

Cisco 350-901 Practice Test Software For Self-Evaluation

Cisco 350-901 Practice Test

Cisco 350-901 Exam is no joke, and neither is the Cisco 350-901 Practice Test that you'll need to prepare for them. To pass any Cisco certification exam, including the Developing Applications using Cisco Core Platforms and APIs, you'll need an excellent [Cisco 350-901 Practice Test](#) that includes all the information regarding the Exam that you need to know about the subject and that allows you to study on your own terms without needing to attend regular classes or expensive seminars.

Cisco 350-901 Practice Test can be your first step towards working in the information technology industry as a software developer or information systems manager. So it's important to choose the 350-901 Practice Test you use wisely for your Developing Applications using Cisco Core Platforms and APIs 350-901 Exam. If you use 350-901 Practice Test that are outdated or unreliable, you might struggle on the Exam without realizing it because these types of 350-901 Practice Test might include incorrect information or skip key topics completely.

Developing Applications using Cisco Core Platforms and APIs Dumps PDF helps you in the Actual Exam?

If you are appearing in the Cisco Developing Applications using Cisco Core Platforms and APIs 350-901 Exam and you have less time for preparation, then you can prepare your exam quickly from 350-901 Dumps PDF, which are provided by GetBrainDumps. If you just prepare our Cisco Certified DevNet Professional Dumps PDF and take part in the real Exam, you can take good percentage marks, making sure you are using our updated Cisco 350-901 Dumps PDF. A lot of students and IT professionals have less time for the preparation for the Cisco Exam, so we help them in clearing certifications exam quickly and easily with our 350-901 Dumps PDF. Once you have purchased our Developing Applications using Cisco Core Platforms and APIs Dumps PDF, then you can get in touch with our Cisco certified professionals for getting more tips about the [Cisco Certified DevNet Professional certification](#) Exam. When you are preparing for your Cisco Certified DevNet Professional Exam, then there are some unusual consequences like different questions coming in the Exam which you have not prepared for before or see the first time in the exam. It all happens because of outdated 350-901 Dumps PDF. So before appearing in the actual 350-901 Exam, you should have to verify from our expert team is it most updated are not.

BONUS!!! Download part of Itcertkey 350-901 dumps for free: <https://drive.google.com/open?id=1gcGCdFkPRlx7h1jPINI5DcjbmTcsPq35>

Often candidates fail the 350-901 exam due to the fact that they do not know the tactics of attempting the Developing Applications using Cisco Core Platforms and APIs (DEVCOR) (350-901) exam in an ideal way. The decisive part is often effective time management. Some Cisco 350-901 Exam Questions demand more attention than others, which disturbs the time allotted to each topic. The best way to counter them is to use an updated 350-901 Dumps.

How to study the Cisco 350-901: Developing Application using Cisco Core Platforms & APIs Exam

For the Cisco 350-901: Developing Application using Cisco Core Platforms & APIs Exam, Cisco offers several options on their website. Cisco provides classroom training through which Cisco's authorized learning partners teach instructor-led classes all over the world. E-Learning solutions are provided by Cisco for exam preparation via self-paced online courses. **350-901 exam dumps** available at certificate-questions are the most suitable study materials. We recommend that students take the **350-901 practice exams** after completing all the training. Students are highly encouraged to join Cisco's Certification community where they can join students from all over the world and learn together. For further exam self-study materials, refer to the links down below:

Classroom Training

E-Learning

Certification Community

Practice Exams

We recommend a combination of hands-on experience, completion of the training course, and self-study in the areas described in the Exam Outline section of this exam guide as preparation for this exam.

Difficulty in Writing Cisco 350-901: Developing Application using Cisco Core Platforms & APIs Exam

One of the most important certifications that applicants may have on their resume is Cisco 350-901: Developing Application using Cisco Core Platforms & APIs certification. One of the key problems faced by most candidates is to choose the right research materials for their exam preparation since they use the internet to find too much data that makes it difficult for them to trust, which would be helpful for them.

Cisco 350-901: Developing an Application using Cisco Core Platforms & APIs exam is not an easier one and can turn out to be a very difficult certification if not well prepared. If professionals take **350-901 practice exams**, they can greatly overcome the exam difficulty.

Applicants may, however, clear the exam with the right concentration and the right preparation material. Itcertkey have the most **350-901 exam dumps pdf**, having a fair understanding of the question trend being asked in real certification with the help of these study materials. For all of the changes in the course, the experts check Itcertkey **350-901 exam dumps**. Itcertkey also include practice testing, which proves to be an outstanding forum for testing the information gained. Refer to the links down below to access the study materials.

