CLT Practice Online - Your Trusted Partner to Pass Certified Logistics Technician (CLT) 4.0

As we know, if you can obtain the job qualification CLT certificate, which shows you have acquired many skills. In this way, your value is greatly increased in your company. Then sooner or later you will be promoted by your boss. Our CLT Preparation exam really suits you best for your requirement. We have been considered to be the best friend for helping numerous of our customers successfully get their according CLT certification.

MSSC Certified Logistics Technician (CLT) 4.0 Sample Questions (Q76-Q81):

NEW QUESTION # 76

Pick-to-light systems provide a fast and accurate way to do which of the following?

- A. calculate lighting brightness
- **B. automatically verify a correct pick**
- C. select house lighting schemes
- D. interface information to truck drivers

Answer: B

Explanation:

A Pick-to-Light (PTL) system is a semi-automated order fulfillment technology that uses light displays to guide workers to the correct picking locations. According to CLT's "Order Processing" materials, PTL increases speed and accuracy by illuminating the bin or slot containing the required item, while digital displays show quantity and confirmation buttons verify completion. This eliminates paper pick lists and reduces errors associated with manual documentation. Unlike systems that rely on visual searches or scanning after the fact, PTL enables real-time verification at the point of pick. The CLT curriculum emphasizes that these systems improve worker productivity and throughput while reducing training time. PTL technology integrates with the Warehouse Management System (WMS) to automatically update inventory balances and order status once confirmed.

NEW QUESTION # 77

Which of the following is an invoice given to a shipper or consignee by the carrier as a request for payment for services?

- **A. Carrier Freight Bill**
- B. Delivery Receipt
- C. Shipping Order
- D. Bill of Lading

Answer: A

Explanation:

Within CLT logistics documentation, Carrier Freight Bill is the billing document carriers present to customers (shipper or consignee) requesting payment for transport services. The Bill of Lading is a contract/document of title, Shipping Order is internal instruction to the carrier, and Delivery Receipt confirms delivery.

NEW QUESTION # 78

Which of the following containers is typically used to transport and store liquids and powdered or granulated goods in bulk?

- A. wire mesh containers
- B. corrugated paper containers
- C. military crates
- **D. drums and barrels**

Answer: D

Explanation:

The Packaging and Shipment competency in CLT highlights that certain materials-particularly liquids, chemicals, and powdered or granulated bulk goods-require sealed containment to prevent leakage, contamination, or evaporation. Drums and barrels (metal, plastic, or fiber) meet these requirements because they provide durable, sealed storage and easy handling via pallet jacks or drum clamps. Corrugated containers lack liquid containment strength, and wire mesh containers are ventilated for solid goods. Using proper packaging ensures regulatory compliance for hazardous or sensitive materials and preserves product quality during transport and storage.

NEW QUESTION # 79

Which of the following statements is an example of ways to reduce the cost of transportation?

- **A. increase consolidation of shipments**
- B. increase the number of parcels
- C. increase the number of pickups
- D. increase number of shipments

Answer: A

Explanation:

CLT emphasizes that transportation cost is reduced by increasing load utilization and reducing the number of shipments. Shipment consolidation means combining smaller shipments into full loads-lower per-unit cost, fewer trips, better utilization of equipment. Options A/B/C all tend to raise handling/shipping costs; D is the correct cost-saving strategy.

NEW QUESTION # 80

The best way to protect items from weather damage is

- A. tarp cover
- B. outdoor storage
- **C. indoor storage**
- D. shrink wrap

Answer: C

Explanation:

The CLT "Product Storage" competency underscores that indoor storage provides the highest protection from environmental hazards such as rain, sunlight, humidity, and temperature fluctuations. Indoor facilities control climate, prevent corrosion, and maintain packaging integrity. While shrink-wraps or tarps offer temporary protection, they cannot replace controlled-environment storage. CLT training stresses evaluating material sensitivity-some goods require climate-controlled or humidity-regulated areas. Indoor storage also enhances security and reduces contamination risk. Implementing proper racking, ventilation, and housekeeping standards aligns with OSHA and quality-assurance guidelines, ensuring products maintain condition and compliance until shipment.

NEW QUESTION # 81

.....

Our CLT test prep is of high quality. The passing rate and the hit rate are both high. The passing rate is about 98%-100%. We can guarantee that you have a very high possibility to pass the exam. The CLT guide torrent is compiled by the experts and approved by the professionals with rich experiences. The CLT prep torrent is the products of high quality compiled elaborately and gone through strict analysis and summary according to previous exam papers and the popular trend in the industry. The language is simple and easy to be understood. It makes any learners have no learning obstacles and the CLT Guide Torrent is appropriate whether he or she is the student or the employee, the novice or the personnel with rich experience and do the job for many years.
