, you can unsubscribe by sending an email to [unsubscribe@vigotron.com](mailto:unsubscribe@vigotron.com) or send a letter with your request to the address listed at the bottom of this page.

Terms and Conditions

1. Jurisdiction. [...]

2. Applicable law. [...]

3. Limitation of liability. [...]

Consent

By completing this registration form, you attest that you are at least 16 years of age, and that you consent to the processing of your personal data by Vigotron for the purpose of using the M-Health app. Although you are entitled to opt out of any advertising or marketing, you agree that Vigotron may contact you or provide you with any required notices, agreements, or other information concerning the services by email or other electronic means. You also agree that the Company may send automated emails with alerts regarding any problems with the M-Health app that may affect your well being.

What is one potential problem Vigotron's age policy might encounter under the GDPR?

- A. Users are only required to be aged 13 or over to be considered adults.
- B. Organizations must make reasonable efforts to verify parental consent.
- C. Organizations that tie a service to marketing must seek consent for each purpose.
- **D. Age restrictions are more stringent when health data is involved.**

**Antwort: D**

### 187. Frage

#### SCENARIO

Please use the following to answer the next question:

Sandy recently joined Market4U, an advertising technology company founded in 2016, as their VP of Privacy and Data Governance. Through her first initiative in conducting a data inventory, Sandy learned that Market4U maintains a list of 19 million global contacts that were collected throughout the course of Market4U's existence. Knowing the risk of having such a large amount of data, Sandy wanted to purge all contacts that were entered into Market4U's systems prior to May 2018, unless such contacts had a more recent interaction with Market4U content. However, Dan, the VP of Sales, informed Sandy that all of the contacts provide useful information regarding successful marketing campaigns and trends in industry verticals for Market4U's clients. Dan also informed Sandy that he had wanted to focus on gaining more customers within the sports and entertainment industry. To assist with this behavior, Market4U's marketing team decided to add several new fields to Market4U's website forms, including forms for downloading white papers, creating accounts to participate in Market4U's forum, and attending events. Such fields include birth date and salary.

What is the best way that Sandy can gain the insights that Dan seeks while still minimizing risks for Market4U?

- A. Conduct analysis only on anonymized personal data.
- B. Delete all data collected prior to May 2018 after conducting the trend analysis.
- C. Procure a third party to conduct the analysis and delete the data from Market4U's systems.
- **D. Conduct analysis only on pseudonymized personal data.**

**Antwort: D**

Begründung:

According to the GDPR, pseudonymization is a technique that replaces or removes information in a data set that identifies an individual. Pseudonymized data can no longer be attributed to a specific data subject without the use of additional information, which is kept separately and subject to technical and organizational measures to ensure non-attribution<sup>1</sup>. Pseudonymization is not a method of anonymization, which means that the data is irreversibly altered in such a way that a data subject can no longer be identified<sup>2</sup>.

Pseudonymized data is still considered personal data and subject to the GDPR, but it benefits from some relaxations of the rules, such as the possibility of further processing for compatible purposes, the exemption from some data subject rights, and the facilitation of data transfers<sup>3</sup>.

In this scenario, Market4U is an advertising technology company that collects and processes a large amount of personal data from its contacts, including sensitive data such as birth date and salary. This data can be used to gain insights into the preferences and behavior of its potential customers, as well as to identify trends and opportunities in different industry verticals. However, this data also poses significant risks for Market4U, such as data breaches, non-compliance, reputational damage, and legal liability. Therefore, Market4U needs to apply the principle of data minimization, which means that it should only collect and process the data that is necessary and relevant for its purposes, and delete the data that is no longer needed<sup>4</sup>.

One of the ways that Market4U can achieve data minimization is by pseudonymizing the personal data that it uses for analysis. By doing so, Market4U can reduce the risks associated with the processing of personal data, while still retaining the utility and value of the data for its purposes. Pseudonymization can also help Market4U to comply with other GDPR principles, such as purpose limitation, storage limitation, and integrity and confidentiality<sup>5</sup>. Pseudonymization can also enable Market4U to rely on legitimate interests as a legal basis for the processing of personal data for analysis, as long as it conducts a balancing test and respects the rights and interests of the data subjects<sup>6</sup>.

Therefore, the best way that Sandy can gain the insights that Dan seeks while still minimizing risks for Market4U is to conduct analysis only on pseudonymized personal data. This option would allow Market4U to use the data for its legitimate business purposes, without compromising the privacy and security of the data subjects.

The other options are incorrect because:

\* A. Conducting analysis only on anonymized personal data would not be feasible or effective for Market4U, as anonymization is a very difficult and complex process that requires the removal or alteration of any information that can identify an individual, directly or indirectly. Anonymization may also result in the loss of accuracy, quality, and utility of the data, which would undermine the value and purpose of the analysis. Moreover, anonymization is irreversible, which means that Market4U would not be able to restore the original data if needed<sup>2</sup>.

\* C. Deleting all data collected prior to May 2018 after conducting the trend analysis would not be compliant with the GDPR, as it would violate the principle of storage limitation, which requires that personal data should be kept only for as long as necessary for the purposes for which it is processed.

Market4U cannot justify the retention of the data for longer than needed, especially if the data is outdated, irrelevant, or excessive. Moreover, deleting the data after the analysis would not eliminate the risks associated with the processing of the data, such as data breaches or unauthorized access<sup>4</sup>.

\* D. Procuring a third party to conduct the analysis and delete the data from Market4U's systems would not be a good solution for Market4U, as it would involve the transfer of personal data to another data controller or processor, which would require additional safeguards and obligations under the GDPR.

Market4U would still be responsible for ensuring the compliance and security of the data, and would have to enter into a data processing agreement with the third party, as well as inform and obtain the consent of the data subjects, if applicable. Furthermore, procuring a third party would entail additional costs and risks for Market4U, such as losing control and visibility over the data, or exposing the data to unauthorized or unlawful processing by the third party<sup>7</sup>.