Test 350-901 Questions Vce, 350-901 Exam Outline

Our website is a very secure and regular platform. Firstly, we guarantee the security of the company's website whiling purchasing process of 350-901 exam torrent. Secondly, for all customer information about purchasing 350-901 practice test, we will be maintained by specialized personnel and absolutely no information disclosure will occur. To the last but also the most important, our 350-901 Exam Materials have the merit of high quality based on the high pass rate as 98% to 100%. The data speak louder than the other words. You should be confident with our 350-901 training prep.

Cisco Developing Applications using Cisco Core Platforms and APIs (DEVCOR) Sample Questions (Q355-Q360):

NEW QUESTION # 355

Which tow actions must be taken when an observable microservice application is developed? (Choose two.)

- A. Know the state of a single instance of a single service.
- **B. Place log statements in the code.**
- C. Use distributed tracing techniques.
- D. Deploy microservice to multiple datacenters.
- **E. Place "try/except" statement in code.**

Answer: B,E

Explanation:

Section: Application Deployment and Security

NEW QUESTION # 356

Refer to the exhibit.

```

apiVersion: v1
clusters:
- cluster:
  certificate-authority: fake-ca-file
  server: https://1.2.3.4
  name: development
- cluster:
  insecure-skip-tls-verify: true
  server: https://5.6.7.8
  name: scratch
contexts:
- context:
  cluster: development
  namespace: frontend
  user: developer
  name: dev-frontend
- context:
  cluster: development
  namespace: storage
  user: developer
  name: dev-storage
- context:
  cluster: scratch
  namespace: default
  user: experimenter
  name: exp-scratch
current context: ""
kind: Config
preferences: {}
users:
- name: developer
  user:
    client-certificate: fake-cert-file
    client-key: fake-key-file
- name: experimenter
  user:
    password: some-password
    username: exp

```

A kubeconfig file to manage access to clusters is provided. How many clusters are defined and which of them are accessed using username/password authentication versus certificate?

- A. two clusters; scratch
- B. three clusters; development
- C. three clusters; scratch
- D. two clusters; development

Answer: B

Explanation:

Explanation

NEW QUESTION # 357

Refer to the exhibit. Two editors are concurrently updating an article's headline from their mobile devices. What results from this scenario based on this REST API sequence?

- A. The article is marked as "Conflicted"
- B. The article headline is "Monday Headlines"
- C. The article headline is "Today Headlines"
- **D. The article headline is "Top Headlines"**

Answer: D

Explanation:

The HyperText Transfer Protocol (HTTP) 412 Precondition Failed client error response code indicates that access to the target resource has been denied. Last request for "Today Headlines" failed. D is therefore the answer since the article headline was changed to "Top Headlines" in #6 request.

NEW QUESTION # 358

Sselect Query response

HTTP

The **Sselect** query option allows clients to request a specific set of properties for each entity or complex type. The value of the **Sselect** option is a comma-separated list of property names.

The **Sselect** option is not intended to be a query filter. For query filters, see the **Sfilter** operator.

The ability to select which properties are returned in the HTTP response can help to minimize network traffic between the client and the Intersight Web service and improve the performance of the client. This can be especially useful for mobile applications.

Example: Query **compute.RackUnit** managed objects, where each response managed object is represented with three properties: **Vendor**, **Model**, and **Serial** (instead of having the full JSON output for **compute.RackUnit**). Note the "Moid" is always included in the response regardless of what is specified in the **Sselect** query parameter.

```
GET /api/v1/compute/RackUnit?Sselect=Vendor,Model,Serial
```

HTTP Response:

```
{
  "Results": [
    {
      "Model": "HX220C-M5SX",
      "Moid": "59696db9a94c04000137f683",
      "Serial": "W2P21120SP9",
      "Vendor": "Cisco Systems Inc"
    },
    {
      "Model": "UCSC-C240-M5SN",
      "Moid": "59696f3ba94c04000137f8d4",
      "Serial": "W2P211704KM",
      "Vendor": "Cisco Systems Inc"
    },
    {
      "Model": "HX220C-M5SX",
      "Moid": "59696fab94c04000137fc13",

