

CMMC-CCA Exam Simulations - Exam CMMC-CCA Answers

P.S. Free 2025 Cyber AB CMMC-CCA dumps are available on Google Drive shared by Prep4sureExam: <https://drive.google.com/open?id=1rw4tJZCnrW1hwbIlgNjcSy7cX6R5yh6qD>

There has been fierce and intensified competition going on in the practice materials market. As the leading commodity of the exam, our CMMC-CCA training materials have get pressing requirements and steady demand from exam candidates all the time. So our CMMC-CCA Exam Questions have active demands than others with high passing rate of 98 to 100 percent. Don't doubt the pass rate, as long as you try our CMMC-CCA study questions, then you will find that pass the exam is as easy as pie.

If you want to give up your certificate exams as you fail CMMC-CCA exam or feel it too difficult, please think about its advantages after you obtain a Cyber AB certification. Many special positions require employees to have a qualification. If you think it is very difficult for you to pass exams, our CMMC-CCA Valid Exam Cram PDF can help you to achieve your goal. Our exam materials are collected from the real test center and edited by our experienced experts. If you need 100% passing rate, our CMMC-CCA valid exam cram PDF can help you.

Exam CMMC-CCA Answers - New CMMC-CCA Exam Simulator

Cyber AB CMMC-CCA practice test software contains many Cyber AB CMMC-CCA practice exam designs just like the real Certified CMMC Assessor (CCA) Exam (CMMC-CCA) exam. These CMMC-CCA practice exams contain all the CMMC-CCA questions that clearly and completely elaborate on the difficulties and hurdles you will face in the final CMMC-CCA Exam. We update our Cyber AB CMMC-CCA exam questions bank regularly to match the changes and improve the quality of CMMC-CCA questions so you can get a better experience.

Cyber AB CMMC-CCA Exam Syllabus Topics:

Topic	Details
Topic 1	• CMMC Level 2 Assessment Scoping: This section of the exam measures skills of cybersecurity assessors and revolves around determining the proper scope of a CMMC assessment. It involves analyzing and categorizing Controlled Unclassified Information (CUI) assets, interpreting the Level 2 scoping guidelines, and making accurate judgments in scenario-based exercises to define what assets and systems fall within assessment boundaries.

Topic 2	Assessing CMMC Level 2 Practices: This section of the exam measures skills of cybersecurity assessors in evaluating whether organizations meet the required practices of CMMC Level 2. It emphasizes applying CMMC model constructs, understanding model levels, domains, and implementation, and using evidence to determine compliance with established cybersecurity practices.
Topic 3	CMMC Assessment Process (CAP): This section of the exam measures skills of compliance professionals and tests knowledge of the full assessment lifecycle. It covers the steps needed to plan, prepare, conduct, and report on a CMMC Level 2 assessment, including the phases of execution and how to document and follow up on findings in alignment with DoD and CMMC-AB expectations.
Topic 4	Evaluating Organizations Seeking Certification (OSC) against CMMC Level 2 Requirements: This section of the exam measures skills of cybersecurity assessors and focuses on evaluating the environments of organizations seeking certification at CMMC Level 2. It covers understanding differences between logical and physical settings, recognizing constraints in cloud, hybrid, on-premises, single, and multi-site environments, and knowing what environmental exclusions apply for Level 2 assessments.

Cyber AB Certified CMMC Assessor (CCA) Exam Sample Questions (Q21-Q26):

NEW QUESTION # 21

The Daily Checkpoint meeting is a required component of the CMMC assessment process. It is conducted at the end of every day and includes the Assessment Team, Lead Assessor, OSC PoC, OSC Assessment Official, and other key personnel. This meeting helps ensure all the following, EXCEPT?

- A. The C3PAO Assessment Team is comfortable.
- B. The assessment is proceeding as planned.
- C. Data collection needs are being met.
- D. Issues impacting the completion of the assessment are identified, mitigated, and resolved.

Answer: A

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CAP outlines the Daily Checkpoint meeting's purpose as ensuring progress, data collection, and issue resolution, not team comfort, which is not a formal objective. Options A, B, and D are explicitly listed goals.

Extract from Official Document (CAP v1.0):

* Section 2.3 - Daily Checkpoint Meetings (pg. 27): "The meeting ensures data collection needs are met, issues are identified and resolved, and the assessment proceeds as planned." References:

CMMC Assessment Process (CAP) v1.0, Section 2.3.

NEW QUESTION # 22

An OSC is preparing for an assessment and wants to gather evidence that will be used by the Lead Assessor to determine the scope of the assessment. The OSC currently operates a hybrid network, with part of their infrastructure at their physical location and part of their infrastructure in a cloud environment.

