CISI Investment Funds in Canada (IFC) Exam Sample Questions (Q234-Q239):

NEW QUESTION # 234

Which statement best describes what a rational investor will do when comparing the risk and return of two investments?

- A. He will select the one that minimizes risk and maximizes return
- B. He will select the one with the higher expected risk because that is the only way to earn a higher return
- C. He will select the one with the lower risk because all investors are risk averse
- D. He will select the one that maximizes risk and maximizes return

Answer: A

Explanation:

A rational investor seeks to maximize return for a given level of risk or minimize risk for a given level of return. The feedback from the document states:

"Given a choice between two investments with the same amount of risk, a rational investor would always take the security with the higher return. Given two investments with the same expected return, the investor would always choose the security with the lower risk. Investors are risk averse, but not all to the same degree. Each investor has a different risk profile." Reference: Chapter 8 - Constructing Investment Portfolios
Learning Domain: Understanding Investment Products and Portfolios

NEW QUESTION # 235

What type of fund offers the highest expected risk and the highest expected return in terms of the risk-return trade-off between different types of mutual funds?

- A. Specialty fund
- B. Real estate fund
- C. Canadian Equity fund
- D. Mortgage fund

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Specialty funds, due to their focused and often speculative investments, carry the highest expected risk and return among mutual funds. The feedback from the document states:

"The highest risk, highest expected return mutual fund is a specialty fund." Reference: Chapter 15 - Selecting a Mutual Fund
Learning Domain: Evaluating and Selecting Mutual Funds

NEW QUESTION # 236

Based on the financial planning pyramid, what security would be appropriate for a very aggressive investor?

- A. Commodities
- B. Tax shelters
- C. Over the Counter (OTC) Securities
- D. Foreign stocks

Answer: C

Explanation:

The financial planning pyramid illustrates the risk-return spectrum of investments. For a very aggressive investor, high-risk securities like OTC securities are suitable. The feedback from the document states:

"As a visual aid, the planning pyramid helps you show clients how mutual funds fit into the investment universe. A very aggressive investor could consider investments such as OTC Securities." Reference: Chapter 4 - Getting to know the client
Learning Domain: The Know Your Client Communication Process

NEW QUESTION # 237

Which of the following statements is true when comparing fund of funds to traditional mutual funds?

- A. Fund of funds have more fee structure options available and lower fees than traditional mutual funds.
- B. Since fund of funds invest primarily outside Canada, they will have higher fees than traditional mutual funds.
- **C. Fund of funds have higher fees than traditional mutual funds since there are two sets of management fees.**
- D. Fund of funds have more asset class options available and lower fees than traditional mutual funds.

Answer: C

Explanation:

A fund of funds is a mutual fund that invests in other mutual funds. This means that there are two levels of management fees: one for the fund of funds itself and one for the underlying funds. Therefore, fund of funds have higher fees than traditional mutual funds that invest directly in securities.

NEW QUESTION # 238

An investor who wants to deplete their funds within the next five years is considering various withdrawal plans. Assuming the investor is less concerned about predictable annual cash flows, what withdrawal plan type is most appropriate for the investor?

- A. Life.
- B. Fixed-dollar.
- **C. Fixed-period.**
- D. Ratio.

Answer: C
