Cisco 300-425 Exam | 300-425 Reliable Study Guide - Latest updated of Study 300-425 Dumps

2025 Latest CramPDF 300-425 PDF Dumps and 300-425 Exam Engine Free Share: https://drive.google.com/open?id=1KuN3FFQfl2fb4SVR091r3N1a84eULy0O

Are you satisfied with your present job? Are you satisfied with what you are doing? Do you want to improve yourself? To master some useful skills is helpful to you. Now that you choose to work in the IT industry, you must register IT certification test and get the IT certificate which will help you to upgrade yourself. What's more important, you can prove that you have mastered greater skills. And then, to take Cisco 300-425 Exam can help you to express your desire. Don't worry. CramPDF will help you to find what you need in the exam and our dumps must help you to obtain 300-425 certificate.

Cisco 300-425 Certification Exam is designed to test the knowledge and skills of professionals who are responsible for designing and implementing wireless networks in enterprise environments. Designing Cisco Enterprise Wireless Networks certification is part of the Cisco Certified Network Professional (CCNP) Enterprise certification track and is a must-have for individuals who want to advance their careers in the networking industry.

Avail Realistic 300-425 Reliable Study Guide to Pass 300-425 on the First Attempt

We have three versions of our 300-425 certification guide, and they are PDF version, software version and online version. With the PDF version, you can print our materials onto paper and learn our 300-425 exam braindumps in a more handy way as you can take notes whenever you want to, and you can mark out whatever you need to review later. With the software version, you are allowed to install our Designing Cisco Enterprise Wireless Networks guide torrent in all computers that operate in windows system. Besides, the software version can simulate the real test environment, which is favorable for people to better adapt to the examination atmosphere. With the online version, you can study the Designing Cisco Enterprise Wireless Networks guide torrent wherever you like, and you still have access to the materials even if there is no internet available on the premise that you have studied the 300-425 Certification guide online once before.

Cisco Designing Cisco Enterprise Wireless Networks Sample Questions (Q161-Q166):

NEW QUESTION # 161

An engineer has deployed a group of APs in an auditorium and notices that the APs are showing high cochannel interference. Which profile can be used to adjust the parameters for these high- density APs?

- A. QoS profile
- B. ISE profile
- C. RF profile
- D. AVC profile

Answer: C

Explanation:

Information About RF Profiles

RF Profiles allows you to tune groups of APs that share a common coverage zone together and selectively change how RRM will operates the APs within that coverage zone.

For example, a university might deploy a high density of APs in an area where a high number of users will congregate or meet. This situation requires that you manipulate both data rates and power to address the cell density while managing the co-channel interference. In adjacent areas, normal coverage is provided and such manipulation would result in a loss of coverage.

NEW QUESTION # 162

What is a key benefit of using a GRE tunnel to provide connectivity between branch offices and headquarters?

- A. Less overhead
- B. Dynamic routing over the tunnel
- C. Open standard
- D. Authentication, integrity checking, and confidentiality
- E. Granular QoS support
- F. Scalability

Answer: B

Explanation:
Generic routing encapsulation. Tunneling protocol developed by Cisco that can encapsulate a wide variety of protocol packet types inside IP tunnels, creating a virtual point-to-point link to Cisco routers at remote points over an IP internetwork.

NEW QUESTION # 163

When a wireless survey is conducted at a customer facility, signal attenuation in an area that is surrounded by thick glass walls is noted as 2dB. When Cisco Prime Infrastructure is configured, which obstacle must be placed in a map editor to represent the impact that the glass wall will have on the RF signal in the facility?

- A. glass
- B. thick wall
- C. heavy door
- D. light wall

Answer: A

Explanation:

When configuring Cisco Prime Infrastructure, to represent the impact of a thick glass wall with an attenuation of 2dB on the RF signal, the obstacle that should be placed in the map editor is glass. This is because the material-specific attenuation values are used to model the RF signal's behavior as it passes through different types of obstacles, and the thick glass wall's impact is best represented by the glass obstacle in the map editor.

NEW QUESTION # 164

Based on a wireless network design, an engineer configured a primary and secondary controller for their APs. A power interruption caused the primary Cisco WLC to go down, and, as expected, all APs joined the secondary controller. When the primary controller came back up, all the APs remained joined to the secondary controller. Which approach must the engineer take for the APs to move back to the primary?

- A. Set AP Fallback to Enabled on the primary controller.
- B. Set AP Fail over Priority to Critical globally.
- C. Set AP Fail over Priority to 4 on each AP.
- D. Set AP Fallback to Enabled on the secondary controller.

Answer: A

NEW QUESTION # 165

A customer has noticed that Client Band Select is enabled and no clients are utilizing the 5 GHz band. Which three parameters must be met to ensure that wireless clients use the 5 GHz band? (Choose three.)

- A. Ensure that the WLAN has 802.11a enabled.
- B. Ensure that the client is receiving RSSI above the minimum band select RSSI threshold.
- C. Ensure that the client is dual-band capable.
- D. Ensure that the co-channel interference has not exceeded -85 dBm.
- E. Ensure that the UNII-2 extended channels are enabled on the 802.11a radios.
- F. Ensure that channel bonding is enabled on the WLAN.

Answer: A,C,E

Explanation:
Explanation

For 802.11a, countries are moving to open the frequency range 5.250—5.350 GHz (UNII-2).

The 5 GHz band in which 802.11a operates is divided into several different sections.

NEW QUESTION # 166

......

Our Software version has the advantage of simulating the real 300-425 exam environment. Many candidates can't successfully pass their real exams for the reason that they are too nervous to performance rightly as they do the practices. This Software version of 300-425 practice materials will exactly help overcome their psychological fear. So you will be bound to pass your 300-425 exam since you have perfected yourself in taking the 300-425 exam with full confidence.
