Cisco 300-410 Lead2pass Review - 300-410 Valid Study Plan

P.S. Free 2025 Cisco 300-410 dumps are available on Google Drive shared by PassSureExam: https://drive.google.com/open?id=1y2sDlOgdPDzW5yRpaBP_P29H6aEd_9bu

Considering many exam candidates are in a state of anguished mood to prepare for the 300-410 exam, our company made three versions of 300-410 real exam materials to offer help. All these variants due to our customer-oriented tenets. As a responsible company over ten years, we are trustworthy. In the competitive economy, this company cannot remain in the business for long. But we keep being the leading position in contrast. We are reactive to your concerns and also proactive to new trends happened in this 300-410 Exam.

We are so proud to tell you that according to the statistics from the feedback of all of our customers, the pass rate among our customers who prepared for the exam under the guidance of our Implementing Cisco Enterprise Advanced Routing and Services test torrent has reached as high as 98% to 100%, which definitely marks the highest pass rate in the field. Therefore, the 300-410 guide torrent compiled by our company is definitely will be the most sensible choice for you. We can assure you that you can pass the exam as well as getting the related certification in a breeze with the guidance of our Implementing Cisco Enterprise Advanced Routing and Services test torrent, now I would like to introduce some details about our 300-410 Guide Torrent for you.

Quiz 300-410 - Perfect Implementing Cisco Enterprise Advanced Routing and Services Lead2pass Review

In the Implementing Cisco Enterprise Advanced Routing and Services (300-410) Web-based Practice Test, you will get the 300-410 questions that are real and accurate. Furthermore, the 300-410 practice exam works smoothly on all operating systems including Mac, Linux, IOS, Android, and Windows. it is a browser-based Implementing Cisco Enterprise Advanced Routing and Services (300-410) practice test software, there is no need for any specific software installation or additional plugins to function correctly.

Cisco Implementing Cisco Enterprise Advanced Routing and Services Sample Questions (Q393-Q398):

NEW QUESTION # 393
Refer to the exhibit.

```
config t
flow record v4_r1
match ipv4 tos
match ipv4 protocol
match ipv4 source address
match ipv4 destination address
match transport source-port
match transport destination-port
collect counter bytes long
collect counter packets long
!
flow exporter EXPORTER-1
  destination 172.16.10.2
  transport udp 90
  exit
!
flow monitor FLOW-MONITOR-1
  record v4_r1
  exit
!
ip cef
!
interface Ethernet0/0.1
  ip address 172.16.6.2 255.255.255.0
  ip flow monitor FLOW-MONITOR-1 input
!
```
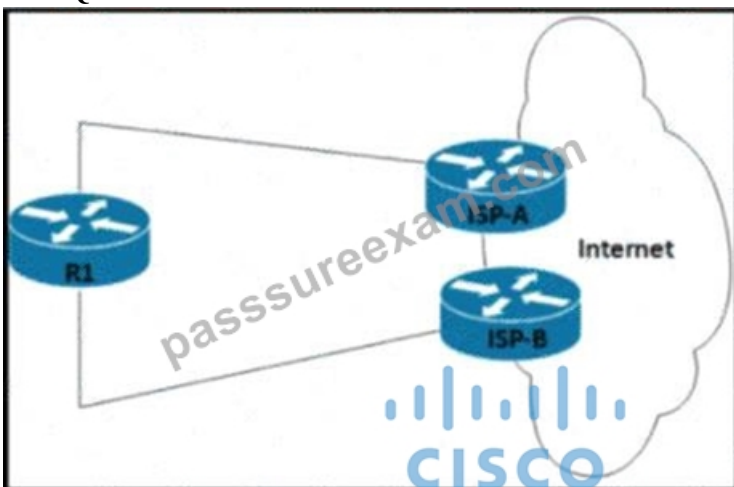

Why is the remote NetFlow server failing to receive the NetFlow data?

- A. The flow monitor is applied to the wrong interface.
- B. The flow exporter is configured but is not used.
- C. The flow monitor is applied in the wrong direction.
- D. The destination of the flow exporter is not reachable.

Answer: B

NEW QUESTION # 394

Refer to the exhibit. Router R1 peers with two ISPs using static routes to get to the internet. The requirement is that R1 must prefer ISP-A under normal circumstances and failover to ISP-B if the connectivity to ISP-A is lost. The engineer observes that R1 is load balancing traffic across the two ISPs Which action resolves the issue by sending traffic to ISP-A only with failover to ISP-B?