```

```
GET /api/v1/compute/RackUnits?$select=Vendor,Model,Serial
```

HTTP Response:

```
{
  "Results": [
    {
      "Model": "HX220C-M5SX",
      "Moid": "59696db9a94c04000137f683",
      "Serial": "WZP21120SP9",
      "Vendor": "Cisco Systems Inc"
    },
    {
      "Model": "UCSC-C240-M5SN",
      "Moid": "59696f3ba94c04000137f8d4",
      "Serial": "WZP211704KM",
      "Vendor": "Cisco Systems Inc"
    },
    {
      "Model": "HX220C-M5SX",
      "Moid": "59696faba94c04000137fc13",
      "Serial": "WZP21120SP1",
      "Vendor": "Cisco Systems Inc"
    }
  ]
}
```

Logical Operator

"Equal" Operator

The **eq** operator returns true if the left operand is equal to the right operand, otherwise it returns false. The **eq** operator accepts numeric, dates and string values.

Example: Query RackUnit resources where Serial equals to "WZP211704KM"

```
GET /api/v1/compute/RackUnits?$filter=Name eq 'WZP211704KM'
```

Example: Query RackUnit resources where the value of the 'Model' property is equal to 'UCSC-C240-M5SN'

```
GET /api/v1/compute/RackUnits?$filter=Model eq 'UCSC-C240-M5SN'
```

Example: Query RackUnit resources where the number of CPU cores is 24. Numeric values are specified without quotes.

```
GET /api/v1/compute/RackUnits?$filter=NumCpuCores eq 24
```

Example: Query Audit log records where 'CreationTime' is '2018-06-20T05:31:38.862Z'.

```
GET /api/v1/aaa/AuditRecords?$filter=CreateTime eq 2018-06-20T05:31:38.862Z
```

"Not Equal" Operator

The **ne** operator returns true if the left operand is not equal to the right operand, otherwise it returns false. The **ne** operator accepts numeric, dates and string values.

Example: Query RackUnit resources where Serial is not equal to "WZP211704KM"

```
GET /api/v1/compute/RackUnits?$filter=Name ne 'WZP211704KM'
```

Example: Query RackUnit resources where the value of the 'Model' property is not equal to 'UCSC-C240-M5SN'

```
GET /api/v1/compute/RackUnits?$filter=Model ne 'UCSC-C240-M5SN'
```

```

# Intersight REST API Operations
rackunit_json_body = {
    "request_method": "<item 1>",
    "resource_path": {
        'https://www.intersight.com/api/v1/' +
        'compute/RackUnits?$select=<item 2>'
    }
}

firmware_json_body = {
    "request_method": "<item 3>",
    "resource_path": "https://www.intersight.com/api/v1/firmware/<item 4>",
    "request_body": {
        "DirectDownload": {},
        "NetworkShare": {
            "MapType": "www",
            "<item 5>": "nw_upgrade_full",
            "HttpServer": {
                "LocationLink": "http://10.10.10/ucs-c240m4-huu-
4.0.2h.iso"
            }
        },
        "UpgradeType": "<item 6>",
        "Server": "<item 7>"
    }
}

RESPONSE = requests.request(
    method=rackunit_json_body['request_method'],
    url=BURL+rackunit_json_body['resource_path'],
    auth=AUTH
)

firmware_json_body['request_body']['Server'] = {
    json.loads(RESPONSE.text)['Results'][0]['<item 7>']
}

RESPONSE = requests.request(
    method=firmware_json_body['request_method'],
    url=BURL+firmware_json_body['resource_path'],
    data=json.dumps(firmware_json_body['request_body']),
    auth=AUTH
)

```

Refer to the exhibit above and click on the resource tabs in the top left corner to view resources to help with this question. The script uses the Cisco Intersight REST API. Drag and drop the code snippets from the left onto the item numbers on the right to match the missing sections in the Python script to update the firmware on specific Cisco Intersight USC rack server.DMZ_R-L3-ADJM. Not all code snippets are used.

Answer:

Explanation:

NEW QUESTION # 359

Drag and drop the REST API authentication method from the left to the description on the right

Answer:

Explanation:

NEW QUESTION # 360

.....

Some top-of-the-list Developing Applications using Cisco Core Platforms and APIs (DEVCOR) (350-901) exam benefits are proven recognition of skills, more career opportunities, instant rise in salary, and quick promotion. To gain all these Cisco 350-901 certification benefits you just need to pass the Developing Applications using Cisco Core Platforms and APIs (DEVCOR) (350-901) exam which is quite challenging and not easy to crack. However, with the help of Itcertkey 350-901 Dumps PDF, you can do this job easily and nicely.