What evidence should the OSC collect that would assist the Lead Assessor in determining cloud and hybrid environment constraints?

- A. Cloud Service Provider's Customer Responsibility Matrix
- B. System inventory
- C. Subnetworks list
- D. Company-owned hardware list

Answer: A

Explanation:

For hybrid and cloud environments, the Customer Responsibility Matrix is the critical artifact. It identifies which security responsibilities are handled by the CSP and which remain with the OSC, directly impacting scope.

Extract:

"The OSC must provide responsibility matrices or equivalent documentation that clearly delineates which security controls are the responsibility of the provider and which are retained by the OSC." This is necessary for the Lead Assessor to define assessment scope boundaries.

Reference: CMMC Assessment Guide - Level 2; Scoping Guidance for Cloud and Hybrid Environments.

NEW QUESTION # 23

John, a CCA, has been assigned by his C3PAO to conduct a CMMC assessment for an OSC. During the assessment, John notices that the OSC's security practices leave much to be desired. After speaking with the OSC's IT staff, John offers to connect them with a vendor he knows who sells a vulnerability management tool that could address some of their weaknesses. According to the CMMC CoPC, which of the following best describes John's actions?

- A. John acted appropriately by trying to help the OSC improve its security posture.
- **B. John violated the principles of professionalism and objectivity by soliciting business for a third-party vendor while serving on the Assessment Team**
- C. John's actions were deemed acceptable since he did not directly profit from connecting the OSC with the vendor.
- D. John did not show respect for intellectual property.

Answer: B

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CoPC prohibits CCAs from soliciting business or offering vendor recommendations during assessments, violating Professionalism and Objectivity. Option A (appropriate) ignores this. Option B (IP) is unrelated.

Option C (no profit) doesn't excuse the violation. Option D is correct.

Extract from Official Document (CoPC):

* Paragraph 3.3(4) - Proper Use of Methods (pg. 7): "Do not solicit business for third-party vendors while serving on an Assessment Team." References:

CMMC Code of Professional Conduct, Paragraph 3.3(4).

NEW QUESTION # 24

During a CMMC assessment for an OSC, the Point of Contact (POC) mentioned they conducted a self-assessment beforehand. The self-assessment was part of the organization's preparations for the CMMC assessment by your C3PAO. Which publication offers the best guidance for the self-assessment procedures OSCs might use for CMMC compliance?

- A. NIST SP 800-171
- B. NIST SP 800-172
- **C. NIST SP 800-171A**
- D. DFARS Clause 252.204-7012

Answer: C

Explanation:

Comprehensive and Detailed in Depth Explanation:

NIST SP 800-171A provides detailed assessment procedures for evaluating NIST SP 800-171 security requirements, which underpin CMMC Level 2. It offers flexible methods (examine, interview, test) for self-assessments, making it the best guidance for OSCs preparing for CMMC, as noted in the CAP. Option A (DFARS 252.204-7012) specifies compliance requirements, not assessment procedures. Option B (NIST SP

800-171) lists controls, not how to assess them. Option C (NIST SP 800-172) addresses enhanced requirements beyond Level 2. Option D is the correct answer.

Reference Extract:

* NIST SP 800-171A, Introduction: "Provides assessment procedures for NIST SP 800-171, suitable for self-assessments or third-party evaluations."

* CMMC Assessment Process (CAP) v1.0, Section 1.2: "NIST SP 800-171A guides self-assessment preparation." Resources: <https://csrc.nist.gov/pubs/sp/800/171/a/final>; <https://cyberab.org/Portals/0/Documents/Process-Documents/CMMC-Assessment-Process-CAP-v1.0.pdf>

NEW QUESTION # 25

An OSC uses a web application for document management. Employees can access this application from any internet-connected device through a web browser. The application resides on servers in a secure data center managed by a third-party vendor. The OSC maintains separate servers within its network to store the documents. When employees use the web application to upload documents, what type of locations are they interacting with?

- A. The physical location of their internet-connected devices
- B. The physical location of the vendor's data center
- C. A secure area within the OSC's data center
- **D. A logical location for the web application and a physical location for the document storage servers**

Answer: D

Explanation:

Comprehensive and Detailed in Depth Explanation:

The web application is a logical location on vendor servers, while document storage is a physical location on OSC servers, per CMMC scoping. Option B misplaces the vendor-hosted app. Option C (device location) is the access point, not destination. Option D ignores OSC storage. Option A is the correct answer.

Reference Extract:

* CMMC AG Level 2, Section 1.3: "Cloud apps are logical locations; on-site storage is physical."