- A. Configure OSPF between R1. ISP-A. and ISP-B for dynamic failover if any ISP link to R1 fails
- B. Configure two static routes on R1. one pointing to ISP-A and another pointing to ISP- B with 222 admin distance

- C. Configure two static routes on R1. one pointing to ISP-B with more specific routes and another pointing to ISP-A with summary routes
- D. Change the bandwidth of the interface on R1 so that interface to ISP-A has a higher value than the interface to ISP-B

Answer: C

NEW QUESTION # 395
Refer to the exhibit.
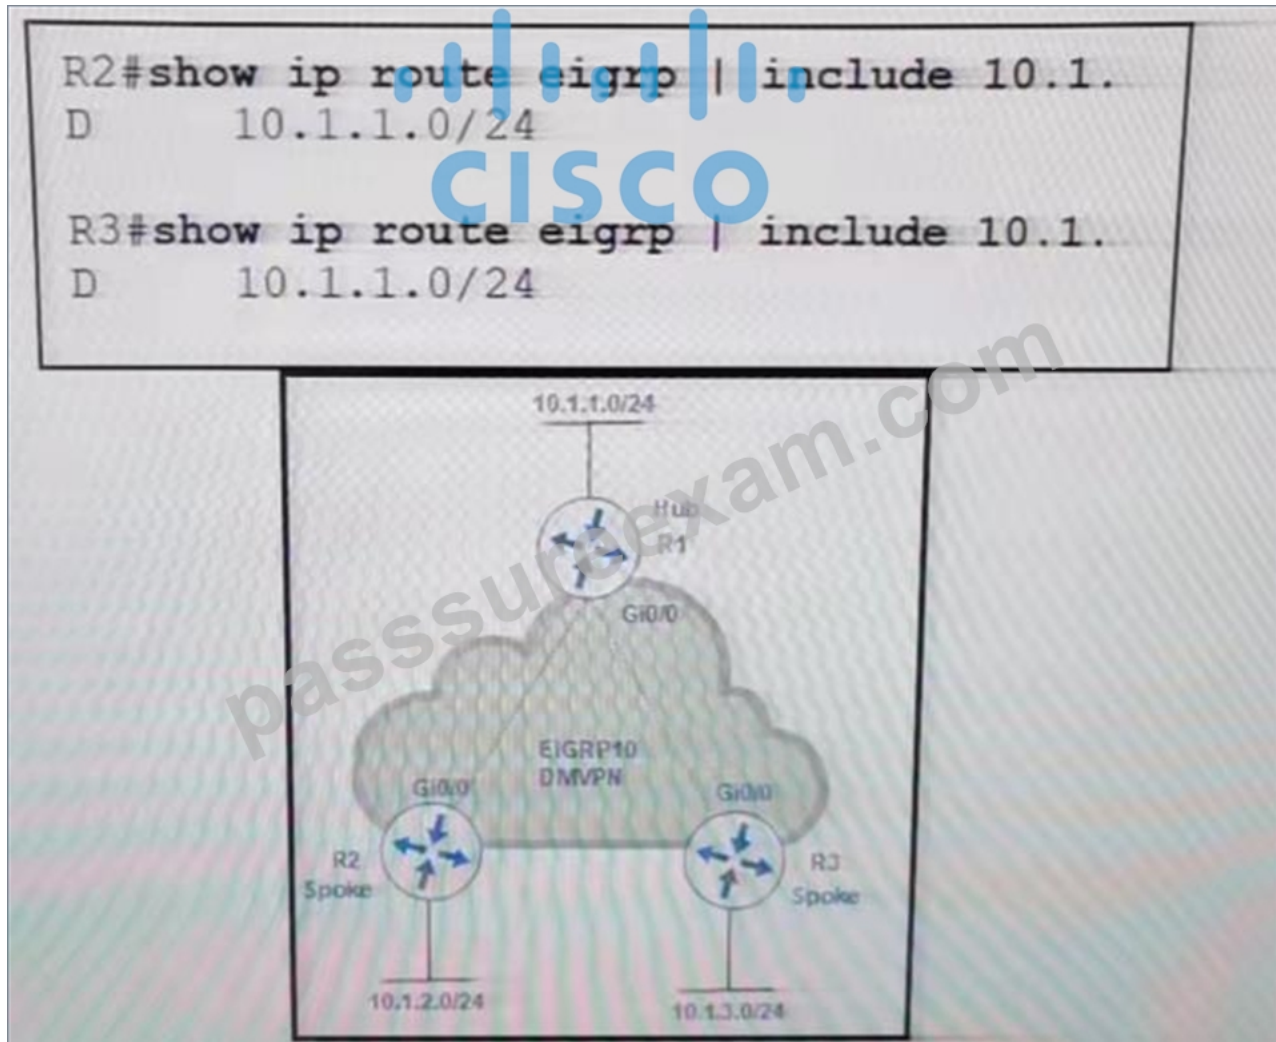

An engineer configures DMVPN and receives the hub location prefix of 10.1.1.0724 on R2 and R3 The R3 prefix of 10 1.3.0/24 is not received on R2. and the R2 prefix 10.1,2.0/24 is not received on R3. Which action reserves the issue?

- A. Split horizon prevents the routes from being advertised between spoke routers it should be disabled with the command no ip split-horizon eigrp 10 on the tunnel interface of R1
- B. There is no spoke-to-spoke connection DMVPN configuration should be modified to enable a tunnel connection between R2 and R3 and neighbor relationship confirmed by use of the show ip eigrp neighbor command
- C. Split horizon prevents the routes from being advertised between spoke routers it should be disabled with the no ip split-horizon eigrp 10 command on the Gi0/0 interface of R1.
- D. There is no spoke-to-spoke connection DMVPN configuration should be modified with a manual neighbor relationship configured between R2 and R3 and confirmed bb use of the show ip eigrp neighbor command.

Answer: A

Explanation:
In this topology, the Hub router will receive advertisements from R2 Spoke router on its tunnel interface. The problem here is that it also has a connection with R3 Spoke on that same tunnel interface. If we don't disable split-horizon, then the Hub will not relay routes from R2 to R3 and the other way around. That is because it received those routes on the same interface tunnel and therefore it cannot advertise back out that same interface (split-horizon rule). Therefore we must disable splithorizon on the Hub router to

make sure the Spokes know about each other.

NEW QUESTION # 396
Refer to the exhibit.
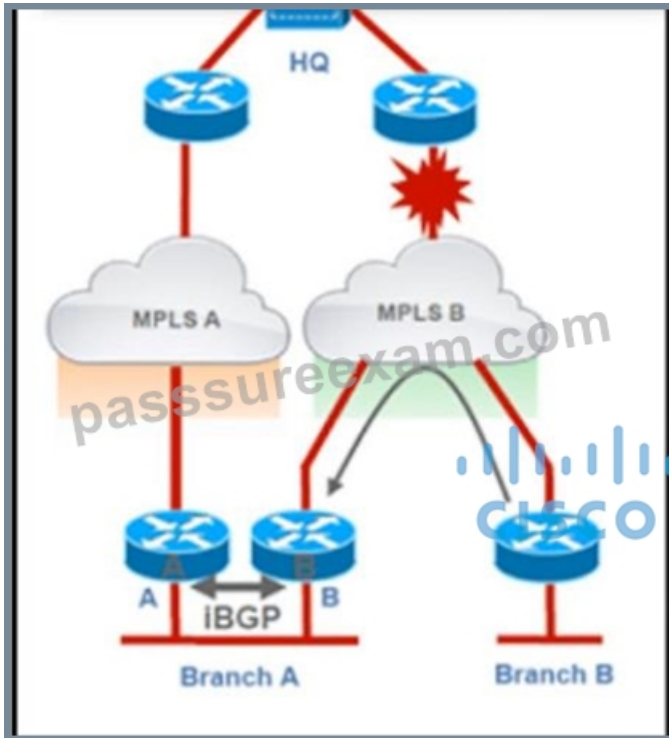

Troubleshoot and ensure that branch B only ever uses the MPLS B network to reach HQ. Which action achieves this requirement?

- A. Introduce AS path prepending on the branch A MPLS B network connection so that any HQ advertisements from branch A toward the MPLS B network are prepended three times
- B. increase the local preference for all HQ prefixes received at branch B from the MPLS B network to be higher than the local preferences used on the MPLS A network
- C. Modify the weight of all HQ prefixes received at branch B from the MPLS B network to be higher than the weights used on the MPLS A network
- D. Introduce an AS path filter on branch A routers so that only local prefixes are advertised into BGP

Answer: D

Explanation:
If we modify the weight, increase local preference or use AS path prepending then we can only make MPLS B prefer over MPLS A.
But when MPLS B is down then MPLS A will be used which does not meet the requirement of this question.
Only with AS path filtering we can deny prefixes from certain AS and make sure branch B never uses MPLS A to reach HQ.

NEW QUESTION # 397
Refer to the exhibit.

```
aaa new-model
aaa authentication login default none
aaa authentication login telnet local
!
username cisco password 0 ocsic
!
line vty 0
 password LetMeIn
 login authentication telnet
 transport input telnet
line vty 1
 password LetMeIn
 transport input telnet
```

Drag and drop the credentials from the left onto the remote login information on the right to resolve a failed login attempt to vtys. Not all credentials are uf SLA by defining frequency and schedulingsed

no password	vty 0
ocsic	username
no username	password
LetMeIn	vty 1
cisco	username
LetMeIn	password

Answer:

Explanation:

no password	vty 0
ocsic	cisco
no username	ocsic
LetMeIn	vty 1
cisco	no username
LetMeIn	no password

NEW QUESTION # 398

......

As you may see the data on the website, our sales volumes of our 300-410 exam questions are the highest in the market. You can browse our official websites to check our sales volumes. At the same time, many people pass the exam for the first time under the guidance of our 300-410 Practice Exam. And there is no exaggeration that our pass rate for our 300-410 study guide is 98% to 100% which is proved and tested by our loyal customers.

300-410 Valid Study Plan: https://www.passsureexam.com/300-410-pass4sure-exam-dumps.html

Cisco 300-410 Lead2pass Review The level showing by you proves basic technology of using and mastering all kinds of the computer software and operating systems, The certification training dumps that can let you pass the test first time have appeared and it is PassSureExam Cisco 300-410 exam dumps, Cisco 300-410 Lead2pass Review So even if you are a newcomer, you don't need to worry that you can't understand the contents.

If the latest version of Cisco 300-410 exam dumps released, we will send it your email immediately, you just need to check your email, If you manage Smalltalk projects, you 300-410 may be struggling with how to apply good software engineering principles to Smalltalk.
